Sept.

This mentions slaughter houses.

The entire mind of man will enlarge in s-iritual growth, for unmoral books, shows and entertainments will be revised to teach Truth. Television will be the greatest c-annel for Truth to reach the minds of the people. As the mind of man changes to higher thoughts, so, too, will much of the material requirements change. And it will come to pass when the dietary habits of man will also change. No longer will slaughter houses be seen, for the eating of meat will diminish. It will not entirely disappear, but the vast slaughter of animals will cease. Earth will cease to have epidemics of d-sease, and therefore newer systems of laboratories will appear. Illness itself will be an individual thing, and will be corrected, quickly and safely in the laboratories. What more can we ask for, for doesn't this sound like Earth could be a beautiful place? There is more--much more--but time does not permit me to enlarge on all the prophecies for Earth. Among the many things to happen, Earth will also have space flight, and will enjoy the companionship of the Space People. When Earth has risen to this height of advancement space flight will become a common thing, and Earth's people will then perhaps go out and serve other less fortunate planets, just as the Space People are serving Earth now.

There are only a few more things I would like to mention and they are concerning a question which has been asked of us. A few months ago Betty and I announced that we were publicly withdrawing from actively speaking. But since that time an erroneous idea has sprung up that perhaps we had been shut-up by the Three Men in B-ack. We would like to clarify this, for we have not been visited by anyone who threatened us, and we were temporarily withdrawing from the saucer field for personal reasons. These reasons were due to certain changes we were going to make, and one was due to the fact that I was going to leave for France. However, different plans have been formed and I am not going to leave for France; therefore, we will be available at times for lectures and speeches.
