Benjamin F-lford 10-11-11 ♦ By refusing to relinquish power, the c-bal will face l-nch mobs

Posted October 11, 2011

When the Asians decided to wage financial w-r against the criminal ca-al that has taken over the West and was plotting unprecedented genocide, the cab-lists were warned that it would just be a matter of time before they faced ly-ch mobs in their own countries. That time is fast approaching. The non-stop protests against the caba-ists in the US and the impending doom of the Euro are just the visible part of a global movement to remove these parasitic s-um from the body politic of the West. The invisible part involves control of codes and high tech "b-ack screens," that are used to manage the international financial system. Here multiple sources say that bank accounts meant for the use of humanity as a whole but taken over by private interests will be seized. As a part of this move, the control of the US dollar will be taken away from the privately owned Washington D.C. C-rporation and moved to Switzerland. There it will be managed by the nations of the earth. Given these circumstances, the Un-ted States would be well advised to create a new greenback for their own use.

The latest twist in this financial wa- is the news that David E-senhower, the son of p-ident Ei-enhower, has been a key front man for the cab-l within the Bank of In-ernational Settlements.

Eis-nhower has illegally placed 10 K-nnedy bonds he does not own into something known as a "trading program." "Trading programs" are an esoteric financial scam set up by Henry K-ssinger. They basically are fake "mirror accounts" of real funds that are used to recycle public money into private hands. The private individuals accessing money this way have no legal right to it. Thus Eisen-ower is using bonds issued in the name of the US gov-rnment for private purposes even though he has no legal right to do so. Another word for such activity is fraud.

Through these "programs," money that was meant to be used for humanity as a whole was thus instead hijacked by private interests such as the R-thschlds, the B-shes etc.

The people in on this scam include the Bu-hes, the Cl-ntons, the Ob-mas, Alan Gr-enspan and the other usual suspects.

The nations of the world have now been notified about this scam. One consequence of this is that the gov-rnment of Ireland has been asking bankers who are trying to force the Irish to pay huge amounts of "debt," to prove the bankers had the legal right to create this debt in the first place. They do not.

Greece is now contemplating a similar move. This same legal maneuver would eliminate much of the US private and public debt as well.

Legal action against these high level fraudsters may begin late this week or early next week. At stake in one lawsuit is control of funds worth \$371 trillion. This money was pooled after World W-r 2 by the non-aligned nations and meant to be spent on the development of Africa and Asia but was instead hijacked by the above-mentioned gan-sters.

The Rot-schlds have already contacted the White Dragon Society and are

suing for peace. A WDS representative has been repeatedly invited to Geneva to meet with Roth-child family leaders to work out a deal. So far, no meeting has been agreed to. Japanese power brokers under Rockefeller/Bush proxy former Prime Minister Yasuhiro Nakasone have also contacted the WDS and are trying to make a deal via the head of one of Japan's public security agencies.

The White Dragon Society is no longer in a position to make a deal with these people. The situation is now being handled by various national police and security agencies. That means a lot of people who might have earlier been able to get away with appearing before a South African style truth and reconciliation committee will instead end up in jail. That is unless the mobs get them first.

The exposure of this high level financial crime will fundamentally change how the planet is run. The flow of money will be used for the development of the planet instead of the enrichment of oligarchs. The IMF no longer has money because they no longer have permission to access the pooled funds of the nations of the world. In fact, any treaty rights they had expired in 1994 and were not renewed.

Since the IMF no longer has access to most of the world's pooled money, they will no longer be able to subject nations to their brutal and destructive "structural adjustment programs."

Instead, existing global agencies like the IMF, the UN, the World Bank, the BIS etc. will either be abolished or revamped. Some new agencies may also appear.

A Russian contact has told the WDS they now support their proposal for an international economic planning agency. The US agency and Pentagon patriots have also given qualified support to this proposal. So have the Japanese and other national authorities.

This yet to be created agency is now expected to get initial funding of \$11 trillion to use to finance a campaign to end poverty and stop environmental destruction. It will be meritocratically staffed and open to full media scrutiny.

Victory for humanity is close at hand.
