Subject: When Will We Go Into The Fifth Dimension? Part 3 of 3.  
July 24, 2011.

This reminds me of the old singing group called The Fifth Dimension.

2012 & A Golden A-e - Lecture

Reporter Alfred Lambremont We-re has lectured on the unity consciousness model

of consciousness shift for the period 2011-2013 and beyond.

How to evaluate the Cascension and Cunity consciousness models of consciousness shift

1. Common sense, discernment and balanced perception

As time approaches the 2012-13 threshold, common sense, discernment and balanced perception seem to be the most valuable tools.

2. Beware of false flags and psyops At the end of his ExopoliticsTV

interview, George Ka-assilas is emphatic that each of us should be aware and on the lookout for

the next false flag operation or psyops.

Indeed, the contention of most analysts of the consciousness shift is that false

flags and psyops are created to slow down or side-track the process of a positive shift in human consciousness from duality to unity, from

fear-based to

cosmic-Love based.

Thus, this reporter has written that deliberate psyops are afoot regarding phenomena associated with a positive consciousness shift, such as the coming passage of Comets Elenin, Levy and Honda in the fall of 2011.

A subtle psyops psychological warfare operation intended to engender public fear and apprehension around Comets Elenin, Levy and Honda (all expected to pass near Earth in the Fall of 2011) may be part of a future false flag environmental warfare attack on specific human settlements and populations using the HAARP-Chemtrails tectonic and weather warfare system.

Statements by NA-A officials, the White House, and specific statements falsely attributed to operatives formerly associated with NAS- such as Richard

C. Hagland infer or explicitly state that Comet Elenin's near passage to Earth

may create an extinction level event (ELE).

-ASA email and video to employees Recently, NAS- took the unusual step of sending an explicit disaster preparedness email to its employees, stating,

"-ASA is the only federal agency responsible for its people's safety and well-being here on Earth and in space and has a longtime commitment to

safety and emergency preparedness. Over the past year, Administrator

Belden has emphasized the importance of Family/Personal Preparedness

for the entire NAS- family. Family and personal preparedness plans are

key to protecting our families and communities during potential emergencies such as fires, floods, earthquakes, hurricanes, terrorist attacks

and

other unforeseen catastrophes.

White House letter: Smoking gun that Elenin is a threat or Psyops promoter?

On Oct 15, 2010, the White House issued a letter highlighting the hazards of near earth objects including comets. One fair interpretation of the White House letter is that its timing may be part of the Comet Elenin psyops.

3. Massive Earth changes 2011-13 unlikely-

The concept of Massive Earth changes 2011-13 may in fact be a meme with no

factual basis. One study evaluating the possibility for physical cataclysm in 2012 concluded:  
2011-13 & Catastrophobia  
There appears to be a collective fear of earth changes and cataclysm in human society based on the historical prior cataclysm of 11,500 years ago triggered by a galactic super wave that triggered the Vela supernova, a fragment of which entered the solar system.  
For a variety of reasons, the year 2012 has been front-loaded with memes that trigger humanity's catastrophobia.

2011-13 Solar flare Carrington event A repetition of the 1859 Carrington event in 2011-13 is unlikely. One possibility is that the Web Bot technology predicting a future large solar flare may be detecting the presence on the Internet of an escalating meme regarding a repetition of a Carrington-type event during the 2012-13 solar maximum, rather than an actual future event.

2011-13 Super-cataclysm memes 2012 Pole shift, super solar flare, galactic super wave-caused super nova fragments appear to be memes propagated by catastrophobia, and are extremely unlikely to materialize in 2012.  
d. 2011-13 cataclysm memes and social manipulation 2012 cataclysm memes appear to be used by a variety of institutions, ranging from covert military intelligence, governmental and other agencies to organized religion for purposes of social control.  
Environmental warfare false flag operations - In fact, most major Earth changes in the 2000-2011 period have been, by the forensic evidence, triggered as environmental warfare events by the HA-RP-ch-mtrails tectonic/weather warfare system.

4. A 2012-13 positive or catastrophic future is a personal and collective choice

Some readers write to this reporter questioning whether is it wise to reveal, for example, the true extent of radiation poisoning occurring on the planet at this time because of Fukushima and depleted uranium weapons.  
My position is that creating a positive or a catastrophic future is a personal and collective choice for all of us, and foremost, it is an informed choice. The deeper the reality understanding of our souls wisdom and decision to chose a positive time line for ourselves individually, the more force and reality in turn our decision carries and the more impact it has on the reality we create.

These principles are set out in a two-part series of articles on the 2012-213

positive and the catastrophic timelines that illustrate why and how one can identify and chose a positive timeline for oneself and for one's real world.

1. Are you on a 2012-13 positive future timeline? Or are you on a 2012-13 catastrophic timeline?
