Subject: Two Sisters Meet The Space People. Part 3.
Sept. 16, 2011.

They predict that we will have lighting from the walls.

.....
.....

The space people that have negative qualities about them are coming from farther space systems, although I do not wish to imply that all space craft from farther systems is evil. Many of the craft from farther systems are very good and are also trying to help Earth; however, it is only those certain evil systems that we should consider when I say those from a farther system than our own. It is these negative beings who are here for the purpose of actually taking people from Earth to indoctrinate them with their ideas, so they in turn will cause confusion and disturbances upon the planet. The true purpose behind this is to prevent harmony and peace, for they are in alliance with those beings living in Earth, who themselves will be forced to leave Earth when peace and brotherhood is completed. The gains that these negative people obtain from their alliance with those other negatives in Earth is not known by us, but it must be quite profitable for them to engage so actively against the Space Brothers who are trying to help Earth. The Space Brothers who are trying to help Earth have to contend with these craft and beings from other less desirable systems, and also have to contend with the disbelieving masses of people who either do not know of the need for harmony and peace or those who do not want to listen to their urgent requests. The job of the Space Brothers is not easy, for it is necessary to prepare the people of Earth to accept their existence, and also to guide them in proper understanding so that peace and co-existence will be possible.

Many people seem to feel that the negative beings are only from planet Earth and consists only of those fallen angels who were cast out of heaven by a Supreme Command from the Most High. Many can quote the proper passages of the Bible and prove that there are fallen angels living here on Earth, who cause the necessary confusion and evil which we here must live among. There are those intelligences of superior powers whom we would call fallen angels living in Earth, but it is not wholly from them that the evil or bad flying saucers come. As you look up into the sky at night you see multitudes of stars, planets and suns moving on in beautiful orbits. However, if you could move out through space and watch the barbarous conditions that exist upon some of these stars you would be shocked. There are some systems advanced in scientific accomplishments to the degree of matter over space, but those systems have advanced in science alone and have little spiritual advancement. They come here to Earth and to other planets in farther systems to form alliance with those intelligences who will provide them the necessary fulfillment of their evil desires and wishes.

Planet Earth is now visited by such craft, whose occupants live and profit from the unrest and disharmony present. Who can truly say what percent of our actions are fueling these beings with necessary materials and profit. What these profits are cannot be said by us, for only each one of us in our own understanding can know in Truth what their actions consist of that could be used as a fuel by the negative ones. These negatives can present very good arguments and can deceive the unwary in many ways. Their goal is to conquer and own, without any concern how they do it. They may use one form of attraction one time and another the next. Now, how, you probably think, do we know about this. I can only say that many times, more than we have recorded or remembered, we have been

interrupted in our attempts to contact the Brothers by means of our device, and then encounter the beamed transmission of a negative craft. In many instances these beings have mocked our efforts and have belittled the Brothers and us. Other times they have lied and said they were the M-4 Section of Mars and they had a message for us from the Council, and that we were to say such-and-such or else we were to stop speaking altogether. Patience is a good way to win with their persistence, for they cannot persist too long without getting angry and revealing themselves.

Once we were interrupted by them and told flatly who they were and what they wanted us to do. They asked us to prepare a book for them and expose the whole untruth connected with the story of the fallen an-els. This book was to be delivered by one of their very advanced minds, and to be created in manuscript form by us and offered for publication.

Please notice that I said this book was to be done in this manner at their request. We refused to do as asked by them, and burned the first few sections of their story when it was delivered to us. From that time up to the present we have been interrupted only occasionally, and then their attitudes have not been quite as demanding. We refuse to have anything to do with this type of beings and wish to serve only those of goodness and light.

The subject of negative beings can be connected directly with much unusual phenomena that seems to be completely contrary to natural law. However, nothing can defy the absolute laws that G-d created, but many of these laws are simply not known nor understood by millions of people. The percentages of people who can manipulate these laws is very few. As said before, many beings of a negative nature do live in Earth, and there are some of these who have the power to do unusual things. Many times strange phenomena have been noted to take place, such as objects moving freely in the air; articles appearing and disappearing; solid objects passing through walls, door, etc. The number of unusual happenings are numberless. Many of these happenings are due to the mischievous minds of negative beings, who merely change the molecular polarity of the structure of an object and cause it to pass through the air as though defying gravity. Truly such an object is moving freely through space, but only due to the natural law of gravity.

If an object such as a glass contains the positive polarity of mass, then the earth below it is of a negative polarity. Merely by changing the positive polarity of the glass to a negative polarity it will cause the glass to push away from the earth which is also of a negative polarity. The law of a magnet can be applied to this simple demonstration, for "Like polarities repel, and unlike polarities attract." Two negative polarities will push away from each other, whereas two polarities of different natures will cling to each other. Thus, gravity, or more simply said, polarity controls such unusual demonstrations. It does, however, take a very great Will Power to command such objects to move. Nothing can be done outside of natural law. Misapplied power and nonsense must still obey the laws of Go-, for nothing can be outside of His Laws. An important thing, however, is that not all unusual happenings are the result of negative beings, but much of it is unknowingly set into motion by the minds of Earth people, who happen to set into motion the law of polarity and gravity.

I would like at this time to dispense with the subject of negative things, and like to direct your thoughts to something of a more affirmative nature. I would like to give you a little of the prophecy for Earth that the Brothers gave us. However, at no time do the Space People or Betty and I want you to think that these prophecies are definitely what will happen to Earth. The Brothers told us that these things would happen only if Earth follows the path of advancement that she had been doing before the explosions of so many b-mbs. These explosions could alter these conditions very much, for as the Brothers said, these explosions are altering the atmospheres and materials for Earth. It is from man's past actions and advancement that these prophecies are derived, and it is from this that the future is formed. Thus prophecy can change and 10 years from now these same prophecies could be wrong, but only if Earth's people continue with the A and H bom-explosions and if a series of serious battles and conflicts result upon Earth.

As for the prophecies themselves, the Space People tell us that Earth will have an axis change, and that this will cause America to become warmer and certain parts of Europe to become colder. This axis change should come about slowly and be a gradual thing, and will be if nature is left alone; however, there are certain people who wish to bring about this

change too quickly. As for the manner of clothes people will be wearing upon Earth in the future we will see that the men will wear clothes that have a tighter fit, whereas the women will wear looser and longer dresses. The homes will change with the circular home being preferred. There will be a screened dome top to the homes, which will open to let in the air. Lighting will be from the walls and a circular rim around the ceiling. This lighting will be automatic and adjust itself to the proper brightness. All power for the kitchen, laundry, heating and lighting will be provided by small individual units in each home that is inexpensive to operate. The countryside will be beautiful, for all wires, telephone poles and power stations will disappear, along with the billboards and other unsightly scenes.

Part 3.
