Subject: Is Comet Elenin A Mother-Ship?  
Sept. 8, 2011.

Here are some people who think that the Comet Elenin is a Federation Mother-ship.

Please don't take them too seriously when they certain dates for things. In the fullest of time these things may happen.

.....  
.....

Comet Elenin is a Mother-Ship of the Galactic Federation;  
It will Trigger the Visible Split of Earth in Ascended Earth (A) and Catastrophic Earth (B) in October 2011

Comet Elenin - "The Blue Kachina"???

First Wave of Ascended Human M-sters is Expected between October 16 and November 11, 2011.

Earth is to enter the Photon Belt on 11.11.11.

Comet Elenin is in the news and the minds of the world community since it was first discovered by the Russian amateur astronomer Leonid Elenin on December 10, 2010, through remote control of the International Scientific Optical Network's robotic observatory near Mayhill, New Mexico, When I predicted in my last interview with you that the financial collapse will take place in late September and October, I explicitly stressed that only after this, the true End Time of R-levations and Jubilations (not Tribulations) of humanity will begin. This will be the final period of preparation for Ascension. All facts must come on the table. I told you that you must bear in mind the two pivotal dates, 11.11.11 and 12.12.12, which mark the last two star portals, opening the road to Ascension for earth and mankind. The 11.11.11 portal will be the beginning of the official Ascension process for humanity. As I have written on many occasions, it will be triggered by the First Wave of Ascended human Ma-ters.

Now I can give you new and more precise information on how these dramatic and breath-taking events will unfold in detail in the course of this fall.

This information I am receiving continuously from the causal worlds, with which I stay in an open t-lepathic contact since 1992. The first brand-new information is the role, which the Comet Elenin will play in the coming crucial events. Contrary to the current confusion in the mass m-dia and Internet, deliberately instigated by the dark ones, Comet Elenin is a mother-ship of the Galactic Federation and is heading towards earth to support the begin of human Ascension. It is tarnished as a hollow planetoid/asteroid of comparatively modest proportions. The more important, bigger 5th-dimensional part of this mother-ship is invisible to human eyes and cannot be detected with material devices. Before I proceed with the Ascension scenario in the coming two months, let me explain first, how this fraud has been created by N-SA and other gov-rnmental bodies.

The Comet C/2010 X1 (Elenin) was first discovered by the Russian amateur astronomer Leonid Elenin on December 10, 2010, through remote control of the International Scientific Optical Network's robotic observatory near Mayhill, New Mexico, U.S.A. At the time of discovery, the comet was about 150,000 times fainter than can be seen with the naked eye.[5] The discoverer, Leonid Elenin, estimated that the comet nucleus is 32934 km in diameter.

This discovery triggered a wave of wild speculations around the doomsday scenario, which the dark ones fodder for many years in film, television and mass media. As the comet was fairly small, it was postulated that a brown dwarf is hiding behind it that may have a huge gravitational impact on earth and cause massive devastation. These horror scenarios were deliberately launched by the C-bal to inflate the collective fears of the people and delude them from the ascension timeline, which they

can only enter, if they are free of existential angst. In a second step, NA-A entered the scene as a competent interlocutor and rejected all these doomsday-prophecies with seemingly irrevocable scientific arguments. Here I am presenting a small sample of the forged scientific dementi of NAS-, which I will discuss below from the point of view of the new physical Theory of the Universal Law: "You may have seen the scary headlines. You may have read those alarming emails. But do you believe it? Just in case, -ASA has issued the facts about a comet called Elenin. And no, these aren't the "facts" doomsayers will tell you. In short, the 3-5 kilometer-wide comet can't hurt us. Really, it can't. It's too small and its closest approach to Earth will bring it 90 times the Earth-moon distance. 90 times the Earth-moon distance. That's a whopping 35 million kilometers (22 million miles) away. Could there be any conceivable impact to our everyday lives by this dirty snowball?

ANALYSIS: Will Earthbound Comet Elenin Fulfill 2012Prophecy?

I seriously doubt this will calm the overactive imaginations of some conspiracy theorists, but N-SA has felt the need to respond to the crazy theories being flung around and to address some of the more rational questions. (NA-A did a similar thing in 2009 when responding to the 2012 doomsday nonsense, issuing a statement that there was no known astronomical reason for the end of the world on Dec. 21, 2012.) Helpfully, two NA-A scientists have been hard at work over the past few months responding to questions from the public. Yesterday, NAS- compiled some of the most popular questions, creating an "everything you ever needed to know about Comet Elenin"

The Elenin answers were provided by Don Yeomans of NA-A's Near-Earth Object Program Office at N-SA's Jet Propulsion Laboratory in Pasadena, Calif., and David Morrison of the -ASA Astrobiology Institute at the N-SA Ames Research Center in Moffett Field, Calif. Morrison is no stranger to responding to these kinds of questions, having become NA-A's in-house 2012 doomsday debunker.

Nibiru - Armageddon Planet or Astronomical Baloney? (by David Morrison)

It seems that doomsday theorists and astrologers alike believe that any celestial object, no matter how small or distant, can have some magical influence on Earth. Fortunately, this isn't true".

Please observe that NA-A is connecting Elenin with Nibiru without any obvious astronomical reason. This should be weighed upon the information, leaking from NAS- that shortly before the last space shuttle was launched in space, the employees of -ASA were informed at a special meeting that they will have to be dismissed not because the space shuttle programme has been terminated, but because N-SA is expecting very soon an invasion of evil aliens.

However, all the dismissed employees could seek refuge in one of the many underground bases of the dark US-Castal.

This was the usual manipulation of intimidated humans by the dark ones with the aim of dumping down any critical scientists in NAS-, who may have asked some specific questions or even leaked secret information on Elenin and the upcoming events. These are of course known to the bosses of this camouflage organization, operating as a cover-up for the secret joint ventures of the US-Elite with the Orion Empire.

Now back to Elenin and the fraudulent dementi of NA-A. It is not the purpose of this mother-ship of the Galactic Federation to cause natural catastrophes on earth, but to help the split of the two timelines of earth in the End Times.

As I have written in my last book, earth will ultimately split in an ascended

earth (A) and a degraded, catastrophic earth (B) in the three days of stasis around December 21, 2012, when a huge photon tsunami from the central sun of the galaxy will flood upon earth and transport the ascended earth to the 5th dimension (see also the ongoing scenario).

This process will actually begin with a full force on the 16th of October 2011,

when Elenin will reach the closest distance to earth. The influence of Elenin

can only be understood in conjunction with the energetic transformation of earth that is going on since 01.01.01, when the crystalline 144-grid of earth started to be renewed. After the Fall of Atlantis and the full conquest of this

planet by the Dark forces from the Orion Empire, the earth was put under quarantine from the rest of the galaxy as not to intoxicate the other civilizations with its negative energies.

In the first place, the crystalline grid from the Atlantean and Lemurian times

was wrapped up. As a result, the earth sunk into greater density and physicality. The veil of forgetfulness became impermeable and the energetic interceptions with the higher realms of cosmic awareness and incarnated

so-1s were practically cut off. This quarantine lasted since 1987, when the first harmonic convergence took place in the summer of that year. After the final decision was taken in the early 90s in the highest realms of Cosmic

Providence that earth and humanity will ascend in December 2012, and that earth will not be destroyed, the regeneration of the crystalline 144-grid

was initiated on the 1st of January, 2000.

Each year, a new star portal is opened at the specific numerological dates: 2.2.2, 3.3.3... 11.11.11, and 12.12.12. Each portal corresponds to the building of about 8.5% of the earth's crystalline 144-grid. On 11,11.11, the grid will be completed by about 93%.

These are the hard cosmic facts, which N-SA deliberately hides from the public, although the dark Caba- know very well what is ongoing on earth in the End Times. Instead they are playing insidious games with the incompetent and ig-orant public by averting the attention of the people from the real facts.
