Subject: Betty's Account Of Meeting The Space People.  
of 2.  
Sept. 17, 2011.

Part 2

This talks about a planet that blew up and the occupants came here to Earth.

.....  
.....

I have a few comments to make concerning this message from Tregon of Venus, for I was very much interested in knowing of the rise of Earth's earlier civilizations, particularly the Atlantean. Many people have asked us of this phase in Earth's history and so it was natural that we would prefer to obtain the Space Brothers' opinion. So many really important facts are contained in Tregon's words that I would like to draw your attention to a few in particular.

At the first of his message he said, ". . . the human mind is filled with much misrepresentation." Then he went on to say how false history is accredited to this misrepresentation, and he explained why this came about. We all know that many of the facts in our history books are based only on a few records and that these could have been hurriedly and falsely written or transcribed. The plain truth that any of the ancient languages cannot be completely understood today is due to the fact that the human mind is divided in its wisdom, and that certain knowledge then, does not prevail today.

Therefore the present mind cannot possibly understand all the phrases and written symbols that the ancients tried to reveal in their records. Our explorers and archaeologists are now finding and uncovering strange records and symbols that they cannot decipher. A language of symbols was the only way to record the Universal Tongue. The people of ancient Atlantis spoke the Universal Tongue, and as we recall in the message of Tregon, he said that due to evil acts the people and tribes of Atlantis were split and I quote his words, ". . . it was thus the purpose and plan of the Creator to prevent the understanding of certain tribes." We learned that the fallen angels were the beings who lived on the planet Lucifer, that once was in an orbit between Mars and Jupiter, and that these evil beings fell to Earth after refusing to accept the word of the Most High Council. We can understand why these beings were considered as angels and why they are considered as falling from heaven to Earth. At the time of Atlantis the beings upon the planet Lucifer were extremely advanced and possessed space flight and wisdom that Earth man does not yet even know. They were thus advanced far beyond the modern men of Earth, and were indeed possessors of rare wisdom.

Their fall occurred when they disobeyed the Most High and continued with devastating experiments that caused their planet to be exploded. Thus cast out by the Most High and the other angels they descended to earth where they were forced to rebuild and start a new. They had lost a vast and beautiful planet, and thus fell to the early civilizations that Earth possessed at that time. They continued their evil on Atlantis and when the angels in heaven saw this they were commanded by the Most High to cause this to cease by scattering the people and dividing the language, so the evil ideas of the fallen ones would not be understood. When the messengers from Venus arrived to start the work of the Most High, Tregon tells us that, ". . . the sealing up of ignorance and fallen angels began."

Since the space people of Venus did instruct and guide the faithful people of Earth to sacred places where they would be safe when certain changes took place, we know that they will again do this at the proper time. Our scientists know that there are cycles of activity that Earth passes through and Tregon also said in his message that ". . . as a new cycle of change in the heavens began the wise ones of Venus came to Earth to warn all to repent." The people of Venus knew of the inevitable axis change that

was to bring a flood and cataclysms to Earth. The faithful were warned and only those who were full of obedience to the Most High received the warnings and instructions. Thus Earth was cleansed and the evil ones with their records and language sank with Atlantis and other continents, while the faithful were saved.

We find the space people are now prepared to again warn those who are faithful and to show them sacred ground to go to, also to lift them from the face of Earth itself and protect them from the radioactivity and evil of those who do not follow the laws of the Most High. Our Space Brother has said, ". . . Let those who have ears to hear, let them hear." Tregon has told us that the evil of Earth will continue until the planets and oceans are radioactive unless Earthman puts a stop to this evil.

The space people cannot intervene, nor cause all the A and H bombs to become inactive, for they, too, are held in a certain status until the time comes when the Most High issues a decree of action for Earth. No doubt they have the wisdom and means of making all the storage of bombs inactive, but they will not or can not interfere unless the order is given by the Most High. The Brothers have told us before that the evil ones of Atlantis were experimenting with energy releases that our scientists are playing with today in the A and H bomb experiments, and that due to this they brought about the axis change more quickly than the natural change would have been. He has told us the tribulations of Earth could be brought about too quickly, for an axis change is coming and if left unhampered it will be natural and slow; but if the explosion of bombs continues it could bring about this axis change too quickly and cause cataclysms.

Many times the enthusiast asks us, "Why don't the Space People just come down and take over? Earth would be better off." But Tregon has answered that question, and until Earth is again ready for the natural axis change they will only issue warnings and perhaps take the faithful up to the far heavens where they will wait the final cleansing of Earth's surface.

The problem of flying saucers has become very deeply interwoven with the fate of Earth, and none who investigates the phenomena can come out of it without sensing the complexity of the solution. No one can give a definite account of all the Space people's purposes, but we can share the information we do get and piece together the intricate puzzle of what they are, why they come to Earth, and how Earth is being benefited by them. To the faithful who keep the Laws of the Most High we can only phrase the words that so often come to our minds, ". . . rejoice, and be exceedingly glad: for great is your reward in heaven. . . ."
