Subject: Did We Go To The Moon In 2309 B.C.? Part 2 of 2. Aug. 31, 2011.

This talks about Mars.

.....
.....

His wife Chang Ngo likewise flew to the moon, which she found a "luminous sphere, shining like glass, of enormous size and very cold; the light of the moon has its birth in the sun," she declared. (Chang Ngo's moon exploration report was correct. Apollo II astronauts found the moon desolate with a glasslike soil and parts of it even paved with pieces of glass. Most of the moon, at any given time, is in the throes of extreme cold. It plunges to minus 250 degrees Fahrenheit at midnight.)

The ancient Greek scientist Empedocles had also declared that the moon was made of glass. Such precise knowledge implies on-site inspection of the moon in the remote past.

20 - CHINA: A story from this same period states that an enormous ship appeared on the sea at night with brilliant lights which were extinguished during the day. It could also sail to the moon and the stars, hence its name, "a ship hanging among the stars" or "the boat to the moon". This giant ship which could travel in the sky or sail the seas was seen for 12 years.¹¹

21 - CHINA: "The Shi Ching" book says that when the Emperor saw crime and vice rising in the world, "he commanded Chong and Li to cut off communication between the earth and the sky and since then there has been no more going up or down."¹²

Is this not a clear indication of the cessation of space travel in the past?

22 - TIBET: Sanskrit documents discovered by the Chinese at Lhasa are claimed to contain directions for building interplanetary spaceships. Flight to the moon is mentioned (though it is not stated whether this was undertaken or just planned). The Chinese have stated that certain of the data were being studied for inclusion in their space program.

23 - Relics on the moon? Reports have been made concerning strange messages on the surface of the moon.

An object shaped like a sword near the crater Birt
Strange cross formations in the crater Eratosthenes and at Fra Mauro.

Angular lines in the crater Gassendi and seven spots in the shape of the Greek capital Gamma on the floor of the crater Littrow.

Two giant sets of letters under Mare Serenitalis, to the left of Mare Tranquilitatis, which read: "PYAX" and "JAW" black letters, easily discernible.

Strange tracks running right up the wall of a crater.

If such geometric constructions were found on earth, speculation would rage as to the men who left them. Not every discovery has been announced by N-SA and exploration has scarcely begun. Already NA-A has run out of budget for further moon visits. It is by no means impossible that future astronauts will discover objects or installations showing that other human beings came to the moon in the distant past.

24 - It was July 20, 1969, the occasion of the first moon landing. During the last reconnaissance flight around the moon, preceding the landing, one of the astronauts made an unexpected announcement: he had just seen the contours of what seemed to be some sort of seven-story structure.

What was it that he saw? Might it have been the "Palace of Cold"? Why did they subsequently delete a full 11 minutes -

including this - from rebroadcasts? (But it was too late. We had already heard it.)

If there is a single, ancient, long-abandoned edifice on the moon, if there is a single object indicating earlier intelligence, if there is still one recognizable rock drawing to be found, then just think what such a find would do to our conventional history.

But wait! News has continued to filter through not only from the moon, but from 40 million miles away on the small planet Mars.

25 - A Soviet scientist who defected to the West claims that photographs taken by an orbiting satellite clearly show the ruined temples of a civilization on the planet Mars!

Official (cropped) poster from the White House Mars Exploration Program. This poster was commissioned by the Boeing company and is designed, as all such materials are, to raise awareness and inspire enthusiasm for a given program.

(Hi Res) and more info. (Ed note: This image is not directly related to the article)

The 58-year-old scientist was a high-echelon member of an elite team that has worked together since 1961 when Vostok I carried Yuri A. Gagarin as the first man in space.

But Russia's growing emphasis on the development of a nuclearized "Star Wars" satellite system in space prompted him to flee Russia. He now lives under an assumed identity in Switzerland.

He reports that several years ago, a Soviet satellite was launched for Mars. It reached that destination in 1982 and has been orbiting the Red Planet ever since.

Its sole purpose was to beam photographs and other data back to a manned satellite orbiting Earth. The task was accomplished with incredible success.

The photographs are computer-enhanced and in full color. The detail they show is far beyond anything produced in America. And there is no mistaking what they reveal.

The city scanned by the satellite's camera is three times the size of Moscow and it is ringed by wide boulevards, one inside the other and linked together by smaller avenues, like the spokes of a cartwheel.

The temples must have been huge. Most are in ruins, as though crumbled by a tremendous Marsquake. But some still support slate-grey domes that measure two to four miles in diameter.

The Soviet Union will never admit to this incredible discovery because it would reveal too much of their technological progress.

End of the story? No, not quite. On February 4, 1985, the Melbourne, Australia, Age reported the belief of thirty U.S. scientists that two photographs sent back from Mars in 1976 by the Viking spacecraft indicate the existence of an ancient civilization.

Richard H-agland, science writer and member of the group of scientists known as the Mars Investigation Group, said the photos show what appear to be four huge pyramids lined up symmetrically with a face.

Dr. C. West C-urchman, a professor at the University of California at Berkeley, said there are too many details pointing to the possibility of an extinct habitation on Mars.

What then, I ask, is the real truth about our past? Have we been to Mars before?

International explorer, archaeologist and author
Jonathan Gra- has travelled the world to gather data on
ancient mysteries. He has penetrated some largely unexplored
areas, including parts of the Amazon headwaters. The author
has also led expeditions to the bottom of the sea, and to remote
mountain and desert regions of the world. He lectures internationally.
