Here is some information from a person who owned a community channel TV show that used to host. We did over one hundred shows together.

I got your letter asking what I have been doing lately. I've been to doing the following things.

1. I got a letter from a person called Rory Griffin

who is a producer and director. He is interested in making a series of movies similar to X files. I or someone else would play the part similar to Mulder.

He is intersted in making a movie series first of all about The Dogon People of Africa who claim to have come in contact with a group of space people from a planet near Sirius. Due to the fact that I'm in poor health due to being

caught in Chemtrails I figured I wouldn't do it. If you would like to contact him

he is on goggle.com

If you do this just tell him John Winston referred you to him.

2. I've been invited to speak at conventions. Two are in Bee Jing, China and one in South Korea. They are interest in my postings about health and C-ncer.

3. I've been told that I am from the Pleiades. One of my friends is from there and recognized me as being from there.

4. Although many would kid me for saying this but I was asked if I would like to be the ambassador between the Earth and the Federation. All I would have to do is pass on to the internet what the space people are transmitting to other people on Earth. I was already doing that so said that I would be willing to help out in any way I can. There are about 10 to 12 million space crafts in our skies at any one time.

I am going to post this on the internet so I hope Rory Griffin send me his phone number again.

Good to talk with you again.
