Subject: Mike Q-insey.
Aug. 16, 2011.

Here is something in a web site by ArraiEl. All of her information is very good except the part about Sharula who is said to be from inside Mt. Shasta.

L-rd Ashtar Commander of the Ashtar Command
I would like to introduce Mike Qu-nsey. I have been following his channelings for several years now and hope that you find SaLuSa's messages as intriguing as I do.

.....
.....

Hello
My name is Michael Quin-ey. I live in the United Kingdom and spend my time going from one side of the pond to the other. I found my spiritual path in the late 70s by way of The Atlantean Society and shortly thereafter ran my own branch. I then started a platform I called The Universal Network which supported Tuella's (JW Sister Thedra was close friend to Tuella. I once watching a video that showed Tuella talking and Sister Thedra sitting in the audience, enjoying It.) work with Ashtar. Later I began Galacticom Europa to also present messages from Ashtar thru a c-annel by the name of Carole H-ll following Tuella's passing. On top of all this I launched my own magazine entitled The Messenger.

It was during this time that I had my most indisputable UFO sighting following some earlier ones. I have many hobbies or past times which are writing articles, giving talks on my pet subjects such as ET', UFOs, H-aling and S-iritual matters. I love my garden and the roses it produces specifically. I keep fit by playing in competitive Table Tennis and have been for 52 years. All my experiences now embody my contribution to my magazine, website and Radio Program.

My Chosen Path

In my late 20's I felt a strong desire to find out what life was really about, and ultimately came to find my own understanding in one foundation. Even at a relatively young age, my quest for the truth and knowledge was always there. I never blindly accepted an answer simply because it was considered to be the popular one by the majority. I did have my own way of analysing things, and was always full of questions and not easily fobbed off with inadequate answers. I also had a deep curiosity about the meaning of life. I remember a time when I was under ten years old asking my parents - Who would I be if I was not me? and I think that it came about when I wondered if I had been born to different parents, whether I would still be the same person, I think I realized that I was not just my body, but that there was a me that was separate from it. For a period of time through my late teens and to the very late 60's, in the absence of any alternative belief I had even decided that there was no G-d at all, and I was a non-believer for quite a few years. Yet there was that continual nudging from within to find the Truth by making my own way, which I could not do by following any orthodox organized r-ligion, which I knew wouldn't (and couldn't) satisfy me.

My searching eventually led me to Egypt because I wanted to know what the peoples of past ages believed, and what prompted those beliefs. This proved very interesting and led me to the readings of Edgar Cayce. Because he revealed a lot of information about Egyptian times, I was prepared to accept it as more credible than widely accepted contemporary history. JW I've read many of Cayce's books and believe what he has to say.)

I felt that his source, which was the Akashic Records, was much more accurate and reliable. This also resulted in my first knowledge of

Atlantis, which Edgar Cayce advised was an earlier highly developed civilization, which had reached greater heights than Egypt.

The Atlantean Society

This wetted my appetite for more information about Atlantis, and subsequently I found out that a Society existed called The Atlantean Society. It was in 1977 that I attended my first Atlantean meeting and from that point I never looked back. It seemed that I had an instant understanding of the channelled teachings of Helio Arcanophus, who was at one time an Atlantean High Priest of the Sun, and these resonated strongly with me. I eventually realized that I wanted to participate by becoming a speaker myself. As more talks followed, my confidence grew considerably, and I had a strong motivation to start my own branch of the society in my local area. I did so, and it successfully ran for 7 years. One of my main interests was in becoming a healer, which was developed in The Atlantean Society, who was the principle healing group at the Festivals of Mind, Body and Spirit held at Earls Court, London in its early years before the venue changed, and I took an active part in it.

Galacticom Europa and America Chapters

It was during this time that I made contact with Carole Hall in Sedona, Arizona and as a result I launched the British counterpart to Galacticom-America, calling it Galacticom-Europa. It was based on the messages from her contact with Lord Ashtar of the Galactic Command. I had already introduced a special once a month meeting, as part of my normal weekly meetings studying U.F.O's (and related subjects) and it was part of Tuella's network, called the Universal Network. It was also prompted by the messages given to Tuella by Lord Ashtar. All in all, it all came together rather nicely.

The Messenger

It was at this time that I created and launched the Messenger to distribute these messages from spiritual sources, particularly those attributed to our Space friends.

These were particularly relevant to the times during the 1980s, and we were told that it was anticipated that our Space Friends might have to land en masse to take people off the planet, because of the threat of nuclear war. It ultimately transpired that this intervention was unnecessary as the danger passed. The meetings were however very worthwhile as a lot was learnt of a spiritual nature, particularly regarding the coming Ascension of the whole Solar System.

After some years during which one of those intentional coincidences took place, I met Jim Hi-kiss who was running the Quest groups and as a result he encouraged me to get out and start doing my occasional talks again. We had met many years previously when he came and gave a talk for the Atlanteans at Croydon, and I believe we were clearly meant to meet again.

During this course of time he asked me to take over the editorial spot for his bi-monthly Quest magazine, which I was more than pleased to do, and have continued to do so since. This change also returned me to writing articles which I enjoyed probably more than giving talks, and enabled me to use the massive amount of material I had accumulated over some 30 years, to good effect.

I have always had a keen interest in UFO's since the saucer flaps of the late 40's. I have seen several UFO's including a positive nighttime sighting when a circular craft slowly flew over my car and was only 1000 feet above me. Coincidentally, it happened after one of the regular meetings where we had attempted to initiate contact with them. This left an indelible impression on me, needless to say.

OL.

Channeling How It All Began

I noticed on the Tree of Golden Light website that they invited people to send articles to them for publication, and wishing to continue my passion of writing I contacted the Editor. His name was Bob T. and I posted a series of articles for him, and we became good friends. Bob eventually trained me to post my articles directly onto the website. I also got to know Nancy T-te, the resident website Channeler through Bob.

Part 1.

Mike Q-insey.
