June Update

MONTHLY CHAN-ELS - MESSAGES - EVENTS
Dear Ja-is,

The full Kryon team has just returned from the annual Kryon Summer Light Conference in Sedona. After four years of going to Sedona for this event, I received the best gift I could ever ask for regarding this event: A NEW AUDITORIUM! Red Rock High has been building

this facility for three years, but instead of a "high school auditorium," it was somehow funded as a 700-seat, fine arts theatre! Hardly a school facility, this magnificent theatre will now service the entire city of Sedona with the finest state of the art facility I have seen in years!

If you are thinking that Sedona is hot, the parking is not good, and we are in a gymnasium... think again! Parking was expanded to fit everyone two years ago. The facility is cool, beautiful, and works! Sound and lights are the best, and the presentation was made even easier by the wonderful attitude of the school towards our Kryon team. You can pre-order lunch (offered by a Sedona restaurant) and still be in air conditioning, right on the grounds. The conference was convenient, energetic, and with profound information all weekend.

Next year, our 2012 Kryon Summer Light Conference will again feature GREGG BRADEN as our keynote speaker!!! That's June 8-10, so put this event on your calendar now, for it's going to fill up! Honest! Who better to bring in 2012 than the man who is renowned for his work on this very subject? We will begin taking reservations in January 2012.

As usual, we will list all the places to stay in Sedona, including prices, on our website. Some of them even have special Kryon rates! We try to make it easy for everyone to attend. The energy is awesome, and together with Gregg Braden, Kryon, and the entire team, we will again create magic.

Please enjoy this edition of our Kryon Family Blessings!

LATEST KRYON CHANNEL

"A Summary"

Gaithersburg, MD
April 22, 2011

Is the earth going to stop rotating for 3 days, then start again? Will space ships rescue us from all this? Is the Il-uminati alive and well? What's really happening with the weather? What about these amazing and frightening current events in the middle east? What about our recession? Is it really the end? Here is a very complete and "to the point" chann-ling about all of that and much more... even some predictions thrown in. Heartwarming as usual, putting a new light on so much that is troubling so many.

Read the Chann-1

Why isn't the Kryon website updated with new channels and audio more often? I don't see anything new when I go to the website...

If you are wondering why you don't see changes in some of the Kryon pages, such as the free audio page, the seminar scheduling page, and the channelling transcriptions... the answer could be in your own computer. The reality is that these are updated constantly.

This problem starts when old Internet pages get "stuck" in your computer's memory, or cache, and keeps you from seeing our updated pages. This glitch is especially common with Internet Explorer users who use bookmarks to go to their favorite pages on our site. The fix is simple - refresh the webpage by pressing the F5 button on your keyboard or click the Reload/Refresh button on your browser.

PS: If you ARE using Internet Explorer... why? Most power internet users know that the free program called FIREFOX is one of the fastest and most stable browsers available. Explorer simply comes with most computers but is not the most robust browser available. Go to www.mozilla.com and download it for free.
