Subject: Mike Q-insey. Part 2.
Aug. 17, 2011.

Now I switch over to information that is on
Google.com
about Mike Qu-nsey.

.....
.....

Mike Qui-sey

<http://galacticchannelings.com/mike.jpg>

Judging by the comments that we receive, Mike Quin-ey is no doubt one of
the most loved and appreciated c-annelers that we publish on our site. Mike
also has his own weekly

<http://www.bbsradio.com/bbc/connecting the light.php>

radio show on BBS Radio, where he interviews interesting guests from the
spir-tual community. Occasions where Mike himself is the one who's being
interviewed, are not quite as common. Since recently, Dutch lightworker
and radio host Maarten Ho-st also has his

<http://www.bbsradio.com/etfirstcontactradio/>

own show on BBS Radio. As one of his first guests, he chose Mike Q-insey.
Unfortunately, the audio interviews on BBS Radio are archived behind a
payment system. But we made a transcript of Maarten's interview, which
you can read here.

With many thanks to Gloria, for the transcript. ET-First Contact Radio,
March
14, 2011
Maarten Hor-t

Maarten: Hello dear listeners, this is ET Contact Personal Radio with
Maarten
Hors-, and I have a very special guest tonight. His name is Mike Qu-nsey,
and
he is a gentleman from Great Britain. Correct, Mike?

Mike: It is, yes, indeed. From England.

Maarten: Yes. And since 2003, if I am right, you have been in contact with
beings from the Galactic Federation

Mike: It was actually March, 2004, so it is 7 years this month.

Maarten: Exactly 7 years now?

Mike: Yes, it seems a long time.

Maarten: Beautiful! Yes, before we start, Mike, I would just like to have a
little introduction that I edited on my computer. It's kind of funny, it's
about UFO's and a bit of funny way they introduce themselves! In the
beginning of the 90's this was done by a DJ in Holland, and it's a very
funny introduction, I just want to play it for the listeners. It's about two
minutes, so just hold on. Here it comes! It's great fun!

Mike: OK!

Maarten plays a recording, which sounds like a 'galactic' announcement
of his own BBS Radio show.

Maarten: Well, that was fun Mike!

Mike: Yes indeed! (laughs). It reminds me a little bit of the

<http://www.youtube.com/watch?v=BrSV00K610>

Carpenter's song in which they're contacting an extraterrestrial craft,
which
I'm sure you are familiar with.

Maarten: Yes, I am.

Mike: With the sort of with a Dalek type Voice of the space people.

Maarten: Yes, yes. Anyway, in the last few years that you have been giving messages, you are mostly in contact with SaLuSa from Sirius.

Mike: Yes, t-lepathically. I have never had the advantage of being able to have a relationship where I can ask questions. I sit down at a specific time to make contact and then I get images or what I call packages of images or words which I translate straight away onto the computer.

Maarten: Yes, I must tell you that since 2008 I started reading your updates, and I do that three times a week. Sometimes even more, because the day after I read your message again. Is it correct that the messages come through on Monday, Wednesday, and Friday?

Mike: That is correct, yes. Originally, I used to do them six times a week. After a few years, SaLuSa indicated that he wanted to be the energy for that group of people, and effectively, he is speaking for them all as the Galactic Federation.

Maarten: Yes, that is what I understand from your messages. I must tell you that since I read them, since 2008, I am really being educated in a very broad way, about ascension, and about the shift we are all going to make, and about disclosure and first contact, and about the wonderful future that lies ahead of us.

Mike: It's wonderful, yes.

Maarten: Yes, and I must tell you, that Thursday night when I go to sleep, if I'm free on Friday - because I work with mentally disabled children, and youngsters, and I make music with them - I ask myself: What can I do tomorrow morning, Friday? And then I think: Oh! There will be a message from SaLuSa! So then around 8:30 Central European Time I think that's 7:30 Greenwich time, I open my e-mail and I read your wonderful message!

Mike: (laughs) Yes, that's lovely. A lot of people e-mail me and tell me that they do look forward to them in that way. In fact, it made me laugh, really - one subscriber sent me an e-mail and said that he is addicted to them! (laughs)

Maarten: (laughs) Yes, I think I am as well, I am addicted too, but I do not want to call it an addiction. The thing is, it is such a contrast between what the media is reporting, the newspapers and the television and radio, if you compare this to your beautiful messages that come from SaLuSa. I have listened to one of your radio shows on BBS radio. A couple of months ago, you interviewed Sheldan N-dle

Mike: Right, yes.

Maarten: So I read them also; they are only once a week. They are placed on line between Tuesday and Wednesday, and they inspire me. There is such a contrast between what you hear on the television and what you read there; it is so uplifting.

Mike: Yes, it's unfortunate that the media, and particularly the press is censored inasmuch that the owner of most newspapers is M-rdoch, and they are only allowed to print on matters that he approves. So they're really c-nsored in that way. So you don't hear very rarely anyway the truth about things that are going on in the world.

Maarten: What I can say about the messages from SaLuSa, is that he is often not giving us very specific details. And the reason for that is, I figured out, to protect the plans that they are working out with the Earth Allies. Is that correct?

Mike: That certainly is one of the important reasons, and also if they release dates in advance, as happened with the <http://www.blossomgoodchild.com/index.html?pageBGchannellings> page6.html October the 14th message

Maarten: Yes, that happened with Blossom Goodchild.

Mike: Yes, you give something out in advance and then, obviously, the dark ones are going to do all they can to spoil it or stop it. So you are safeguarding your own opportunity to make statements or

issue special messages by not freely giving out the dates. They are very reluctant to do it. I like reading Sheldan Ni-le's messages, and messages from other sources, and I notice that his Sirians and other contacts take the same point of view. They are very reluctant to give out dates. They give you ideas by saying, a few months or something like that, but not specific at the moment.

Maarten: No. I think it was the beginning of January this year in one of SaLuSa's messages that he said that disclosure probably will happen in the first quarter of 2011 - this year! Is this scenario still valid?

Mike: Well, inasmuch that I have not received anything to the contrary. I would say that that is still a firm possibility, yes. With the events that have just happened, such as the big earthquake in Japan, you can never be quite sure whether they see the situation in the world as being ideal to announce disclosure. It is, as they've often said, getting the timing right for these things. If they see an opportunity a bit further ahead that is more suitable, then, who knows? Myself or Sheldan, or other people may get some indication coming through. But nothing up till now.

Maarten: I must tell you that, as I said, the messages are very uplifting and positive, and they speak about unconditional love. I myself am so much looking forward to being a Galactic Human, to being an ascended being. Of course, first of all, disclosure will happen and then the landings, first contact, a little while after that. But as I see it -

Mike: - Well, on that point, I don't think that after disclosure the landings will happen a little while after. It will take some time because I think another important issue is they must have the new provisional go-ernments in place; that is for their safety and the people on the Earth. If they come too soon, again, they might give the dark ones who are in the gov-rnments an opportunity to, shall we say, spoil it.

Maarten: Yes, because the members of the Galactic Federation are non-violent. They are very loving beings, they do not use violence. They do not want to get into a conflict on the Earth when they land.

Mike: Absolutely. They would rather, as you might use the term, walk away from trouble. But they are not turning their back on anything.
