.....

The responder below is 84 years old ex C-A

A few comments---

If John (Winston) were sitting on my front porch and told me the below stories---I would totally agree with him.

I remember when B-shwhacker was told about Binny B-y's d-ath and he, C-ney and R-msfeld agreed---never tell anyone because USA people must continue to believe in big bad enemy---justifies 9-11, the Patriot Act, the 2 w-rs. And so it came to pass---Go-ernment l-es and deceit continued to rule.

Just like the massive misinformation presented about Obama's recent demise...a clear indication of li-s and deceit...so is the same about the massive misinformation about the downing of the helo and dea-h of the Seals...planned and executed just like 9-11...and the bulls-it story about Binny Boy's recent dea-h.

A govt. that deliberately allowed Pearl H-rbor to happen (3500 de-d), Instigated the Korean Wa- (50,000 -ead, 7500 MI-'S), faked the attack on US destroyers in the Gulf of T-nkin and next day declared wa- to do the Viet Nam -ar (150,000 -ead), did the 9-11 attack (3000 + de-d), Changed the "rules of engagement" the mi-itary uses to fight a wa-.... which are designed not to win the -ar...so that the "d-fense " contractors can make a lotsa money, of which 10% is paid to members of Co-gress...and can do the Iraq wa- for 8 years (25,000 de-d) do the Afghanistan w-r for 10 years with no design or intention to win those w-rs...a-sassinated 21 leaders of foreign gove-nments, sold forbidden bio chem-cal a-mament to Saddam Hussain, who used them to mur-er 100,000 Ku-ds in northern Irag...sold them to fund the small wa-s in Central America... such a gove-nment I suspect would not find it "difficult" to cause the demise of a few Seals.

A few comments about li-s and deceit--- For the last 3-4 years, U-A Se-retary of Finance and Secr-tary of Commerce has done the lotsa talka, talka with China...conned China into USA being China's largest trading partner...Secret-ry of State has assured, promised China we will pay back the money you loan us.

China...wanting to do the more and more trade, believed USA. And now has finally realized that US- has not the means or any intention to pay China what it owes China.

Whoops. Surprise! And China is some kind of pi-sed off at -SA! China has read U-A the riot act...has issued 3 scathing verbal attacks upon US-...who quietly sits back and gives China the fi-ger.

Welcome to the real world of the Ro-hschids and Ro-kefellers!

There is nothing China can do to cause U-A to pay it's debts!

China can do some revenge...both much to the detriment to China.

1) China can replace the dollar with the Yuan to become the world's only international trading currency...but...the Yuan must become a world currency and seek it's own level and this is the last thing China wants to do. If does this the U-A economy collapses and China will never be paid back and China loses it's # 1 trading partner...putting about 1/3 of it's businesses out of business...big hurt to China's economic growth.

2) China can help create a new international currency into which all nations can invest their reserve money and U-A can no longer borrow any money. US-'s economy will survive but will be near to a 3rd. world country...make the great depression of the 1930's look like a picnic in the park. China will lose it's # 1 trading partner...big hurt to it's economy and

will never be paid back. China is giving this some serious thought.

3) Just like some U-A peoples have done and continue to do...keep the cash at home...don't tie it up with a pay 1 1/2 % interest CD. China keep it's cash and no invest it...no buy USA treasuries or any other "investments". China has created a new gov-rnment department to find ways to diversify it's investments.

So sorry, the honeymoon is over. The last thing any sensible person can do is get China angry. China has patience...more patience than Job...and I believe slowly and surely China will receive it's revenge. One thing China can do which it mentions not...and by all international laws is perfectly legal-----

1) USA is in no position to do the w-r with China.

2) There are 32,000 USA businesses functioning in China.

3) China can nationalize those businesses and use the profits from them to pay it's self the money -SA owes to China.

I suspect the entire world would not utter one bad word about China if it did so. USA has no friendly nations remaining in this world.
