Subject: Alien Show Will Actually Be On Sunday Night.  
2011.

July 11,

My information that was given me was that the show would be on tonight, which was Thursday night it wasn't on and the show was called Sons Of Guns. I found the show listed in the TV Guide by the word Curiosity. You probably have to be careful when watching it because powers that be will be instilling fear into the average people so we will not have disclosure with the space people Here is my last posting on this subject.

Curiosity: Alien Invasion: Are We Ready  
Aliens attacking Earth -- it's the stuff of sci-fi stories, but what if it really happened? Host Michelle Rodriguez (Avatar, Battle: LA) brings together top scientists and m-litary strategists to dramatize what would happen if and when aliens attack.
