Subject: UFO Information From Arguntia. Part 3 of 3. And What I have Been Up To.  
July 26, 2911.

Here I talks about the peek-a-boo people.

.....  
.....  
The Comit de Estudios de Fenmenos Anmalos (CEFAA) has these recordings, and they are still under review to determine which [sightings] have an explanation and which do not. It pleases us to have people who will inform us about developments for which we are unable to find any explanation whatsoever. Here you will find a video that while not new was published CEFAA in which you can hear and see some cases involving sightings by Chilean pilots, as well as the two most recent cases occurred in Mexico and in the United Kingdom.

Subject: What Have I Been Doing Lately.  
July 26, 2011.

On July 16th 2011 I got in a conversation with one of my number one son's friends. She is a lady of about 50 years of age who has some special abilties and can see a lot of things that other people can't see with their physical eyes. I'm a little be psychic and I knew that she was wanting to know all of the weid stuff that I had experienced lately.

I told her that I had been posting information about a chupacaba that had been shot dead by a teenager in Texas. She then said that she had seen one them herself. Her name is Debby and she said that about 11 or 13 years ago she saw one over close to the saw mill at Standard, Calif. It stood on it's hind legs and the knee joint bent outward rather than inward like our knees do. It could up up real high in a tree. I then add that when they report a story about Chupacabs, they tell the basic story and then people come along and show pictures of young deer or a fawn of say that it was just a coyote with the mange.

This then asked me if I had seen the Peek-a-boo people. I then informed her that I hadn't. She then added, Oh yes is you go out in the forrest they put their heads out from behind a tree and then hide behind the tree in sort of a peek-a-boo fashion.

My son the added they put their hands together and make sort of a wheeee sound.

She said, they are only about 15 inches tall. I added that there people who

call them the elves or wee people. My son said that he was out looking for gold and put his hiking pack down for a while and then came back for it. He said that something opened up his bag and examined his shirt and hung it up on a limb. He didn't no know what caused it but it did happen.

I then said that we had been wanting to examine the weird lights over at Poderssa Pine Housing Developement near Glovland, Calif. Debby then stated that she doesn't get a good vibration from all the UFOs in our county.

I then agreed with her because one of her son's had been abducted and brought back some years before that.

I always enjoy talking to Debby because she chaps her hands when I tell her something weird.
