Alien Space G-ds Of Ancient Greece And Rome - R-velations Of The Oracle Of Delphi

WAS THE MEDITERRANEAN REGION OF OUR PLANET VISITED BY A R-CE OF "SUPER BEINGS" IN ANCIENT TIMES?

WAS THE ORACLE OF DELPHI A CONDUIT FOR PROPHETIC MESSAGES FROM OUTER SPACE -- PERHAPS THE FIRST T-LEPATHIC C-ANNELER?

British historian W. Raymond D-ake is one of the most careful researchers of the "Ancient Astronaut" theory which maintains aliens arrived on earth and interacted with the human ra-e throughout antiquity and in all parts of the globe. Author of a dozen works on the Space Go-s phenomenon, Dr-ke's work complements that of Chariots of the -ods? by Erich Von D-niken, his first book appearing in print prior to Von Da-iken's international bestseller.

In this work about the ancient Mediterranean's strange relationship with the Sky G-ds, Dra-e utilized over fifty writers of antiquity and scrutinized their main works through a UFO "lens." His astute contributions regarding the Land of the Go-s have been expanded upon and updated by contemporary researchers Timothy Be-kley and Sean Ca-teel.

Questions That You Will Find Answered. . .

Did giants from space establish a UFO base atop the picturesque Mount Olympus?

Were they the gods and goddesses of "Mythology" idolized and given names such as Apollo, Hades, Athena, Hermes, Zeus, Artemis and Hestia?

Did the powerful deities of Greece help save Athens from being invaded by the mighty armies of Atlantis in 10,000 BC?

Is there reason to believe that the Greeks and Trojans were inspired to fight for the beautiful Helen, surely a space queen?

Do the great plays and sublime philosophies of the supreme thinkers of the ages show a reverence for the gods who intervened at Marathon and Salamis, sending flying shields to aid Alexander storming the walls of Tyre?

Did a UFO encountered near Troy save the army of Lucullus from destruction?

Were omens observed in the sky just before the murder of Caesar?

How does one explain the manifestation of mysterious voices and apparitions in the heavens as Hannibal ravaged Italy?

In a marvelous update, recent activities, including encounters with humanoids and men in black-like individuals, are taken into consideration offering proof that the ancient aliens of antiquity are returning to their original haunts and are guaranteed to make open contact soon!

Did UFO Cause Power Failure at Nuclear Missile Base?

When Warren Air Force Base in Wyoming lost control of 50 nuclear, inter-continental missiles last October, officials said a communication outage was to blame.

However, three missile technicians stationed at the base have raised fresh questions in the case, amid reports UFO sightings coincided with the incident.

UFO researcher Robert Hastings says eyewitnesses claim the outage also lasted much longer than the Air Force admits.

A power failure on October 23, 2010 meant that one-ninth of America's nuclear arsenal went offline for three-quarters of an hour.

A U.S. Air Force spokesman said there had been a 'hardware issue' relating to an underground cable linking the control center with the missiles.

This disrupted 'communication between the control center and the missiles, but during that time they were still able to monitor the security of the affected missiles'.

Defense officials insisted there was never any danger of an accidental launch. But the incident was deemed serious enough for Barack Obama to be briefed on it later.

There was no evidence of foul play and the U.S. never lost the capability to launch the missiles, although it could only have done so from an airborne command and control center, he said.

Another official said there had been similar breakdowns on other bases in the past.

But Robert Hastings says more was involved.

According to Hastings, three missile maintenance technicians have agreed to speak to him on the condition of anonymity, revealing the military has kept UFO sightings that occurred during the power outage under wraps.

The witnesses, he said, reported sightings of 'a large cigar-shaped object high above the missile field'.

Hastings told AOL: 'They said the object was seen in the sky above the field, throughout the weekend, both during the (missile) disruption and the following day.'

His witnesses claim the outage lasted several hours longer than officials reported.

'I have detailed information about the events. The Air Force said this (missile) disruption lasted 59 minutes. It actually lasted the better part of 26 hours,' he said.

'It was intermittent and involved a very specific sequence of these five missile alert facilities going on and offline. I have all of that down to the most minute detail.'

The eyewitnesses agreed that what they saw 'was not a commercial blimp.'

'It had no passenger gondola and no advertising on its hull,' Hastings said.

'Further, its aspect ratio (length to width) was very similar to a WWI Zeppelin: long and thin, and not at all like the squat shape of a corporate blimp.'

The witnesses did not, however, claim the alleged UFO was connected with the outage.

It is not the first time Hastings has reported UFO sightings at nuclear missile sites. He organized a press conference last September, when six former Air Force officers stepped forward to reveal they had seen or had been involved with sightings at missile sites.

They claim that since 1948, aliens have been hovering over UK and U.S. nuclear missile sites and deactivating the weapons - once even landing in a British base.

The men said they were encouraged not to speak to the media about their sightings.

Captain Robert Sals, who was among the six, confirmed: 'We're talking about unidentified flying objects, as simple as that.'

However, Lieutenant Colonel John Thomas, director of public affairs for Air Force Global Strike Command headquarters at Barksdale Air Force Base in Louisiana, denies there is a policy to silence eyewitnesses to unexplained phenomena at Air Force bases.

'I have no reason to dispute anybody's claims of anything they may have seen historically, because those occurrences and reports took place decades into the past and probably will decades into the future,' he told AOL.

'This incident is separate from all of that. We took it very

seriously and we're very confident that we understand fully what happened.'

'If people see things that are unusual, they are encouraged to report them,' he said, adding: 'When people join the military, they don't give up their First Amendment rights.'

- WATCHING FROM ABOVE DEPARTMENT -

Saucers and Sputnik

By Nick R-dfern

Whether by accident or design, following the former Soviet Union's successful launch of Sputnik 1 in October 1957, there was an immediate and dramatic upswing in the number of UFO encounters reported from within the borders of the USA. While those of a distinctly skeptical nature might very well give much consideration to the possibility that many such reports were merely due to over excitement, Cold War nerves, public hysteria and anxiety, and very understandable concern over the surprise Russian launch, other UFO connected events could not be dismissed with such apparent ease and logic.
