Subject: A Person Asked Me Some Questions.
July 29, 2011.

Here are some questions that a person asked me.

.....
.....

(JW This is the request.)

You are very welcome. Please...tell me what think you of my comments?
(JW I think your questions are very good. You are probably a very sincere person w-rshping G-d in a convention way. Many of my friends think the same way you do but I don't agree with them.)

I am very interested about what you think. Please be honest and frank...
I shall not be insulted and/or offended with what ever you say. I no do the judgment, I no do the angry...honest truth.
Go- Bless.
Lee

(JW I'll do my best to answer your questions but they will be just, my opinion.)

And Nibiru. - Blog

(JW This is the questions that were asked.)

The answers to the posed questions of what has happened, is happening and will happen to planet Earth and most humans is rather simple...because---
1) Go-'s work is perfect (JW You have to be careful as to who you call -od.
The so-called G-d of the Old Testment was not -od but just a god. His name was J-hovah and he was just one of many gods that came to Earth in alien space crafts who made slaves peope from the original people who were already here to mine for gold and bring back to their own planet to make a firmament that would filter out the harmful rays that were coming in from our Sun. Fina Engle says that Je-ovah was the worst of the bunch including Diana, Baal and all the other so called gods.

Go-'s Grand Design functions with effortless ease. (JW It takes a lot of entities to keep this Earth in space Jeh-vah is not perfect. Earth people have been destryed by the Reptilian two times before this civilization and they are trying to do it again by inserting their deamons into Earth people like the Q-een of E-gland.)

That (not a he or a she) which is known as Go- created the entire Universe and the google to the power of google life forms therein.
All is Energy...matter is no more than a form of dense energy.
Energy cannot be created or destroyed...it is finite and can only change form.
The entire Universe is held together with 2 physical energies...gravity and electromagnetic...and some positive Sp-ritual energies. All functions with effortless ease in a perfect balance, an absolute equilibrium known

as Go-'s Grand Design.

Only Negative energy can interfere with, negate the perfect balance. When negated in amount sufficient, the result is chaos. On planet Earth only the human being possesses ability to create Negative energy. Human beings with their constant wars, wars, destruction of 1000's of other life forms and the excessive exploitation of Earth's physical resources and excessive pollution of the air and waters has generated Negative energies sufficient to significantly interfere with the perfect balance...which must be maintained.

The only way to stop the excessive generation of Negative energies is to cease the existence of the human beings who produce such energies. Such shall soon happen. Only those human beings who produce not the negative energies... primarily those who live a self sufficient lifestyle that possess no need for electricity or fossil fuels...live a life in accord with -od's intent and desire for human life...will survive and continue living on Earth...which with passage of human concept of time will heal itself, again, and there will be the predicted many years of peace and harmony among human beings.

(JW Predictions are not made in cement. They can be change when we change our way of thinking.)

All of the above is explained in detail in a small 99 page book written in simple words easy to understand entitled "The Universal Life Energy" available from Author House publications at a low price, author is a man named Lee. The Ebook costs only \$--\$-. The knowledge presented in the book will answer -any question any human can ask. Enjoy. Lee.

(JW Jesus once said if all things were written in a book the world would not be able to hold it.)

PS::: I ask one question---If this "destructive" asteroid, or rock or whatever it is, passes Earth about every 11,000 years, why only this time will it be so destructive? Why not previously? There be no evidence of such enormous destruction of life 11,000 years ago. (JW The flood was pretty big.) 2nd. question---the space aliens living in parts of Earth left Earth about 10,000 to 11,000 years ago. Recon this is why? (JW That was part of the reason. The other reason was that mankind would serve them any more. Man was too much trouble so they went back home.) Recon this is what destroyed Atlantis? (JW Yes.) There is a good maybe that the answer to both is in the affirmative. Enjoy. Lee.
