Date: Sun, 18 Sep 2011

80 different countries have now formed an alliance against the Old World Order / N-zi-esque c-bal.
Two huge underground cities were destroyed on August 23--which may be seen by historians as the critical moment in which the w-r was won.

The best way to get you started on this amazing journey is just to hit the ground running. So here we go BENJAMIN F-LFORD: THIRTY YEARS AS A FINANCIAL JOURNALIST

.....

Hi there. This is David Wi-cock, and you're listening to another D-vine Cosmos audioblog exclusive interview with Benjamin Fu-ford.
Ful-ord has worked for F-rbes Magazine as the editor for the Asia-Pacific region. People have tried to attack his credibility on this before, but it is documented. I have checked the references myself.

[Ben has a free website --

that give detailed, additional information on everything we are discussing

[Fulf-rd] was mentioned by Stephen C-ibert in one show discussing the so-called I-luminati.

Scroll about a third of the way down at this page to see the video.

I will also say that Fulf-rd has contact with an incredible number of different sources. He does seem to back up who these sources are -- as much as humanly possible.

N-CLEAR STRIKES AGAINST UNDERGROUND BASES

Recently, these sources informed him that the earthquakes that occurred in C-lorado and the W-shington DC area, surrounding August 22nd and 23rd, were, in fact, apparently nu-lear strikes against underground mi-itary facilities.

[These ground bases] have been built by the US g-vernment, ostensibly since the early 1960s, at the cost of trillions of dollars of undocumented taxpayer money that is going into these b-ack projects. The reason why I contacted Benjamin Fulfo-d is I had [first] read this on his blog [and was amazed.]

Then I started to contact my own sources, which have been built up over being a public figure on the Internet since 1999 and gaining the trust of many people in various classified programs.

I was absoutely astonished when I started to ask around and found out that everyone I know, with one exception who probably wasn't on a need-to-know basis, confirmed that this attack did happen.

THEY NEVER IMAGINED IT COULD HAPPEN

Now again. I'm going to turn it over to Ben in just a second. One more setup thing I want to say here is this.

If you haven't understood the gravity or the implications of what I'm telling you right now, it's important to point [one thing] out.

These guys never imagined that these underground facilities could have been attacked. Ever.

So what has happened here is a seismic shift in this insider -ar that is arguably as significant as the n-king of Hiroshima and Nagasaki in World Wa- II.

And in fact, it may very well be the workings of the Universe, in terms of karma, that the people responsible for those attacks have now had it happen to them.

CODE RED ON A NEED-TO-KNOW BASIS

There is undeniable significance in this happening. I was astonished at the depth of detail I have been able to get from my own sources about what happened.

I have been told that the situation is now considered Code Red. However, it is also being withheld from most of the people in these [classified] programs.

It's on a need-to-know basis.

Even the sources I am in contact with, all except for one, did not even have the need-to-know basis high enough to know why this happened. Or who was responsible for it!

MINING FOR INFORMATION

So the only thing we know is that the powers that were, as I like to call them, have been putting out stories on the Internet about this event.

They're actually doing is they are trying to mine for information. They want to find out who knows what.

And I am astonished that my own sources lack the knowledge that Benjamin F-lford has been putting out as to who is responsible for this and why [it was done].

UP TO SIXTY THOUSAND D-ATHS AND NO INSIDER IS SAFE

My intelligence suggests it is possible that as many as 30,000 people were in each of these two underground cities at the time that [the explosions] went off. So we're talking about the potential of 60,000 de-ths.

We're also talking about the potential that anyone else working for these programs who is in one of these facilities, which could either be underground or possibly off-world, such as in a space station, on the Moon or elsewhere is now totally alone and unguarded.

They are not going to be protected. They are not safe. And their superiors are not informing them of the risk they are now in by being in those locations.

SET THE RECORD STRAIGHT

I want to set the record straight. I want to get the man to talk to you, the public, and hear, firsthand, what the h-ll is going on, who did this, why did they do this, and what are the implications.

So Ben, that's my intro. Let's hear from you now. I'm very interested in this.

B-ETTON WOODS SET THE STAGE

BF: There has been a very esoteric battle over control of the dollar printing machine for the global financial system.

What happened was that at the end of World War II, at the Bretton Woods accords of 1944, Britain, France and the US were given the right to control the world's currency.

They were supposed to have a Marshall Plan to develop Africa and Asia as well as Europe.

They reneged on their promise, and instead started to fake a cold war with the Soviet Union which was designed to support the military industries.

77 NON-ALIGNED NATIONS SET UP GLOBAL COLLATERAL ACCOUNTS

Then, the group of non-aligned nations 77 nations pooled their assets all their wealth, their gold and other valuables and set up some global collateral accounts.

They wanted to use this money to start the Marshall Plans for Asia and Africa.

KENNEDY TRIED TO END THE FED AND THE COLD WAR

President Kennedy agreed to go along with this after he found out that there was a group that was trying to very seriously get the Soviet Union and the United States to annihilate each other. This was the Cuban Missile Crisis.

The historical accord is called the Helton Green Memorial. This is available to any serious researcher in financial history.

President Sukarno [of Indonesia] was the signatory for the countries. He was going to give Kennedy ----- they gave Kennedy 140,000 tons of gold.

Kennedy passed a law allowing Congress, not the Federal Reserve Board, to create dollars [from these gold-backed global collateral accounts given to the United States.]

Kennedy also said, Let's go to the Moon, instead of this cold war, to stimulate industry. Let's develop the poor countries and let's develop space instead of having this fake Cold War.

KENNEDY WAS ASSASSINATED AND THE CLOCK RAN OUT IN 1994

Kennedy did put out a lot of money, but he was assassinated. As you know, the public space program just disappeared in the 1970s when that funding ran out, and just stopped completely. President Sukarno was hounded from office.

The international agreement that left Britain, France and the United States in charge of the world's financial system expired in 1994. That is why they wound down the Soviet Union.

After 1994, there was no accord at the very top level of the world's financial system about who would be in charge next. There was a split in the

ranks.
