Tunnels to at least 13 underground bases being sealed off. Posted by PC

At least 13 very powerful underground explosions rocked the U-ited States Midwest in the last 48 hours. They registered as small shallow earthquakes with the USGS. Many of the underground high explosive detonations registered as 2.6 magnitude earthquakes. The U.S. -ilitary is said to be sealing off the tunnels so that the G-obalists and the U.S. ghost g-vernment (Federal R-serve Bankers, F-MA, D-S, C-A) can't run and hide from what is predicted to occur within 48 hours of September 27, 2011. Officers in the U.S. mi-itary didn't seem to be aware of O-ama and the Gl-balists planned converging on Denver for a DEFCON 1 (n-clear w-r imminent) cocked pistol drill. An email was sent to the U.S. Air F-rce Office of Special Investigations on September 21, 2011 to alert them to planned false flag nuc-ear detonations on U.S. soil in the A-erican Midwest. The U.S. Air Fo-ce Office of Special Investigations were the ones who raided Cit-del Gun and Safe Store in Las Vegas on August 21, 2011 to recover stolen nucl-ar wa-head detonators. They were the ones who intercepted the transfer of improvised nu-lear wa-heads by the CI- in the tunnels that connected the Deep Underground Mili-ary Bases on August 23, 2011. The improvised nu-lear bo-bs (W54 style warhe-ds) were being transfered via those tunnels to Washington DC and New York City when they detonated during a firefight between U.S. mili-ary personnel and C-A/DHS/FEMA operatives.

It would appear that the U.S. mili-ary had a deadline to meet and has already damaged, destroyed or sealed at least 13 underground tunnels or bases. Perhaps their incentive was the fact that Ob-ma, his shadow gover-ment and the Glob-lists made plans to save their own hides and leave the rest of use to fend for ourselves. Perhaps they investigated and confirmed that another false flag nu-lear detonation was imminent and acted accordingly to prevent it.
