Whaaa! This should be a must see for everyone...is much truth herein.
..I hope USA follows Europe and releases the info it has hidden for so many years. Recently it said it would slowly release the information...the truth hidden for over 50 years.

I understand why, especially in the '50's and 60's this truth had to be suppressed.

I doubt if the C-ristian r-ligious peoples could have accepted this knowledge without most serious mental torment.

I mentioned this some time ago...I mention it again---Back in the '60's and '70's I drove from here to the Rio Grade Valley about every 4 to 5 weeks... always left home at 7 AM and arrived in McAllen at noon where had a luncheon appointment. Always drove Hiway 16, a 2 lane hiway thru the Texas brush country...small towns 35 to 45 miles apart...practically no houses between the small towns...remote they were.

One morning way out in the wilderness I saw a huge silver cylinder about 100 yards long...maybe 70 to 80 feet in diameter...flying a few hundred feet from me, rather close to the ground. I thought whoope, is a "flying saucer" a real UFO. Thought no more about it...had to keep eyes on the road, driving 70 or more miles an hour.

When I arrived in McAllen my agent was very angry at me! He was furious! I said what' the matter? He said we were supposed to have lunch, I waited and waited, changed our customer appointment. I said I don't understand, it's noon time. He said the h-ll it is...look at your watch. It was a little after 3 PM. He never believed what I told him and only not long ago did I ever mention my loss of 3 hours. I flat lost 3 hours of my life with no recollection of how or why...only reason I can think of is that silver cylinder cigar shaped thing flying along side the car I was driving. Enjoy.

Lee.

PS:::The last man who spoke...brown shirt, mauve colored tie...I strongly suspect he is a reptilian hybrid human. Take a good look at him...and his hands...when I first saw him...I thought whaaa! This is one of them... hybrid life forms from outer space. There's Greys and there's reptilians... he looka like a reptilian to me. What say you California Johnfw?

Enjoy. Lee.

(JW. Here is my answer to Lee.)

Yes you have experience missing time. I had nearly the same experience when I was on the road to Mt. Shasta. I wanted to look at Shasta Lake which is on the road to see how much water it had in it. I went though the area and finally came to my senses after going though it on the other side about 3 miles. You can find out what you did on the craft by having a professional hypotist take you back in time and reexperiencing it.

This 3 part video from New Paradigm is an objective and serious examination of the UFO phenomena. Edgar Mitchell, the 6th man to walk on the moon, explains some of what he knows, and may cause surprises for some. Anyone still sceptical of UFO and alien presence could gain considerable knowledge from this trilogy.

I thoroughly enjoyed it, and added considerably to my knowledge.

I hope you enjoy it too.

The Day Before Disclosure

<http://newparadigm.no/web/guest/free-screening>

"Are we standing at the threshold of the most shocking paradigm-shift ever? Is the greatest story in human history about to be revealed? This is one of the comprehensive documentaries ever produced on the on the UFO and ET presence, - and the s-crecy surrounding this issue. What do we know by now, and what do we know about why we should not know? The film is presenting the UFO-history and some of the best documented cases from both the European and the American continents. Eyewitnesses and many of today's most renowned UFO-researchers present their testimonials and views. The implications of Disclosure and the anticipated impact on society is discussed. The film also presents the alien abduction phenomenon, and issues surrounding it." Anyone living outside Nature's Laws is an outlaw.
