Update by Sheldon N-dle for the Spiritual Hierarchy and the Galactic Federation

13 Caban, 10 Tzotz, 8 Manik

Dratzo!

We return! Your world is moving swiftly to the magic point where those in power discover that truly "The center will not hold" (to quote one of your poets), and their relentless defiance of the Earth allies has reached the much-awaited breaking-point. Their next move has to involve how best to negotiate a surrender. The past few weeks have seen the dark c-bal's associates pulling money seemingly out of thin air. Now, these unbelievable theatrics are about to crash as there is practically no wriggle-room left to them. Those regimes that either openly or surreptitiously supported them are dwindling, and several of their key personnel are s-cretly angling for a way to give up, and have been shown how to do this. Our goal is to have those individuals in hand who constitute the central g-verning board of this global organization that we call the dark ca-al. Getting them into custody, which enables the setting-up of new gov-rnance, is also a main goal of our Earth allies. Happily, this is now ready to become a blessed reality! Only a few steps remain before we can at last put this whole matter to bed.

As our forces close in on the dark cab-l, this slippery organization is, as ever, cooking up some last-minute mischief, the purpose of which is to foment a serious international incident intended to cause still further delay to the inevitable. The dark ones know deep down that to squirm their way out of their present dilemma is no longer an option, and that all they can do now is try to keep their massive ventures from going belly up. Brinkmanship is their final desperate ploy and this realpolitik is their forte. We monitor them as they manufacture all sorts of incidents and issues to cause a rumpus in the Middle East, Europe, and Latin America. All this posturing is ultimately doomed; nevertheless, they are going all out to create some means to defer the unavoidable outcome. Despite all its twists and turns, the moment the dark dreads is upon it. The 'games' are winding down, and it is time for the dark to give up and let our Earth allies assume the reins of authority.

This takedown of the dark caba- is at present our primary objective. The dark and its many associates have for far too long stood in the way of both the distribution of the prosperity funds and the transfers of gov-rnance. Our liaison teams, together with selected personnel from Agartha, are leading the charge to get this done, and done quickly. We have damaged beyond repair most of their important North American underground bases and the adjacent interconnected tunnel system. We have sabotaged a series of plans intended to ravage North America and thus prevent your legal accession to power. The next step is not only to isolate them and deny them the use of their exotic weapons, but to arrest enough of their subordinates to leave no doubt in their minds that the end has come. All now hinges on their surrender, as do the deliveries that lead to the rise of new govern-nce. Announcements will then signal a new beginning for your world!

This new reality permits disclosure and your return to full consciousness. You are in the midst of an unstoppable s-iritual r-volution that is spawning new gov-rnance, a new financial system, and a limitless prosperity. It is essentially ending your millennia-old global xenophobia and permitting disclosure. The ability of the powers that be to dictate how your world works has effectively been busted. A new way of doing things will be implemented and will reflect your growing determination for unity and a free and open exchange of new

ideas and concepts. These will be the first exploratory steps toward the wonders and sovereignty of galactic society. Your mentors will guide you in consonance with the advice of your heavenly sp-ritual guardians. You are to return to a state of being that you were forced to abandon in ancient Atlantean times by means of a rebirth into full consciousness. It is time to welcome you home to who you really are, and to the realm where you truly belong. Balik kasi da! (Sirian for Welcome home, Traveler!)

Blessings, we are your Ascended M-sters! Presently, your world is preparing for a truly grand event! Human society has, for millennia, been under the merciless hand either of the Anunnaki or their earth minions. Humanity has never tasted the personnel sovereignty and inner freedom that was enjoyed in Atlantis. This is now about to change! Incidents have happened in many parts of the globe that are setting the stage for a huge leap for humanity. Shortly, events will occur which will loosen, at long last, the millennia-long dominance of the dark. These developments are the direct result of special agreements first signed in Europe last spring and subsequently agreed to by over 180 nations. Then there was a flurry of bold maneuvers this summer which terminated the existence of many dark-run underground facilities and their access tunnels. These actions led to the arrest of tens of thousands of dark subordinates.

The arrests are now moving quickly up the chain of command toward those who have long led the dark -abal on a tight rein. Their coming detainment will launch a new era for humanity, in which the legions of Light lead you and your world back to full consciousness. The primary mission of the d-vine orders of the Ascended Ma-ters and their human associates has been to lead the way for a mass Ascension. In other words, a triumphal return for all of you, to what you truly are meant to be: physical A-gels, carrying out the Creator's di-ine plan in physicality. We have watched and worked diligently to achieve our s-cred purpose, and the time for this to happen has been reached. In a series of huge leaps, devised by He-ven and assisted by our hea-enly and space families, you are to become once again the magnificent Beings that you really are!

Hea-en has planned this glorious metamorphosis for quite some time. Your plunge into the dark realm was meant to happen, but with a specific goal in mind which has now been reached. During your murky odyssey you have learned much, and this wisdom is to be used to complete the conversion of this galaxy from the dark to the Light! In many ways, our work together has just begun. Eons ago, we the Ascended mas-ers began a journey to lead humanity back to the Light and to a mission of Love for this entire galaxy. At first, progress was slow. The obstacles were numerous and the way to the Light seemed near impossible. Nevertheless, Love and its corollary, div-ne grace, have empowered us to achieve a truly magnificent triumph! What remains now is simply to enable first contact and carry out the final necessary steps before full consciousness becomes our common reality.

Today, we explained more of what is happening on your world. You are now very close to seeing a new reality manifest. This means not only new gov-rnance, new financial, monetary, and economic systems, but also a bountiful prosperity for all. And this is just for starters! Know, dear Ones, that the countless Supply and never-ending Prosperity of Hea-en are indeed Yours! So Be It! Selamat Gajun! Selamat Ja! (Sirian for Be One! and Be in Joy!)
