PYTHAGORAS CONFERENCE GLOBAL 2011 -

GLOBAL PRESS RELEASE ANNOUNCEMENT

The "GLOBAL EVENT" of the Year!

WHAT: "26!" of the World's top Guest Speakers in: New Physics, Renewable Energy, Exopolitics, New Science, Archeology, Social Science & Bio Economics, Consciousness Studies, Astropaleology, Me-aphysics just to start coming together with a common goal of creating real change for the "Future of Humanity." This Conference's concept is truly unique and to our knowledge there is no other event that has tried to bring such a diverse group of people together in this way.

BACKGROUND: What is the Pythagoras Conference? As some of you may know Pythagoras is often revered as a great mathematician, m-stic and scientist, and is best known for the Pythagorean theorem. But he was also a great seeker of knowledge. This to me is the under current of this Conference, bringing the best speakers in their respectable fields together to share their knowledge with others also seeking answers to their own inner questions, says Sandra S-batini, event creator.

What is the TRUTH? And just how can we take this knowledge that we learn, to create real change? We must look to the past, in order to pave a brighter way to the "Future". Our collective hopes are to expand peoples Consciousness about the world around them. The wonderful results of this Conference will be the development of a "Global Think Tank."
