Subject: Montauk. Part 2.
July 5, 2011.

This talks about time travel.

.....
.....

Was there any other modulation on this?

There was frequency hopping on it.

So Phoenix Two started in 1969?

Yes, in the period from 1969 to 1971. Phoenix One went from 1948 to 1968. The first part of the mind control project was to take an individual and stand them about 250 feet away from the antenna. The SAGE radar had a peak pulse power of .5 MW. The antenna had a gain of 30db. That means an effective radiated power of at least a gigawatt. It was nominally a gigawatt. Can you imagine what that would do to people? I think its amazing these people are still here. It does things like burn out brain functions, create neurological damage, scar lungs from heat, etc. They tried this with a number of people and there were few survivors.

Where did they get the volunteers for this?

They were just grabbing indigent people off the street and throwing them in front of the radar beam. That's the sort of nonsense that the g-vernment loves to do.

Who was in charge of the project at this time?

Dr. John Von N-umann and Jack Pruett.

Any particular agency?

I'm not sure what the agency was. Now, somebody got the brilliant idea to put the subjects directly in line with the gain horn of the antenna. Lo and behold they got their result without burning the people up. They found out that by varying the phase modulation and the frequency hopping and the pulsing of the multiple phases that they could have profound effects on a persons mind.

How many people worked at this installation?

About 30.

Who authorized them use of the base?

The Air F-rce and the N-vy. It was a joint project. There were both Na-y and Air Fo-ce personnel involved. We have copies of the orders for the Air For-e personnel.

What was the cover story for the base?

They had none. It was a derelict base.

It was abandoned. It was turned over to G-A as surplus around 1969 or 1970 when they shut down all the SAGE radar systems.

It was a "non-existent" operation. it was a perfect cover.

Where did they get the funding?

It was totally private.

Corporations?

It didn't originally come from corporations, although it did in later

phases.

The original money came from the N-zi g-vernment.

This is Phoenix One?

No, this is Phoenix Two and Three. In 1944 there was an A-erican troop train that went through a French railroad tunnel carrying \$10 billion in Na-i gold which they had found. it was \$10 billion at the 1944 price of \$20 per ounce. The train was blown up in the tunnel. It k-lled 51 American soldiers. The gold turned up ten years later at Montauk. This has been verified. That money was used to finance the project for many years as the value of gold went up. They spent all of it and ran out of money. That's when they tapped on I-T, who funded it. IT- was owned by K-upp in Germany. In terms of personnel, many of the civilians and scientists there were all ex-N-zi's who came from Germany both before and after the w-r ended. The project was under US Gov-rnment surveillance. The intelligence community knew what was going on and the C-A monitored everything, as did other gove-nment intelligence agencies. The field of players who actually operated on the base was small, between 30 and 50. The funding was entirely private. After 1983, Senator G-ldwater found out about it and started an investigation. He couldn't find any trace of gove-nment funding. Pruettt was the met-physical director of the project. He was Air For-e. After he left Dr. Herman C. Un-ermann took over. They had an electronics expert, Dr. Mathew E. Ze-rett, who came over from Germany in 1946 with Werhner von B-aun. Probably the reason that they ran out of money is that they had a total of 25 bases around the Un-ted States to support. The last of the bases shut down August 12, 1983. The base at Montauk, where all the stations got their zero-time reference from, shut down and the other two remaining bases went down with it.

What about some of the mind effects?

From what I recall of the program, as I was part of it, I was subjected to the mind control field not as I initially went into the program (because they wanted me initially for my s-nsitive abilities) but later. I was assigned to the indoctrination of the younger recruits. The first indoctrination turned out to be a disaster. I told them I didn't want anything to do with the program, and they put me in front of this mind beam, and it did do damage to me. Finally, someone said, "shut it off, he isn't going to give in to it" and they shut it off. Others were affected much more seriously than I was. The effects were generally really bad. It could burn your brains out. They would go out and pick kids between the ages of 12 and 16 off the street....

That's where a lot of disappearing American kids went?

We estimate they took 10,000 American children off the street and brought them to Montauk, New Jersey. The total number of people that they pulled off the streets for the 25 stations was about 250,000. What the actual thrust of the program was in terms of all these kids is still a mystery. We still don't know the answers. We know they were fully programmed for something. They were subjected to programming which eventually became more "humane" using advanced electronic techniques. The original programming was Re-chian in nature and was more physical. Later they worked out techniques that used computers and electronic programming with the R-ichian techniques that took very fast and had little side effects.

Are you aware of any people presently who have been through this?

I've run into people over the years. There is a very specific field identity pattern you can detect if you are sensitive enough. You can spot a person who has been through the Montauk program "five miles away". it's vary distinctive in the way that it's been altered. I've spotted more than a dozen people in the Long Island, New York area.

What about Von Neu-ann?

He was still alive up until 1989. He has run into a problem with the g-vernment as well as other problems, such as a personality split in 1977, when he resigned as director and became a consultant. The governm-nt told everyone he died in 1956. The gov-rnment is still interacting with him.

Were any of the Montauk subjects given psycho tropic d-ugs?

I don't think so...

They used one dr-g which was used in connection with the Rei-h

programming to make them more receptive. I don't remember the name of it. The effect of the dru- was that it would make you "h-rny as h-ll".

Also euphoric at the same time?

Also euphoric, yes.

Did they get this mind-altering chair from the aliens?

The prototype came from the aliens. Beyond that we are uncertain. This chair was essentially a mind amplifier. The government would have specially trained individuals sit in the chair and generate thoughtforms, which would be amplified and transmitted. They could transmit the signal and put people in a pre-orga-mic state where they would be receptive to programming. It worked very well and they found other capabilities. They found that it could work in time. They had a psychically trained individual sit in the chair and generate a thoughtform of a vortex that connected 1947 and 1981. That's exactly what they got - a time tunnel they could walk through. There was a series on television at one time that portrayed this concept fairly accurately. These were some of the earlier capabilities. They started going forward and backward in time. That was the last phase of the Phoenix project.

When did this time machine get going?

Around 1979 or 1980 it was fully operational. This transmitter had enough power to warp space and time. The individual in the chair would have to synthesize the vortex function because they didn't have the technical capability to do that. It can now be mechanically synthesized. They did other things.. They had the subject in the chair think of some creature, and the creature would materialize. They had the individual in the chair think of all the animals at Montauk point charging into town, and that's exactly what happened. They almost had the power to create a being. The problem they had was that what they created only stayed as long as the mind amplifier was on. The power was somewhere between gigawatts and terrawatts. Tremendous power. The vortex could have a diameter of about five miles.

Can you describe what this looked like?

Its like looking into a peculiar spiral tunnel which was lit up down its entire length. You would start to walk into this thing and then suddenly you'd be pulled down it. You didn't walk through it as such. You were more or less propelled through it. You could go anywhere in space and time.

Could you bring things back?

Yes.

Have you ever brought anything back?

Yes.

Could you continue your description of the tunnel?

Yes. The walls were solid but fluted. The tunnel was not straight but was a sort of corkscrew shape.

If someone turned off the power, would you be stuck in the destination time and space?

Yes. You'd be stuck there.

Did they send a lot of kids down the tunnel'?

Yes, but we don't know what their goals were. They lost a lot of kids.

Since there is a time loop between however far you went back in the past through however far into the future, is everything fixed?

Yes.

Part 2.
