By Alfred Lambremont We-re JD

In an exclusive ExopoliticsTV interview by Alfred Lambremont We-re with a human representative-co-tactee of the extraterrestrial governance council known as the Andromeda Council it has been revealed that the wa- of liberation against a 4th dimensional Orion grey and Draco reptilian alliance has been won by the forces of the Andromeda Council as of the 3rd quarter of 2011.

The attempted the occupation of Earth our moon and Mars by this grey-Reptilian alliance is over. The defeated grey-reptilian forces have been sent via stargate into the far reaches of our universe.

The Andromeda Council representative states in his ExopoliticsTV interview that the forces of the 4th dimensional Orion grey and Draco reptilian forces that remain on Earth consist of small pockets of isolated forces around such as Wa-hington DC.

Advertisement

According to the Andromeda Council representative the defeat of the Orion grey and Reptilian occupation force on Earth moon and Mars has the effect of leaving the I-luminati and Annunaki power structure on Earth moon and Mars without any effective 4th dimensional back-up. Any attempt by the remaining grey and reptilian forces to assist Il-uminati false flag ET invasion will be defeated and any false flag ET invasion will fail.

Andromedan Earth representative/cont-ctee

The human representative of the Andromeda Council states he has been given the Andromedan name Tolec. Tolec is a well-adjusted 20-year career professional in the computer industry. In his ExopoliticsTV interview Tolec states he was first contacted in 1993 by his principal Andromedan contact who took him on three time travel journeys via Andromedan space craft to the 1840s western U.S. visiting the same 1840s family to observe their live journey.

Tolec states that his Andromeda contacts ended subsequent to the 1993 contacts until the Andromedan Council contacted him again in September 2010.

In his ExopoliticsTV interview Tolec states that he receives information updates from his Andromeda Council contacts in a number of modalities:

- (1) Telepathic communication with Andromedan representatives
- (2) A-tomatic writing from Andromedan representatives
- (3) Communication in the dream state with Andromedan representatives
- (4) V-sions from the Andromedan representatives
- (5) Interdimensional travel of his s-ul essence to a venue of communication such as an Andromedan biosphere. According to Tolec the Andromeda Council has a number of biospheres or large planetoid-like spherical spacecraft stationed around Earth. One such biosphere has 26 stories and a staff of 50000.

Galactic Governance: What is the Andromeda Council?

The Andromeda Council is a reported galactic governance council composed of selected star system representatives that carry out governance and development functions in a selected areas of the populated and organized universe.

According to Tolec and Andromeda Council controller and representative The chaired members of the Andromeda Council comprise a total of twelve (12) distinct representative council members. The Council has a non-voting Chairman from the star system Zenetae planet Tishtae and a non-voting Vice-Chairwoman from the star system Mirach planet Terial both in the Andromeda constellation. These two people as many on the Andromeda Council live and vibrate in a 4th dimension/density reality. There is one council member per seat. Many of the members of the Council are acknowledged throughout the Universe to be some of the same races that originally seeded Earth hundreds of thousands of years ago as evidenced by the variety of humans on the planet today. It is said these races have already been through the process of transformation of upliftment - the elevated vibration density and spiritual consciousness of the 4th dimension.

Members of the Andromeda Council are from the star systems & planets listed below:

- |                             |                  |
|-----------------------------|------------------|
| 1. Star System: Arcturus    | Planet: Pitolla  |
| 2. Star System: Antares     | Planet: Nikotae  |
| 3. Star System: M103        | Planet: Legola   |
| 4. Star System: Procyon     | Planet: Kaena    |
| 5. Star System: Vega        | Planet: Percula  |
| 6. Star System: Capella     | Planet: Pershea  |
| 7. Star System: Polaris     | Planet: Ventra   |
| 8. Star System: Sirius A    | Planet: Toleka   |
| 9. Star System: Deneb       | Planet: Ritol    |
| 10. Star System: Tau Ceti   | Planet: Xeta     |
| 11. Star System: Alhena     | Planet: Degaroth |
| 12. Star System: Betelgeuse | Planet: Etorth   |

Members of the Andromeda Council not holding one of the senior twelve (12) chaired seats hold board positions of: Investigation research deliberation and advisement to the Andromeda Council. They do this on thirteen (13) unique sub joint councils or advisory boards. There are 5-6 people on each joint council or advisory board. Collectively these advisory boards represent in excess of 400+ representative planets from three (3) star systems including Arcturus. Therefore the majority the greater percentage of the advisory board members comes from different star systems & planets other than the planet where a chaired Andromeda Council member is from. There is a chairperson or otherwise named to each advisory board. They are as follows:

1. Higher Dimensional Realm Advisory Board
2. Star System Membership Review Board
3. Galactic Federation of Planets Review Board
4. Exobiology Galaxy Advisory Board (Sirius- Andromeda Council Member) (Chair)
5. Xenobiology Galaxy Advisory Board (Procyon-Andromeda Council Member) (Chair)
6. Oceanography Galaxy Advisory Board
7. Space Travel Dimensional Flight Technology Review Board
8. Planetary Medical Advisory Board
9. Universe Education Observation & Advisory Board
10. Telepathy and Vocal Communication Observation & Advisory Board
11. Galaxy Sector Planetary Exploration Discovery & Assessment Team
12. Military Threat Level Assessment & Advisory Board
13. Spiritual & Emotional Mastery Dimensional Assessment & Dev'l Board"

According to Tolec, There are also other affiliated councils or races some formal members of the Andromeda Council some not willing to help the people of planet Earth in its process of evolution.

One of the affiliated councils is the Galactic Federation which is a federation of star systems and planets of benevolent beings. The Galactic Federation is comprised of approximately 140 star systems and at present 300 planets. It is lead by a Chairman from the Tau Ceti star system which itself has a formal seat is a senior chaired member of the Andromeda Council. The Federation's lead planet is - Xeta. It is expected over the course of the next few years as planet Earth adjusts to its new life in the 4th dimension - as well as being part of a greater family of intelligent life that is thriving across the cosmos - planet Earth will be invited as a single member to join the Galactic Federation.

1999 Andromeda Council meeting about grey/Reptilian occupation of Earth  
In his renewed contacts starting September 2010 Tolec states that the  
Andromeda Council informed him that the Council had met and decided on a  
w-r of liberation of Earth moon and Mars around 1999 Earth time.  
The Orion greys and Draco Reptilians were abusing the people of Earth and  
beaming negative frequencies at Earth from the moon and from Phobos a  
moon of Mars.

The Andromedans had gone forward in time and had discovered that if the  
grey-Reptilians were allowed to go on with their abusive occupation of  
Earth moon and Mars the grey-Reptilians would establish a tyranny in this  
sector of the universe. The Andromedans themselves and a great many  
star systems would be affected negatively.

Therefore the Andromedan Council decided to set aside the law of  
non-intervention and wage a wa- of liberation that has gone on for  
approximately nine years to the 3rd quarter of 2011.

A -ar in space Andromeda Council representative Tolec states a w-r in  
space in many cases happening just outside of 'Earth space over the  
course of approximately nine (9) years of Earth time is as of this third  
quarter of 2011 in the final cleanup phase. This -ar is finally over.  
Done.

Finished.

As Tolec for the Andromeda Council I can tell you my colleagues had a  
long hard difficult wa-. I will add this -ar is being won by the good guys  
by the combined forces of the member star systems & planets of the  
Andromeda Council those with Earth and Earth humans best interests in  
their hearts minds & s0uls.

Part 1.
