Subject: Recent East Coast Earthquake Created by HAARP Technology

CAC Hotline Message, Will B-rlinghof Interpreter, August 24, 2011,  
Joan M-lls, questioner and energizer.

Recent East Coast Earthquake Created by HAARP Technology  
Chinese Warn U-ited States E-ite to Get Their Act Together and Pay Their  
Debts

Questioner: This is a question from Lloyd. He writes, "A 5.8 earthquake  
occurred in Virginia on August 23, 2011.

Question: was this quake strictly Mother Earth releasing tension or were  
there other factors at work here?" Your comments please?

Cosmic Awareness: This Awareness immediately says this was not a  
natural event, a natural release by Mother Earth. It was rather the use  
of HAARP technology to a-tack the Un-ted States of America. It is  
seen that this was HAARP technology in the hands of the Chinese  
and it was a response to American p-liticians to warn them and to  
indicate to them that China is not pleased with the antics of the  
A-erican p-litical leaders, especially concerning the paying of their  
debts. This warning shot across the bow, if you will, and was  
delivered by the Chinese HAARP technology in conjunction with working  
the energies on the New Madrid fault line.

While the New Madrid fault lines were not triggered, what is seen by  
this Awareness is that they were first targeted. This created a tension  
along and throughout the template of the landmass extending  
eastward from the New Madrid fault line. It was made taut as a drum  
skin is tightened and then a shot to the center of this template was  
delivered, and just like a drum skin hit with the drumstick, it then  
created a vibration that traveled all along the template to Washington  
DC where the po-iticians and the powerbrokers are hard at work to  
achieve their nefarious plans.

Of course other areas along that whole taut template also  
experienced the vibrational shaking of the tectonic template that  
was hit by the HAARP blast. It is also seen that the HAARP blast  
at the New Madrid fault line was lower in its intensity than what  
hit in the middle near Richmond, Virginia in the state of Virginia,  
and thus is the reason why this vibration occurred in an area that  
would not traditionally be prone to earthquake activity.

In other words, in that stable bedrock of the plateau of the  
landmass beyond the fault line itself is a degree of relative stability  
that does not often see such results, such earthquake results. It  
could have been greater but it was not the intent of the Chinese  
to cause great damage.

It was, as this Awareness says, a warning shot across the bow to  
tell the poli-icians and the powerbrokers in W-shington DC to get  
their act together, to remember that the Chinese now have this  
technology as well, and that they have researched and figured out  
ways to reach their enemy even in their alleged places of safety,  
such as Washington DC, and that they are not as safe as they  
think they are. Largely speaking, the threat was noted in  
Wa-hington but it is not seen that they will take this threat  
seriously, for it is still believed by those powerbrokers, those  
polit-cians in the pocket of the El-te c-bal of power, that they  
can do what they wish.

They are not concerned with the d-ath of thousands of others  
should the Chinese escalate their efforts and create an even  
stronger event, for they simply think that they can move away from

the danger, that they will receive sufficient warning when it is time, and that they can avoid the repercussion of their actions on behalf of the Eli-e ca-al. This is seen as what is behind the Chinese action of reciprocity. the word that this awareness. this Awareness is not clear here but It is trying to say that the actions of the poli-icians and the powerbrokers initiated a response by the Chinese, a warning and this is what this event was about.

Questioner: I see. Was the new Madrid fault line compromised? Bottom line, was that compromised in any way by this action?

Cosmic Awareness: Any time that a fault line is interfered with or acted upon it creates a new level of tension in that fault line. Therefore, it is right to say that to a degree it was compromised, and it was made more susceptible to deeper actions of Mother Earth as she moves around, as she shakes, rattles and rolls. Fortunately, this Awareness can say that while there is a compromising effect through those actions of the Chinese as they shot the HAARP beam into the New Madrid fault line, it was not strong enough that it will cause an imminent release of the fault line. But if more actions of this nature are directed towards the New Madrid fault line, it could indeed trigger a much deeper much more powerful earthquake event.

Questioner: I see. Going back to the politic-ans in Washington, are they aware that they have been given a warning to smarten up?

Cosmic Awareness: Indeed, at least those in the inner sanctum are aware. Those who are junior members of C-ngress or the S-nate are often kept in the dark of such matters. They are there because they are being benefited by their presence in Wash-ngton, benefited in the sense that many of the politici-ns are not there to serve the people and they benefit from serving these powerbrokers, these poli-ical masters, the Eli-e Cab-l. Many may not exactly know who these individuals are but they have a good idea, and therefore even if they are not 100% aware what this was about they do know this was a message of some sort and even the most junior and the most nave will be clued in soon as to what happened and why.

Hurricane Irene Also Part of the Secret HAARP Weather W-r

Questioner: I see. Just one more question: Hurricane Irene is quite active right now on the East Coast. Is this involved with all of this, this previous earthquake?

Cosmic Awareness: It is seen that this is being manipulated as well through HAARP technology, through the heating up of the Gulf of Mexico and the Eastern seaboard, and the actual energies of HAARP being used to create stronger events that can be directed at specific regions and even specific targets. It is seen that there will be a targeting of certain cities along the eastern seaboard, especially along the Florida-Louisiana coastline, even towards Texas again, for the purpose of showing the might of those who control this HAARP technology. It is also seen that there are to be major storm events all along the eastern seaboard. This has already begun, and there have already been mass storms along the eastern seaboard, even into the states beyond the seaboard: Pennsylvania and Ohio as well as other states, such as Virginia and Carolina.

Expect more of this, and expect a strong hurricane season this year as it is gearing up, as the Powers That Be are becoming more open in their opposition to their enemies. It must be remembered this too is part of the unfolding events, and rather than energizing this too much, to be aware of these events. Even if one is in the regions where such events are unfolding, stay strong and positive, and do not go into the angst or fear of the matter. See yourself, your family, your home, and even your local region safe under a dome of light, a bubble of spir-tual energy, and see it as a safe and centered place where all will be well. This will do much to prevent these unleasings of nature against the populace from causing personal harm or having personal ramifications.

Questioner: I see. Sort of like visualizing a white light bubble surrounding everything? Is that what you're referring to?

Cosmic Awareness: Indeed this is so. To start the visualization with oneself first, to see the bubble forming around them, then to see beloved family members, pets, and others who are close to the entity being included in this bubble, expanding the bubble then to one's house and lands, and one's specific region. It is to be remembered that this is more effective in some ways than to simply be afraid of

what is happening, and to be fearful that you are going to be hit by such events. Also, this Awareness must say that such a bubble of protection is the strongest in a small concentrated bubble than trying to protect the whole city, the whole state, or the whole country.

For these events will be unleashed at this time, it is part of the unfolding that is occurring. Stay centralized to oneself and one's immediate family and location. This would be the strongest level of protection that one can achieve. But if one feels they need to extend, then to send out energies through the High Self to the Di-ine Sp-rit and ask for the Div-ne Spir-t's cooperation and assistance at this time, allowing of course the Divin- destiny of each and every individual who is in the regions being affected to occur. It is all part of a bigger plan. Is this clear?

Questioner: Yes it is and I thank you, I appreciate the information. (The Law of Gratitude is given) cooperation and assistance at this time, allowing of course the D-vine destiny of each and every individual who is in the regions being affected to occur. It is all part of a bigger plan. Is this clear?
