Subject: Underground Bases Blown Up. Part 2.
Sept. 19, 2011.

This talks about a-sasination orders.

.....
.....

CHINA AND NON-ALIGNED NATIONS WANTED FINANCIAL CONTROL

The Chinese and the non-aligned nations were pressuring the oligarchs who had been running things since World W-r II to hand over control of the dollar printing press the financial system but they were reluctant.

The international court of justice at the Hague was sued by the Chinese over gold that the Federal R-serve Board owners sold them.

THE FED HAD TO PAY UP ON SEPTEMBER 12, 2001

The Federal Re-erve Board owners lost this lawsuit, and they were told to hand over the gold starting on September 12, 2001.

Instead, on September 11, 2001, as you all know, they gave the world the finger and started this huge, fake, global w-r on terror. It was part of an attempt [at controlling the planet] by the f-scist groups of World Wa- II.

THEY WANTED GLOBAL FA-CISM AND 90% FEWER PEOPLE

The Na-is and their fas-ist sympathizers in the US, and England, and Italy, [along] with a group that can be found within the mi-itary, in C-ngress, and in the V-tican, were going to set up a global fasc-st g-vernment.

At the same time, they had this belief that there were too many people. Especially too many, according to them, inferior b-own-type people.

They wanted to reduce the world's population by 90 percent.

DW: This is documented?

BF: Yes, it's very well documented.

I was invited to join this group by Heizo T-kanaka, who was the Japanese finance minister for five years. I have a tape recording of this invitation to prove it.

THEY WANTED TO HIDE UNDERGROUND AFTER N-KING THE PLANET

They were planning to hide in these underground bases after they set off a n-clear holocaust.

The original plan was to start a nu-lear -ar between Iran and Israel.

[They would then] use that as an excuse to set up martial law in the G7 countries.

Then [this new mi-itary strength would be used to] prepare for wa- against China.

RUSSIA AND CHINA CUT THEM OFF

This plan fell apart when Russia kicked them out and Putin re-asserted independence for Russia.

That removed their control the oil industry and made that whole plan not work.

The Chinese also stopped buying US treasuries for a while to put pressure on this group.

THEY OFFERED TO PARTNER WITH CHINA IN WORLD DI-TATORSHIP

So they switched strategies. Instead, they tried to suck up to China and offer them a world dictato-ship in partnership with this group.

That's why in public you saw O-ama visit China in 2009 and offer a
-----.
This is how you can confirm this.

THEY ARE BEING CUT OFF AND ARE RUNNING OUT OF MONEY

In any case, this group that carried out the 9/11 attacks has been under increasing pressure, and under isolation, at the very highest levels.

They are running out of money. They are being cut off.

WHAT ABOUT THE MISSING 2.3 TRILLION DOLLARS?

DW: Ben, right before September 11th, a lot of people forgot about this. Donald R-msfeld goes on national television and says that they lost 2.3 trillion dollars from the Pentagon over the previous decade.

Does that have anything to do with this gold thing you are talking about?

BF: Oh yeah.

FINANCING M-RDER INCORPORATED

That money was used to finance B-ckwater a private army not controlled by the P-ntagon.

The Pe-tagon would not let themselves be controlled by this c-bal. So they were trying to do what the N-zis did in World Wa- II create an e-ite SS corps that could bully the regular mil-tary.

That was where that money went to, as far as my sources are concerned.

DW: Wow.

BF: In any case, we were contacted by smugglers, d-ug smugglers;

DW: Could you just say who We is, for a minute?

THE W-ITE DRAGON SOCIETY MANY GROUPS COLLABORATING

BF: We is a group of us who are involved in the fight to overthrow this ca-al.

It includes members of the C-A, the Pen-agon, the [intelligence] agencies, and various [other groups], including Asian s-cret societies.

We use the name Wh-te Dragon. There is another group that calls themselves the Whi-e Hats.

We all have the same goal, which is to get this insane group of people out of power.

WHY F-LFORD?

DW: Some of the criticism I have seen from people on the Internet is, If this group is so vast and so powerful to fight this cab-l, why is Benjamin Fu-ford the only one talking about this?

BF: These people like their se-recy and I am a spokesperson.

When you go to the Wh-te House, there is only one voice they give to the public. They prefer to work behind the scenes.

You've got to realize we're dealing in a world where they use ass-ssination like most of us use tissue papers.

DW: Sure.

IT IS VERY DANGEROUS TO STAND AGAINST THE CAB-L

BF: I've had about six mu-der attempts myself. One of my colleagues, a CI-guy, was recently pois-ned with ricin by these guys.

Another one of our members in Switzerland has guards around his house, and they just shot someone last week near his house who was trying to k-ll him.

Before that, they found a Ma-ioso by the name of Vincenzo M-zzamaro who had a gun and a sophisticated lock-picking device, and was trying to get into his place.

Another one of us had a concrete bag miss him by a couple of inches last week.

DW: Wow.

BF: We're dealing with some very dangerous people. That's why there is a need for sec-ecy.

FUL-ORD IS BILINGUAL AND HIGH PROFILE IN ASIA THANKS TO FO-BES

DW: I've also speculated [the following reason why these Asian groups entrusted you with this responsibility.]

You are in Japan, and you're a gaijin a foreigner, a whi-e person. You have the background of being a distinguished editor for Fo-bes Magazine.

You are bilingual, you do speak fluent Japanese. There are several videos you have released now that show that. [Start at 2:16 in this video for the latest example.]

<http://www.youtube.com/embed/EbToLUYVvKs>

This might have been part of what gave you this platform to give these Asian se-ret societies a voice.

Would you say that is correct?

WHY WASN'T JAPAN USING ITS MONEY TO HEAL THE PLANET?

BF: What happened in my case was that I asked a very simple and obvious question when I was at For-es.

The Japanese people that includes both public and the private sector have about 8 trillion dollars worth of assets overseas.

DW: Eight trillion dollars?

BF: Yeah. That's in the public record. You can go to the finance ministry homepage and the numbers are there.

According to the UN development report, you need 400 billion to stop environmental destruction and 200 billion to end poverty.

So I'm saying, Hey, you guys, why don't you end poverty and stop environmental destruction?

DW: Okay, hold on, hold on.

BF: It's a no-brainer!

400 BILLION? THAT'S IT?

DW: 400 billion is all it takes to completely stop environmental destruction? How is that possible?

BF: That's an annual budget. This is the UN development report. You'd have to go through their experts and find out how they did those numbers.

DW: Okay. But that's public domain.

So the eight trillion is vastly more than what it would take to end poverty and stop environmental destruction.

BF: Yeah.

JAPANESE REVENUE DRAINED FROM RECONSTRUCTION DEBTS

[Wi-cock note: Elsewhere, Fulf-rd said he found that a significant percentage of Japanese revenue was being paid to the o-l ca-al thanks to exploitive reconstruction contracts with high interest rates that were signed after World -ar II.

These contracts were reinforced with bribery, blackmail, d-ath threats and assass-nations of Japanese gove-nment officials who didn't agree.]

90 PERCENT OF WORLD SAVINGS ABSORBED BY US MI-ITARY

BF: The other thing is that if you look at the statistics, you realize that 90 percent of the world's savings was being sucked out of the system by the US mil-tary-ind-strial com-lex.

DW: How do you prove that?

BF: I was a financial journalist for 25 years. This is all public-record stuff.

DW: Ninety percent of the US budget is going to the mil-tary.

BF: There's an easy way to check. Just look at the US external trade deficit and compare it to the US mi-itary budget. You'll find an amazing similarity over the years.

DW: (Laughs)

BF: That's for the simple reason that the mi-itary does not produce tradable goods. They were a parasitic entity on the world economy.

WHY NOT HEAL THE WORLD AND COLONIZE SPACE?

What I said was simply, Look. Why don't you just stop paying for this m-litary? I told this to the Asians and instead ask them to [end poverty and environmental destruction] and set them to exploring space?

It's the sort of thing that's just common sense.

DW: Okay, Ben, your audio just cut out on that last sentence. [Missing content was replaced in brackets.]

BF: I think that is common sense.

DW: Okay.

ASSAS-INATION ORDERS

BF: What happened was that an assassina-ion order came out for me.

The South Korean se-ret p-lice informed the Chinese that there was an order to have me ki-led.

You can check. My colleague Paul K-ebnikov, the Moscow bureau chief for Forb-s Magazine, was shot nine times outside of his apartment in Moscow.

DW: Right.
