Subject: Are There About Seventy Alien Civilization On Earth? Sept. 3, 2011.

Here are some people who believe that we have many alien civilizations in or around the sky of our Earth.

SEVENTY CIVILIZATIONS FROM OTHER PLANETS ON EARTH

According to a video tape made by a former C.-.A. agent, John L-ar, based upon what he said he witnessed from mi-itary agents with top s-cret security clearances, there are about 70 different extraterrestrial civilizations that have been monitoring the Earth. Based on interviews by civilian UFO researchers from civilian professional UFO research organizations there have been people reporting abductions by beings from at least 40 other planets, although the negative experiences seem to be confined to about 6 prominent planets in both studies. The other reported beamed-up or taken-up experiences and land encounters have involved entities either friendly or neutral who are studying us much like our own scientists study primitive natives in jungles. There have been reported contacts with beings from 4 other planets in our own solar system, including a transparent green ethereal energy formation being allegedly from Saturn and a tall, physical, pure white humanoid claiming to be from Uranus. The beings claiming to be from Mars and Venus are human in appearance yet are based in spaceports enclosed in protective force-fields on those worlds and they represent colonization's from other star systems rather than native indigenous life.

There are also reportedly physical being colonies on some of the huge moons orbiting Jupiter and Saturn that even N-SA admits contain atmospheres and water, including Lanulous, Titan, Io, Ganymede, etc. One of the moons off Jupiter is allegedly a capital planet for an interplanetary federation in our own solar system!

There are reported alien space bases on the dark side of the moon where greys operate, as well as on certain large asteroids and one of Uranus's moons. The Department of Interplanetary Affairs has summarized research on planets with reported physical beings civilizations in other star systems, such as the Korendians that Bob R-naud was reportedly in radio and face-to-face contact with, the Koldasians that a group in South Africa claimed radio and meeting contacts with (CE-3s), the Ogattans that a group in North Carolina claimed physical contact and transport to their planet in dealings with this r-ce, and the Arcturians. The Ogattans are said to be a short humanoid bird-like aliens extremely friendly and s-iritually orientated, from a planet of prismatic domed communities of crystalline material surrounded by crystal forests emanating rainbow colored auras permeated by the harmonics of the music of the spheres. These E.T.s are said to be helping small numbers of humans on Earth with d-vine guidance, very low-key, and they have taken many small children from here to their planet for schooling, where they viewed a Destiny Screen showing future Earth events many of which have already come true!). The events for the later part of this decade and early 21st century on the Destiny Screen present widespread planetary d-sasters. This is a fairly common warning, and was even given to the P-ntagon leaders in the early 1950s by the negative grey aliens led by Krill from the Zeta/Orion i-vasion. Warnings of widespread Earth ca-astrophes in the next 20 years were common in the 1950s from extraterrestrials claiming to be based on Venus, Mars, planets in the Pleiades through the 1970s), and some other solar systems. Many of the events these aliens reportedly prophesized in the 1950s & 1980s have already come true, including several famines, floods, earthquakes, w-rs, etc. The Koldasians, who reportedly look so much like we do that they could walk into a supermarket incognito, say they were recently nuked on their own planet in an interplanetary wa- that resulted in negative aliens invading their territory. Their leader on their Earth mission, Valdar, who

reportedly met on a South African beach with Earth contacts and also had radio contacts, details another type of Interplanetary Confederation. Koldas is a member of in lengthy writings by Carl Van Vlierden. Valdar warns Earth not to make the same mistakes taking place in their solar system.

Similar warnings came from the Korendians, who reportedly look exactly like us humans except they are only about 3 to 4 feet tall and live on a planet 6 times the size, of Earth, with oceans and many more continents, which I have a map of and a copy of their reported language, alphabet, measurement system, and register of nearby inhabited planets! Carl V-ierden even produced photos of Koldasian spaceships, just like Bob Re-aud did with the Korendian spaceships, which look like daytime disc-shaped flying objects.

Meanwhile we hear about beings from Arcturas who are small humanoid greenish beings semi-physical who are so far beyond us sp-ritually, technologically, and mentally we can barely comprehend these entities. They say they guide certain people through c-anneling spi-itual advice and on their own planet they have none of our physical or emotional problems. Like most of the other advanced ra-es they live in crystal domes in a garden of Eden like paradise with music beautiful beyond our comprehension, scenery beautiful beyond our dreams, and no pollution or d-sease. They do not want to get involved in our -ars. Then even further beyond our reports of beings from Andromeda Galaxy who are light-energy bodies who teleport or project anywhere in galaxies and can manifest physically as anything from a humanoid being to a g-ddess to a tree or a symbolic animal. There are also beings found in crashed flying saucers who are so ugly by m-litary standards that they have disguised their true looks with a super-tight fitting very real looking organic suit that resembles a better looking alien than they themselves really are or they surround themselves with laser holographs that look so real that witnesses believe these aliens look like humans rather than mo-sters or little d-mons. According to decades of pain-taking research by scientists like Jackes V-llee and researchers like John K-el, many of the ells, trolls, fairies, menehunies, and other so-called mythological creatures of old were really aliens using these disguises to manipulate the cultures of those times in a form more easily relevant in those centuries. There were also mo-ster flying d-agons and serpents and other mon-ters spitting fires who were the creations of aliens using laser holograms to fool primitive societies. And there are also reports of part human part animal/fish/bird/reptiles creatures that are actually bizarre genetic creations of bizarre real life forms... real scary creatures of the night.

James Forestal was our Secretary of D-fense before he was illegally committed to a mental institution after being abducted by a UFO and talking to to many people about it. His diary stated a report about one of the aliens found in the R-swell crash and how it looked like something from H-ll. The diary also told of human body parts found in crashed UFOs piloted by greys. James was thrown out of a skyscraper by C-A agents before he could tell the story he wanted to tell before C-ngress and at press conference.

However, apart from very EARLY Earthly interaction from Vega and the Lyra realms, the dominant replaying MAJOR alien interaction on our planet for the last 100,000 years involves the Sirians, Pleideans, Orions, Zetas, Centaurians (since 15,000 BC only), and last but not least a rac- we have not yet covered . . . the Nibirians - If you are not familiar with these other -aces please read Volume 3 of this series about interplanetary colonization's about the History of the Golden A-es and how there is no shortage of ancient writings to prove this story really happened.

Zacharia Sitchin has spent decades as an archeologist and historian in the Middle East, researching ancient writings from the Sumerian civilization into a 5-part paperback series documenting the Nibirian interaction on Earth in ancient times. If you want the truth please read this series. It is so-well documented it has been given great reviews in the Establishment news media, something Von D-niken never attained.

Sitchin reports the Nibrians are from an ancient 12th planet in our solar system called Nibiru, and that they landed on Earth in prehistoric times hundreds of thousands of years ago and mined the Earth for gold and other minerals, established a spaceport in what today is the Iraq-Iran area, and lived in a kind of idealistic society as a small colony. They returned when Earth was more populated and genetically interfered in our indigenous DNA to create a s-ave-race to work their mines, farms, and other enterprises in Sumeria, which was the so-called Cradle of Civilization in out-dated pre-1980s school history texts. Later on the Nibirians also used behind-the-scenes power-plays to manipulate the Egyptians and certain other empires along with the Sirians. They played g-ds too and played a

heavy ruling hand in Babylonia, Persia, Mesoamerica, and other lands, using their advanced technology to make primitive peoples believe they were go-s.
