Subject: When Will We Go Into The Fifth Dimension?
July 23, 2011.

Here are some people who think we will ascend in 2013. I choose not to put a certain date on it but hope it will happen sometime.

.....

Subject: Expert ET contactee: Half of humanity ascends to 5th dimension on March 21, 2013 - Seattle exopolitics | Examiner.com
Date: Sat, 23 Jul 2011

<http://georgekavassilas.org/log/introduction/>

George K-vassilas, a life-long extraterrestrial c-ntactee and expert on the ascension process of a possible dimensional shift of Gaia the living planet Earth - from her 3rd dimension of time-space to a 5th dimension of living Light, has declared in an in-depth

http://www.youtube.com/watch?veFVS5_dLUYO

ExopoliticsTV interview with Alfred Lambremont W-bre that approximately one-half of current humanity will accompany Earth on its dimensional shift, to occur on the equinox of March 21, 2013.

George Kavass-las: Extraterrestrial co-tactee

<http://georgekavassilas.org/log/introduction/>

Mr. Kav-ssilas acknowledges himself as a life-long extraterrestrial cont-ctee.

The journey began for George as far back as his memories of this current life

allow, to around the age of five. He has memories of being taken from his bed

at night onto ships, and being taken to other places on the planet and to other

worlds. His interactions with other Beings on many different levels of realities

have been occurring throughout his life. These experiences were both with benevolent Beings, of which George calls his Greater Family, and malevolent others who have the ability to appear in many guises.

In 2003 George was to have an experience that changed everything. His galactic family visited and picked him up and took him to a large ship

situated closer to the Sirius Star System. They facilitated an experience that saw George

take a journey with his conscious spir-t up through the dimensions of our Universe and he got to rediscover what life here in this Universe is all about.

He was able to once again know who we all are, where we come from and where we are headed.

About the import and magnitude of the events to occur around March 21, 2013, Mr. Kavass-ilas states The time of THE GREAT CHANGE is upon us, and is the outcome for those who embarked on a journey eons ago. All who have chosen to be here at this time are about to experience a transformation of a magnitude

that few on Earth can currently comprehend, and of which multitudes in the Universe regard in the highest esteem. The transformation of our Di-ine Mother Earth and her Humanity into Beings of Light and Universal Creators.

Alternative models for human consciousness shift

George Kavass-las model of the coming consciousness and dimensional shift for humanity and for the planet Earth joins several alternative models for a significant e-olutionary shift in consciousness and in planetary dimensional energy frequency that Earth is appears to be currently undergoing, according to

diverse experts and commentators.

Planetary ascension to the 5th dimension Model

Two leading commentators and self-reporting experiencers advocating the model

that Earth will experience a quantum leap from the 3d dimension of time-space to

a 5th dimension of living Light are Mr. Kav-ssilas and Dr. Georgi St-nkov, a Bulgarian scientist living in Munich, Germany. Mr. Kava-silas asserts this event will occur on the equinox of March 21, 2013, and Dr. Stank- asserts that

this event will occur on the solstice of Dec. 21, 2012.

Interestingly, both commentators use the phrase Ascension is the Separation of

the Wheat from the Chaff in describing the ascension process.

It is important to note that Mr. Ka-assilas states in the ExopoliticsTV interview that "should these events [the March 21, 2013 ascension] not come to

pass, please know that I am not intentionally trying to promote disinformation.

This is what I feel in my heart at this time."

Mr. Kavass-ilas has set out the basic science of his model in a 2-part essay on his website entitled: Harmonic Equation of Ascension

Part 1 - Harmonic Equation of Ascension

<http://www.georgekavassilas.org/theharmonicquationofascension.pdf>

Part 2 - Harmonic Equation of Ascension

<http://www.georgekavassilas.org/harmonicquationstage2.pdf>

Dr. Sta-kov has likewise developed a science-based approach to his model of ascension by humanity from the 3rd dimension of time-space to a 5th dimension of living Light.

Dr. Georgi Stank-v has released a 182-page book The Cosmic Laws of Creation and D-struction: Why and How the World Economic Order will co-lapse in 2011!" demonstrating that universal law supports the co-lapse of the world economy starting in 2011, coupled with the start of mass ascension of awakened humans in 2012, with the trigger date being December 21, 2012.

In his book Dr. Sta-kov writes, All e-olved s-uls will ascend. This will include all star seeds (light workers), indigo, crystalline, and rainbow children (old sou-s), and most adult s-uls. According to the working model of

sou- age, as developed by the author, all adult and old -ouls will ascend.

His estimations are that there are currently about 4-8% old so-ls and about 25-30%

adult s-uls on earth.

Open extraterrestrial "disclosure" will occur, according to Dr. Stan-ov, in the 5th dimension between advanced interdimensional intelligent civilizations

and the ascended "5th dimensional" human r-ce.

The role of Earth changes in the Ascension process

Both Mr. Kavass-las and Dr. Stan-ov state that massive Earth changes tectonic plate shifts, earthquakes, tsunamis, etc. will accompany the ascension process of Earth's dimensional shift to the 5th dimension.

In his

http://www.youtube.com/watch?v=3DeFVS5_dLUYQ

ExopoliticsTV interview, Mr. Kava-silas indicates that ascension will be accompanied by such Earth changes as an axis shift.

From the 3rd dimension, the ascended Earth will appear as a magenta-colored star, Mr. Ka-assilas states. Humanity that has ascended with planet Earth will experience Earth in a 5th dimension of Light.

According to one

<http://www.physicsforums.com/archive/index.php/t-48945.html>

source, "The minimum mass required for spontaneous fusion [of a planet into a star] is about 10^{28} Kg [around 20x the mass of Jupiter].

Assuming the composition is amenable to fusion [lots of hydrogen], the core would ignite once the former planet accumulated the necessary mass."

2012-13 Ascension Reference Website

A website devoted to discussion of planetary dimensional shift and ascension can be found at:

<http://exopolitics.blogs.com/2012agoldenage/>

Ascension model: What happens to humans that do not chose, or are not qualified, to ascend?

Under the ascension model, humans that do not chose or are not attitudinally

or evolutionarily qualified to ascend to the 5th dimension. According to both Mr. Kavassilas and Dr. Stankov, stratification of souls and their destinies occurs with the process of ascension. Both Mr. Kavassilas and Dr. Stankov agree that those souls who are attracted to the matrix way of life the permanent welfare economy, the debt money system, the exploitation of the masses by the wealthy few, the dualistic conflict-based materialistic society will not ascend. And that those souls who are easily deceived by the controllers of the matrix will not ascend as they require further karmic development.

In his

http://www.youtube.com/watch?v=3DeFVS5_d1UY0

ExopoliticsTV interview, Mr. Kavassilas states that the remainder half of humanity that does not ascend ends up on different planets,

pursuing karmic life paths more suited to their completion of a time-space agenda.

December 21, 2012 The emergence of Planet A and Planet B

Dr. Stankov postulates that there is a bifurcation of time-lines or realities, and that two planets Earth will emerge around the solstice of Dec. 21, 2012, planet A and planet B.

Dr. Stankov writes, With the beginning of this year [2011], humanity has fully entered the process of transgression from one soul state into the higher one. This process is not truly comprehended by most light workers, and it is a

non-entity for the rest of mankind. This must change radically this year. A major objective of this essay is to expand human consciousness and to make the people aware of this astral process that now takes place behind the curtain, but will very soon unleash its force on mass psychology and behaviour.

Some young souls will successfully manage their transgression into the adult soul stage in the End Times and will qualify for Ascension. Others will return to the 5th dimension as incarnated souls and the rest will remain on planet B.

Some of these entities, who belong to the current Elite, may become the new Elite on this planet, provided the fact that they have survived the shift and the turmoil the reafter.

Part 1.
