The Zetas started describing progress towards the Pole shift on a scale of 1-10 in

<http://www.zetatalk.com/7of10/7of10-1.htm>

March 2008 (starting at a 2-3) and afterwards were asked for

<http://www.zetatalk.com/7of10/7of10-2.htm>

updates on the progression as we slowly moved up to a 6 and

<http://www.zetatalk.com/7of10/7of10-3.htm>

beyond. At the end of 2009 Nancy recalled a

<http://www.zetatalk.com/7of10/7of10-4.htm>

holographic presentation given to her during a visit which gave the first indications of what to expect during a 7 out of 10, that

<http://www.zetatalk.com/7of10/7of10-5.htm>

at least one of the events would occur in 2010 and what effect this might have on

<http://www.zetatalk.com/7of10/7of10-6.htm>

plans being made, the

<http://www.zetatalk.com/7of10/7of10-7.htm>

population in general and the

<http://www.zetatalk.com/7of10/7of10-8.htm>

economy. They advised what

<http://www.zetatalk.com/7of10/7of10-9.htm>

causes the 7 out of 10 scenarios and whether g-vernments will become more

<http://www.zetatalk.com/7of10/7of10-10.htm>

open and

<http://www.zetatalk.com/7of10/7of10-11.htm>

warn their citizens and what would happen to the

<http://www.zetatalk.com/7of10/7of10-12.htm>

cover-up also that

<http://www.zetatalk.com/7of10/7of10-13.htm>

anxiety would increase and that people are still in

<http://www.zetatalk.com/7of10/7of10-14.htm>

denial about what it all means for them.

South Africa, the

<http://www.zetatalk.com/7of10/7of10-51.htm>

Canary Islands and

<http://www.zetatalk.com/7of10/7of10-52.htm>

Egypt were explained.

The size of the

<http://www.zetatalk.com/7of10/7of10-53.htm>

quakes and

<http://www.zetatalk.com/7of10/7of10-54.htm>

tsunami that will strike Japan was addressed with

<http://www.zetatalk.com/7of10/7of10-55.htm>

UFO warnings for North America as they will also experience quakes and a

<http://www.zetatalk.com/7of10/7of10-56.htm>

tsunami.

<http://www.zetatalk.com/7of10/7of10-57.htm>

Vancouver and

<http://www.zetatalk.com/7of10/7of10-58.htm>

Hawaii were also detailed.

The

<http://www.zetatalk.com/7of10/7of10-59.htm>

New Madrid earthquake follows the big quakes in Japan and will

<http://www.zetatalk.com/7of10/7of10-60.htm>

continue to adjust up until the pole shift after

<http://www.zetatalk.com/7of10/7of10-61.htm>

one big jolt which also causes the

<http://www.zetatalk.com/7of10/7of10-62.htm>

St Lawrence Seaway to split and how there will be
<http://www.zetatalk.com/7of10/7of10-63.htm>
no doubt it has occurred. The
<http://www.zetatalk.com/7of10/7of10-64.htm>
west coast reacts to the large quake which will tear
<http://www.zetatalk.com/7of10/7of10-65.htm>
communication cables but
<http://www.zetatalk.com/7of10/7of10-66.htm>
no volcanic activity is expected in the Eastern US.
The Zetas were also asked about
<http://www.zetatalk.com/7of10/7of10-67.htm>
Florida,
<http://www.zetatalk.com/7of10/7of10-68.htm>
Chicago and how it would
<http://www.zetatalk.com/7of10/7of10-69.htm>
compare to the pole shift.
Just hours afterwards, the
<http://www.zetatalk.com/7of10/7of10-70.htm>
North Atlantic Rift tears sending a
<http://www.zetatalk.com/7of10/7of10-71.htm>
tsunami racing towards Europe, propelled by the
<http://www.zetatalk.com/7of10/7of10-72.htm>
gulf stream.
The Zetas describe how it hits the
<http://www.zetatalk.com/7of10/7of10-73.htm>
Bristol Channel, the
<http://www.zetatalk.com/7of10/7of10-74.htm>
Irish Sea and passes through the English Channel to hit the
<http://www.zetatalk.com/7of10/7of10-75.htm>"
east coast of Britain, devastate
<http://www.zetatalk.com/7of10/7of10-76.htm>
Denmark and what the residents of Denmark
<http://www.zetatalk.com/7of10/7of10-77.htm>
can expect.
<http://www.zetatalk.com/7of10/7of10-78.htm>
Sweden and
<http://www.zetatalk.com/7of10/7of10-79.htm>
France will be hit (among others) but
<http://www.zetatalk.com/7of10/7of10-80.htm>
Iceland and the Arctic Circle will be unaffected.
Advice is given on
<http://www.zetatalk.com/7of10/7of10-81.htm>
how to warn people and
<http://www.zetatalk.com/7of10/7of10-82.htm>
how far inland to be although
<http://www.zetatalk.com/7of10/7of10-83.htm>
water will wash inland along rivers. There will be
<http://www.zetatalk.com/7of10/7of10-84.htm>
repeat tsunami but smaller and how the different countries will
<http://www.zetatalk.com/7of10/7of10-85.htm>
react is mentioned.
The 8 out of 10 events are
<http://www.zetatalk.com/7of10/7of10-87.htm>
mentioned but
<http://www.zetatalk.com/7of10/7of10-88.htm>
little detail is given out. We're told that they may include
<http://www.zetatalk.com/7of10/7of10-89.htm>
exploding oil fields in Iraq,
<http://www.zetatalk.com/7of10/7of10-90.htm>
blending of the seasons,
<http://www.zetatalk.com/7of10/7of10-91.htm>
continuous plate movement,
<http://www.zetatalk.com/7of10/7of10-92.htm>
increased visibility of Planet X and there's something in store for
<http://www.zetatalk.com/7of10/7of10-93.htm>
Italy.

All of the 7 out of 10 events will
<http://www.zetatalk.com/7of10/7of10-94.htm>
complete before we move to an 8 but they will warm up during
that time and the
<http://www.zetatalk.com/7of10/7of10-95.htm>
last weeks which is the 9 out of 10 have been detailed.

Now, in 2011, we have
<http://www.zetatalk.com/7of10/7of10-96.htm>
arrived at a 7 out of 10 with buoys showing the effect on the
<http://www.zetatalk.com/7of10/7of10-97.htm>
Philippines, flooding in
<http://www.zetatalk.com/7of10/7of10-98.htm>
Australia and

<http://www.zetatalk.com/7of10/7of10-99.htm>

Sumatra and Java sinking. The Java coastlines shows

<http://www.zetatalk.com/7of10/7of10100.htm>

undeniable sinking while the media

<http://www.zetatalk.com/7of10/7of10101.htm>

excuses switch from rain to high tides. Sudden mass instances of

<http://www.zetatalk.com/7of10/7of10102.htm>

dead birds and fish show the increase of earth movement around the globe but the

<http://www.zetatalk.com/7of10/7of10103.htm>

pace is slower than the Zetas first anticipated although South

America starts showing signs of

<http://www.zetatalk.com/7of10/7of10104.htm>

what's next.
