SaLuSa 1-July-2011

Matters have almost reached their conclusion, as the preparations already made to bring about disclosure are well advanced. When dealing with the dark Ones regrettably their word cannot be trusted, but fortunately when in their presence we can read their minds. That is useful as we realize the pressure is getting to them, and suddenly they are concerned as to what their future holds. For those who have committed the more serious crimes against you, the realization of the gravity of them has shaken their confidence in getting away with such crimes. We have offered a way out so that we can go ahead with the many tasks that are necessary. A way out is not the avoidance of justice but their removal to a safe haven, to keep them out of everyone's way until they are called to answer for their crimes. Naturally many, many people will be seriously shocked to know the truth, but we will make it clear we do not condone revenge and that violence of any kind is abhorred. We can tell you that there will be plenty going on to keep your minds on the tasks ahead. We would not want you wasting your energy or time on pointless actions, when there will be so much to do of a positive nature.

You will have noticed that in spite of the lack of coverage from your media, there is increasing unrest around the world. Demonstrations are increasing and becoming well supported no matter what type of opposition they meet. Often it is the authorities that are heavy handed and start violence, which is self-defeating and only encourages retaliation. We wonder when Man will learn that peace is achieved through dialogue and good sense. What all of this shows is that the people have realized that the ultimate power lies with them.

Indeed for what reason do you elect your representatives, except to express your views and act expect them to take action. If you cannot get support through your vote, it is regrettable that other means are chosen. In the future there will be no such problems, as the people who represent you will be selected based upon their suitability for the job in hand. That means being sufficiently evolved to act in accordance with Universal Law, and treating all people alike with love and respect. Eventually you will abide by the Spiritual Brotherhood and that will be consistent with your own level of Christ Consciousness.

As time progresses towards Ascension, the changes in your levels of consciousness will be quite noticeable. That in itself will take mankind to a level where there will come a greater degree of harmony, and far less discordant actions. A happy life will grow out of the chaos, that will be used to cut the ties of anything remaining from the old paradigm that cannot have a place in the New Age. You will soon see that very little of what you have taken for granted as your way of life, will serve you in the future. All is to be uplifted and the yoke of slavery will be removed. That may sound dramatic but we assure you that you have given away so many of your rights, and you have not realized that it was happening. You have yet to experience true freedom but it will come, and the first changes will occur before Ascension, as any draconian laws to keep you under control will be annulled. You hardly need to be informed of the new Laws, as they all revolve around Unconditional Love.

What might feel beyond you now will become easier with time, particularly when you find that people around you are also changing quickly for the better. Because of the increase in incoming energies, the continuing changes in consciousness will mean a more harmonious relationship with each other.

If possible you should try to cultivate better ones as you head for Ascension. You might see this as a self-imposed test of how you are progressing, and indeed you should note an ever-increasing success. Staying calm in all situations is not going to be easy, but with your knowledge and understanding you have a head start on many others. That will encourage others to follow your example, and you will be doing your bit to bring about peace on Earth.

At our level you will find that on board our ships the atmosphere is so restful and uplifting. We have nothing that will create discord and all operates with a continual feeling of joy and happiness. For example nothing we use gives off harmful energies, and that includes the natural lighting that comes from the ship. In fact all sources are clean, and operate with energy that is freely available. Where outside sources are concerned, our ships are protected from what would otherwise be harmful rays. The ships also have a level of natural consciousness, and are able to automatically deal with these problems. Even you scientists understand such possibilities, having back engineered some of the captured or crashed craft. It means that you can no longer be certain as to whose craft you are looking at in your skies. It does explain some unusual incidents that include abduction and even cattle mutilation.

We would rather you concentrate on the immediate future and keep prepared for it. What is going on around you will be explained when we are able to land freely to make contact with you. Of course we have been doing so for eons of time, but official recognition of our presence is important to our plan. We must be welcome and able to move safely amongst you, as we clearly desire a peaceful relationship with you. At present it is impossible because of the danger that exists where you are concerned. We take our responsibilities very seriously, and would not want to risk involving you in any skirmish with the dark Ones. It will be sorted out very soon, and we are obviously looking forward to a great celebration when at last we can meet you on Earth.

The contacts have been long made that will make the announcement we desire. There is an ultimate date when we shall have to speed up matters, and possibly take them into our own hands. We would rather be seen to act in accordance with your protocol, but time speeds on and we are fully ready to go ahead with our plans.

I am SaLuSa from Sirius, and we are one of a number of different civilizations that are members of the Galactic Federation, waiting to be amongst the first to land on Earth as part of First Contact. In the meantime we send our love.

Thank you SaLuSa.
