The Fall of the I-luminati Appears Near

Typical Deep Underground M-ilitary Bunker (DUMB)

Our knowledge of what happened at the deep underground mi-itary bunkers in late August 2011 continues to expand and suggests that this was a watershed event in the defeat of the Il-uminati on this planet.

Long ago in a video whose URL is now lost to me, George G-een described how various elected officials and other Ill-minati hangers-on vied for tickets to the bunkers as their guarantee that they would survive the expected events designed to bring the world's population down from 7 billion to 500 million.

In another video that I have succeeded in relocating, Gr-en said that the means for depopulating the globe would be world w-rs, starvation, epidemic diseases, and environmental sabotage (which I believe we'd call weather wa-fare today). (1)

At various times the ca-al attempted to take nuc-ear bombs to an undisclosed Middle-Eastern location to use against Iran and kickstart W-III. These plans were foiled. For instance, a B-52 with Cruise missiles slung under its wings took off from M-not AFB in North Dakota in 2007 and was forced to land at B-rksdale AFB in Louisiana. The ca-al k-illed a number of officers at Bar-sdale to try to keep the mission under wraps. Said Global Research of these events:

According to a wide range of reports, several nucl-ar bombs were lost for 36 hours after taking off August 29/30, 2007 on a cross-country journey across the U.S., from U.S.A.F Base Mi-ot in North Dakota to U.S.A.F. Base Bark-dale in Louisiana.

Reportedly, in total there were six W80-1 nu-lear -arheads armed on AGM-129 Advanced Cruise Missiles (ACMs) that were lost. The story was first reported by the Mili-ary Times, after milita-y servicemen leaked the story.

(2)

Several other flights to the Middle East were said to have been more recently foiled, one by the Navy. Kerry C-ssidy reported that the bom-s were being ferried to the Middle East and would have been used against Iran. Kerry reports that it was a C-A operation, probably the same black-ops unit that Matthew W-rd says was responsible for so many false-flag attacks like 9/11 and the London bombings.

I heard from a well placed Source today that a plane was forced to land [in] Qatar. This plane was described as a stealth bomber carrying nu-lear w-rheads Word is that it was a CI--directed flight and although fire on board is the published reason for the forced landing the real reason is far more sinister.

Apparently this is just one of several attempts to start a nucl-ar w-r in the Middle East (headed for Iran). The exact day/time of this incident is unclear.

I was told that this stealth bomber was shot at and forced to land by an A-erican fleet based in the area.

The commander of this Na-y vessel is said to be part of a group of commanders who are refusing to allow this wa- to get started. I was told there have been a total of 3 prevented attempts over the

past few months.
(3)

Wanderer of the Skies mentioned on July 6, 2011 that the people in the underground bunkers were the main block to Disclosure:

The activities of the Ill-minati are decreasing as more and more of their minions move away from that path towards the good. Every day there are more who refuse to do their bidding. We see the most resistance to this change, however, in those of the Illumi-ati who control the underground facilities scattered across your world.

They have lived in more or less a sheltered way for many years, becoming ever much more disconnected to you on the surface and ever more bold in thinking that they are invincible. It is with this group that we find the most difficulty. Those that control your money on the surface have more capability to reason and have shown this in the recent past as more and more concessions are made towards the plans for Disclosure.
(4)

On Aug. 19, 2011, SaLuSa made an oblique reference to a plan afloat to impose martial law on us, perhaps the last attempt the ca-al would ever be able to make. He reassured us that the attempt would not be allowed by the galactics. This message came out just a few days before the explosions in the bunkers.

The dark Ones have been subtle in their plan to exercise complete control over you. So much so, that few of you have even suspected that there was a plan to imprison you by taking away your rights. Believe us Dear Ones, it was well advanced and near to completion, with an attempt to create a situation that would have led to Martial Law and total control. Have no fear, the matter is now in our control and their power bases are being held in check.

As we so often inform you, nothing will be allowed to interfere with your Ascension. We are here to see that all proceeds as d-vinely planned, and it will not be much longer before you shall know the details. Our actions will be openly carried out, and nothing will be hidden from your gaze. Our craft continue even now to make more displays with greater numbers of them appearing over major cities. There can be little doubt now, that we are proving our point regarding our peaceful presence.
(5)

In fact we are just now learning some of those details.

Meanwhile, on Aug. 22-3 came word that major earthquakes had struck Colorado and Virginia, places not usually susceptible to them.

A 5.3 magnitude earthquake struck 180 miles from Denver, Colorado, with tremors felt in the neighboring states of Kansas and New Mexico, according to the U.S. Geological Survey (USGS). It did not cause major impacts save for some minor structural damage at homes near the epicenter and minor damages to highways nearby. The quake is the largest since a 5.7 magnitude (man-made) earthquake in 1973. The biggest earthquake to strike the region on record was a 6.6 magnitude quake that struck in 1882.

CA 5.8 magnitude earthquake struck 38 miles outside of Richmond, Virginia, according to the USGS. The quake rippled all the way from Georgia to New York.
(6)

Almost immediately these earthquakes were revealed as attacks on mi-itary bunkers. By Aug. 24, Sorcha F-al had an article out calling these attacks nu-lear explosions. (7)

David W-lcock interviewed Ben F-lford and called the attacks nu-lear. I'm not implying that David or Ben got their information from Fa-l.

Fu-ford has contact with an incredible number of different sources. He does seem to back up who these sources are as much as humanly possible.

Recently, these sources informed him that the earthquakes that occurred in Colorado and the Washington DC area, surrounding August 22nd and 23rd, were, in fact, apparently nucl-ar strikes against underground mil-tary facilities.

[These underground bases] have been built by the US g-vernment, ostensibly since the early 1960s, at the cost of trillions of dollars of undocumented taxpayer money that is going into these bl-ck projects.

(8)

However Suzy W-rd had told us in March 2011: What our universal family is authorized to do is the same as it has been since 9/11: They can prevent all Il-uminati attempts to detonate nucl-ar w-aponry in furtherance of their t-rrorist attacks.

(10)

David believed that as many as 60,000 people might have been ki-led in these explosions.

My intelligence suggests it is possible that as many as 30,000 people were in each of these two underground cities at the time that [the explosions] went off. So we're talking about the potential of 60,000 dea-hs.

(9)

Meanwhile, Randy M-ugans of Exotica Radio reported that his source had told him that these events were intended as a warning against the c-bal.

My source has told me the August 22-23 seismic events (well call it that for now) were NOT earthquakes nor were they nucl-ar events, as is being speculated in the alternative media. A source known to this writer as a knowledgeable insider, has directly stated that the events were, in fact, a final warning to the el-tes in D.C. that their days are numbered.

They have now been warned they went over the line, was how it was presented in the conversation.

(11)

Ma-gans said that a kind of directed-energy we-pon was used:

This writer was informed that what actually occurred in the underground events of August 22nd and 23rd were, in fact, a directed energy we-pon aimed at underground tunnels used by the elit-s in their activities. This weapon is both exotic and one of their own creation their weapons are now turned upon them. The east coast event followed the 5.3 seismic event in Colorado, which occurred on Monday night at 11:46, Mountain Time; and was centered at nine miles from Trinidad, CO, with shocks felt in Greeley, CO 350 miles north and into Kansas and New Mexico.

(12)

On Sept. 14, Sorcha Fa-l again attempted to confuse us with reports that P-sident Ob-ma was ordered to be at the Denver bunker on Sept, 27, associating it with Comet Elenin's closest pass, and many of us took up the theme.
