Subject: Chemtraills And H-ARP.  
Oct. 4, 2011.

This lady thinks that there is a connection between Chemtraills and HA-RP.

.....  
.....

Subject: Leuren M-ret: US Space shuttle covert mission was chemtraills in space for HAA-P - Seattle exopolitics | Examiner.com  
Date: Mon, 3 Oct 2011

Watch ExopoliticsTV interview with Leuren Mo-et on covert mission of U.S. space shuttle chemtraills in space  
Ms. More-'s chain of evidence is set out in the Oct. 2, 2011 ExopoliticsTV interview, which can be viewed at the URL below or embedded in the article above.

WATCH INTERVIEW

<http://www.youtube.com/watch?v=3DtH0vJR8nLKw>  
10th anniversary of HR2977 banning chemtraills in space  
Ms. -oret's interview comes on Oct. 2, 2011, the 10th anniversary of the introduction of  
<http://www.carnicom.com/hr2977.htm>  
HR 2977, the Space Preservation Act, in the U.S. House of R-presentatives by  
<http://kucinich.house.gov/>  
Rep. Dennis K-cinich  
(D-Ohio).

In her  
<http://www.youtube.com/watch?v=3DtH0vJR8nLKw>  
ExopoliticsTV interview, Ms. M-ret notes that HR 2977 banned the spraying of chemtraills in space, and the tandem use of HA-RP, of which chemtraills are a w-aopns-system component, in space.  
Ms. Mo-et notes that HR 2977 was drafted by this reporter Alfred La-bremont Webre and submitted to Rep. Dennis Ku-inich for introduction as a bill into the U.S. C-ngress in the summer of 2001, well before the HAA-P chemptraills (space-based and atmosphere-based) false flag attack on the World Tr-de Center towers of September 11, 2011).

In the  
<http://www.carnicom.com/hr2977.htm>  
HR2977 bill of October 2, 2001, the U.S. Co-gress banned the following space-base wea-ons: Exotic weapons systems such as--  
(i) electronic, psychotronic, or information weapo-s;  
(ii) chemtraills;  
(iii) high altitude ultra low frequency weapons systems;  
(iv) plasma, electromagnetic, sonic, or ultrasonic wea-ons;  
(v) laser weap-ns systems;  
(vi) strategic, theater, tactical, or extraterrestrial weapons; and  
(vii) chemical, biological, environmental, climate, or tectonic weapons.

In her  
<http://www.youtube.com/watch?vth0vJR8nLKw>  
Exopolitics TV interview, Ms. Moret notes that the Oct. 2, 2001 HR2977 bill was the first bill in the U.S. Congress to ban the use of space-based chemtraills as a component of space-based weapons system and was widely praised when first introduced.

In her interview, Ms. Moret also states that, as an Environmental Commissioner of Berkeley, CA, Rep. Dennis Ku-inich spoke with her in private conversations in Berkeley, CA about his key U.S. House of Re-resentatives committee positions in the U.S. Con-ress overseeing space and aeronautical issues that included congressional oversight over chemtraills in space.

Kuci-ich deletes ban on chemtraills in space In her interview, Ms. M-ret notes that, rather than supporting the ban on chemtraills in space as his committee position required, Rep. Kuci-ich mysteriously pulled the Oct. 2, 2001 HR2977 bill as an active bill, and gutted the bill so that it did not mention or ban chemtraills in space and in place of HR 2977, on

January 23, 2001, Kucin-ch introduced HR3616 a bill that not mention or ban chemtraills in space and eliminated any mention of the actual space-based wea-ons that HR2977 contained.

At the time, one supporter of HR2977

<http://www.rense.com/general19/kucinich.htm>

stated, Re-writing bills is a common enough practice as a bill goes through the legislative process. However, the differences between HR 2977 and HR 3616 are more than just a few tweaks here or there.

By its conspicuous appearance in 2977, the term 'chemtraills' received a form of credibility within the official gove-nment process never seen before...

producing the hope that one courageous Representative had finally had the fortitude to take the issue of chemtraills to a level of Congr-ssional scrutiny long overdue.

In Rep. Kuc-nich's revised new (some would say 'emasculated') Bill, HR 3616, there is no longer any mention whatever of: chemtraills, particle beams electromagnetic radiation\* plasmas\* extremely low frequency (ELF) or ultra low frequency (ULF) energy radiation\* or mind-control technologies as we-pons systems covered in the measure.

Impact of Kucin-ch's mysterious withdrawal of HR 2977 banning chemtraills in space

In her

<http://www.youtube.com/watch?vth0vJR8nLKw>

ExopoliticsTV interview, Ms. More- details the impacts that Rep.

Ku-inich's mysterious 2001 withdrawal of the HR 2977 ban on space-based chemtraills, and on space-based (satellite-based) particle beam weapo-s, electromagnetic radiation w-apons, plasma weapons, ELF and ULF mind control wea-ons, and directed-energy frequency wea-ons such as HAARP. HAARP is defined as a space-based we-pon of mass de-struction as two of its key components are in space space-based chemtraills and the heated ionospheric wea-ons system component.

HR2977 was introduced on October 2, 2001 just after the false flag operation of 9/11 to growing public support. At the time of its introduction by Rep. Ku-inich over 280 peace-oriented NGOs supported HR2977 and were lobbying for its passage.

The false flag operation of September 11, 2011 had just occurred, and the HAAR- and chemtraills (space-based and atmosphere-based) weapons system were key to the 9/11 molecular dissociation of the World Trade Center towers.

With proper leadership, HR2977 could have been used as a tool to prosecute the 9/11 perpetrators, operators of the -AARP and chemtraills (space-based and atmosphere-based) weapo-s system.

Moreover, the passage of HR2977 or even the publicity concerning its banning of space-based w-apons systems such as H-ARP and space-based chemtraills could have legitimized the opposition to the catastrophic environmental w-rfare events following 9/11.

The carnage and damage of the Katrina Hurricane of 2005; the 2008 Myanmar cyclone (150,000 dead); the 2008 China earthquake (80,000 dead); the 2010 Haiti earthquake (200, 000 dead); and the March 11, 2011 Fukushima false flag tectonic and global radiation attack could have been avoided.

As noted, the results of the Fukushima event, triggered by the HA-RP and chemtraills (space-based and atmosphere-based) weap-ns system includes a projected 100,000 d-aths in USA and Canada by the end of 2011, the radiation contamination of Japan, USA and Canada, and long-term radiation depopulation of the human r-ce.

Rep. Kuci-ich decimates HR2977: Cui bono?

<http://www.youtube.com/watch?vth0vJR8nLKw>

ExopoliticsTV interview, Ms. Mo-et notes that Rep. Kuci-ich was fully aware of the effects of chemtraills and -AARP, as he was a ranking U.S. Representative on U.S. cong-essional committees regulating space-based we-pons such as HAA-P and space-based chemtraills.

Ms. Mor-t notes that Cong-essman Ku-inich mysteriously withdrew the HR2977 ban on space-based chemtraills right after the 9/11 event, where space-based we-pons such as HAA-P and space-based chemtraills played a key role in the false flag operation.

Ms. More- also notes that, with the withdrawal of HR2977 (despite growing support) controllers of the HAA-P and chemtraills (space-based and atmosphere-based) weapons system were given carte blanche to carry out the environmental -ar attacks ranging from 2005 Hurricane Katrina to the 2011 Fukushima false flag tectonic and radiation event, whose casualties so far have probably exceeded 500,000 de-d worldwide and climbing.

"For whose benefit," Ms. Mor-t asks, "did Rep Kuc-nich withdraw HR2977 and with what consequences?"

U.S. space shuttle space-based chemtrails

In her <http://www.youtube.com/watch?v=H0vJR8nLKw>

ExopoliticsTV interview, independent scientist Leuren M-ret reveals

<http://www.nrl.navy.mil/pao/pressRelease.php?Y2006&R17-06r>

U.S. Navy documents showing that HAA-P and space-based chemtrails experiments were utilized on the U.S. space shuttle starting in 1985.

The U.S. space shuttle's hidden agenda, she concludes, was chemtrails in space.

Ms. M-ret states, U.S. Navy documents reveal the following, Dr. Benhardt has conducted over eight experiments from 1985 to the present, using the Space Shuttle Orbital Maneuver Subsystem (OMS) engines, to modify the ionosphere with high-speed exhaust injections into the upper atmosphere. The results of these dedicated engine burns have been recorded using the VHF and UHF radars at Arecibo, Puerto Rico; Kwajalein, Marshall Islands; Millstone Hill, Massachusetts; and Jicamarca, Peru.

Ms. M-ret continues, The U.S. Navy documents continue, Dr. Benhardt has pioneered the use of chemical releases to study the ionosphere. His ionospheric modification experiments have been monitored with Incoherent Scatter Radar (ISR) systems around the world and with in situ plasma probes provided by NRL's Plasma Physics Division. The 1992 NRL Ionospheric Focused Heating (IFH) experiment,-----ined chemical release and high-power radio wave technology to produce the highest level of plasma turbulence ever measured with the Arecibo ISR.

Dr. Paul A Bern-ard, HA-RP, chemtrails and the U.S. space shuttle.

JW I still believe that there are other reasons for Chemtrial such as putting germs in them to make us sick and apothetic.

Part 1.
