Subject More Messages To The Pr-sident.
2011.

June 28,

Here are two more messages to the pre-ident.

Tuesday, May 4th teleconference, Ashtar asked us to write an email to Pres-dent Obam-, calling for Disclosure to allow Galactic Federation assistance in the clean-up of the Gulf of Mexico oil flow, the devastation from which is beyond our current capabilities to prevent.

Some emails already sent on the

"Dear Pr-sident Ob-ma:
"I know you are worried about the banks and the economy and we commend you for your care and concern in keeping things going. We just wanted to pass on this information from a source, just in case you aren't privy to things that are coming through to us over the Internet.
"As always, we do know of your pains and heartaches and realize you are playing the ultimate chess game. Of course, it is hard from our end to have endless patience with this process, but in the end we wonder how you are holding up too under the pressure.

"Please know that we do have our brains out here, and we are very concerned because however you are going to be able to work it out with B-, with the economists, with the powers that be that are running this world, in the meantime we are very concerned for our own safety and well-being.
Not just the people in the gulf, but all of us will be affected by the decisions that you are able to make.

"We know your hands are tied on many fronts, and we do want you to live to see your dreams and visions implemented. In the meantime, we are losing patience with the process and wish for d-vine intervention.

"They're not going to be able to fix the basic problem, the gusher itself. They think it will slowly run out of fluid, but we are hearing that it will fill itself back up because it is connected to a big reservoir down there in the earth.
"Therefore, the main solution besides the present reality would be to get the Good Galactics down here with their technology and let them seal up the wound there in the earth under the ocean (and we are hearing that there are more than one).

"We are very worried that the people that are running this world are so dumb as not to think that the common people have brains enough to figure out what's really happening.

Love & blessings,
Wendy

"Blessings Pre-ident Oba-a, "I realize your task may seem overwhelming at times, and there are options that you have not explored. As you stated in your email below: "your administration will continue to leverage every resource at our disposal to protect coastlines, to clean up the oil,".

"The Galactic Federation is waiting to assist and will gladly step forward in love to help you clean up this oil spill in a short amount of time, help the animals and their habitats and completely restore our eco system.

"I ask that you let contacting the Galactic Federation be your number one resource. You may choose to call upon Dr. Steven G-reer to give you a briefing on who the Federation is or look here

<http://www.disclosureproject.org/>

"If the Galactic Federation was here to destroy us, we wouldn't be here now. This information has been withheld from the people for decades and the truth must be revealed.

"I encourage you, Pr_sident Obam- to step forward in f_ith and ask for their help NOW, do not wait another moment. We the people and our dear Mother Earth need their help now. Our planet is a living and sentient being and is crying out for humans to recognize the truth of who they are and to align in love that we are all ONE. "If someone is taking a hammer to your foot does the rest of your body feel it? Of course it does, so consider what this oil spill is doing to our planet and all the beings around it! "I realize you must address many areas of this mess that have been created by others, and I reiterate the beings from other planets have the technology NOW and will come only when they are invited by YOU. I am asking you again to bring them here and ask for their help to heal the planet.

"In peace and truth, Suzi

Mr Oba-a, First, I'd like to thank you for taking time to read this message. My name is Felix, I'm 32. I'm also what some people call an "indigo s-ul" which purpose here is to hold the light of truth.

I'd like to share with you my concern about the current state of affairs regarding the situation in the gulf of Mexico. I noticed in your "speech" on this matter that you did not get into "out of the box" solutions such as getting help from our galactic family. As you are currently aware, they are more than willing to help us clean up this mess, especially fixing the cracks in the ocean floor, technology can cure in a swift manner. My message is this: please proceed rapidly with the disclosure of the galactic presence, and tell the world they have offered their help to fix up things that we can't: the leaks in the ocean floor. This is a golden opportunity for a new cooperation to start.

On behalf of the Indigo family and I tell you that we are "committed" to support the disclosure effort, by speaking out loud the truth about our galactic family NOW, and more intensely than ever after the disclosure.
