Subject: Greetings From The Wanderer Of The Skies. Aug.
8, 2011.

Here is a message from some space person who calls him or herself
Wanderer Of The Skies.

Wanderer of the Skies

August 2, 2011

Greetings from the Federation:

There is a subtle Disclosure occurring now that is quite promising in its
ability to lead to the announcement that will be unmistakable for everyone
on your planet. Watch carefully for its effects as it ripples out from the
source.

We wish to lay out a likely scenario for Disclosure as it occurs on your
planet. After the ♦Big Announcement, ♦ there will be a time of several days
to over a week where there will be little else said officially on the topic.
It is during this brief time that the greatest f-ar and misunderstanding can
spread. It is also during this time that all of you will be asked to do your
part in maintaining your sense of balance and calm and instilling it, by
example, into all those who would otherwise panic. While the official
c-annels will relay bits and pieces of information during this time frame,
nothing more of any impact will be released. However, that will not stop the
m-dia and others from speculating, conjecturing, and fe-r mongering. The
initial announcement will make it clear that there is no hostility intended,
but those who would whip up fea- based on speculation will be hard at work
nonetheless.

After that brief period post announcement, a timetable will be set by the
leaders of your world for a meeting with representatives from the
Federation. We have carefully selected a group to be the first to have open
contact with you. This group will hopefully dispel much of the fear that the
people will have regarding our presence, our motives, and our technology as
it relates to your s-fety. This group will be presented to all me-ia and
will be available for any and all questions asked. There will be no topic
not allowed, no se-ret to be kept, no ulterior motive. We simply wish that
all have access to the truth of who we are.

It is obvious that the First Contact group will be of human appearance since
this will carry the least impact emotionally and mentally on your species.
Only later, when most people have come to terms with our appearance and
purpose here will those of us who have different appearances come forth. We
have no set timetable for this second group♦s contact with you. Rather, we
will assess your reaction to the First Contact before we decide when best to
make this appearance.

Most likely, after the First Contact, will come our de-cloaking as we
gradually allow you to witness our ships in a more open and unveiled way.
These de-cloakings will occur at a great distance at first, but there will
be none of the elusiveness necessary to evade the I-luminati♦s attempts at
take down. After this initial de-cloaking will come ever more closer fly-bys
and, depending upon your reactions and state of mind, we may de-cloak some
of our great space fleet. This will be a decision based solely on your
progress, as we are quite aware that Hollywood has programmed your minds to
associate craft of this size with hostility.

Once the initial contacts are complete, we will begin, slowly, to come down
not to your leaders, but to your masses, as it is you we wish to contact
most of all. We will do this first where we are felt to be most welcome, so
that others, more hesitant and s-eptical, can watch at a ♦safe♦ distance and
take note of what occurs. We will then invite you aboard to view our
technology, answer your questions about any topic (none are barred) and
generally revel in our mutual friendship.

As further matters unfold with your leaders, and as the plans already developed for you, economically, legally, and socially, are put into place, our appearance will become more common place and we will begin to disseminate the truth about these times and what it means for your human species and the Ascension process. This, our true goal for you, will unfold as a natural consequence of this contact.

This information will be overwhelming for some, joyous for others, baffling for many. Truth on this scale will put some of you into states of near catatonia as you try to sort out what is happening. Naturally, we will assist anyone who needs help in adjusting, either s-iritually, mentally, or emotionally. Our help is freely given with Joy and Love.

We give you this information so you may prepare accordingly. When the time comes, things will move very quickly and we wish you to be as prepared as you can. Just like soldiers in w-rtime, you can prepare as much as possible, but never be truly ready for the events that unfold. We stand ready to guide you, in Love and deep admiration for you, our brothers and sisters.

Be at peace.
