Subject: Let's Hear It From Ashtar. Part 2.

Here Ashtar talks about the DUMB bases.

.....
.....

In fact, it was this same being, who along with the rest of those of us in the Federation who first inspired & Overshadowed those who originally created the script for the movie V for Vendeta, and which also inspired the Anonymous organization, which is rapidly and anonymously growing in membership numbers now in the millions. This, in turn, also then helped inspire the entire Occupy Wallstreet movement, which has now transformed into the Occupy or rather Re-Occupy the Planet movement. We are definitely giving much support and guidance behind the scenes to this entire planetary movement as we gear up for much more open appearances of our craft and then very soon open mass landings upon Earth.

And this includes the major Waves of Evacuations of Cosmic R. & R. that are described in detail in this channel's book, of lifting up, over a period of several years or sooner, larger and larger groups of Earth's humanity who are Graduating off the Wheel of karma as Mother Earth completes her planetary Ascension into the Higher Dimensions. So these Evacuations as they are referred to, are not Emergency procedures, as they were referred to in the old Time Line, but in this New Time Line, merely Cosmic Rest & Relaxation for everyone experiencing personal Ascension, of their personal frequencies being in-tune to the Frequencies aboard our Merkabah Light Ships.

Now I would turn our attention to more Confirmation regarding the destruction of many of the D.U.M.B. or deep underground military bases of the cabal (as well as the last few negative renegade ET groups that were working with the power elite). Much has been revealed in recent weeks and days by a number of different sources regarding this major historical planetary event that occurred at the end of Aug., and which this channel also had immediately received telepathically from us about this fact, which had been falsely reported through corporate controlled mainstream media as merely a mundane earthquakes. It was, of course, later verified as not being either just a natural earthquake, nor even caused by a nuclear destruction, as was misinterpreted by one or more of the sources.

It is true, though, none-the-less, that as this channel had also picked up on, that there were one or more types of nuclear devices that were being stored (and was being planned to be used and was about to be transported to be used in an attempted false flag and to be blamed on middle eastern terrorists), as was other types of negative weapons systems, and many forms of psychotronic, global mind control technology that was being used against the masses & interphased with the outer earth HAARP system.

It is also true, as other very clear channels have received from each of their own specific space contacts, that a type of very advanced sonic energy beam was projected from our Federation ships into these underground bases, as we were finally given the order to do so, which effectively and Officially behind-the-scenes Ended the Reign of the powers that were once and for all. It is also true, that all those who were able to be recruited to the Light, we did beam up out of the bases, while others were, as was reported, sucked up out of the bases through powerful portals that suddenly appeared inside these locations some we will attempt to rehabilitate to the Light, while others because of how evil they had become, were Cosmically Recycled back through the GodHead to be as if they had never existed.

We are, in fact, quickly dismantling or de-activating all of the other many dozens of bases that were in the hands of the cabal and very soon, they will all be totally empty and ultimately will

be dissolved back into Mother Earth for her total healing. Every time before we have caused each of these bases to be totally emptied of all covert back up personnel, we powerfully warn, individually and collectively, every single person inside, that they must either repent with a desire to turn to the Light in which case they are immediately removed and can now become white ops working for us or as was described in Bible prophecy of the so-called Judgment Day that is now forcing the 1% of humanity, the power elite, that they all are right now starting to have to face all of their crimes against humanity.

We have always warned the causal each time before we take actions such as what we have done with these underground bases, and always attempt to powerfully Recruit any of those who have been forced to be part of the cabal, through blackmail and threats from their abal masters, so that these ones are discovering a way out that will allow them to balance out any negative karma that they may have accumulated while there.

I would also mention, as this channel had also recently received in his communication with me, and which I want to again verify to him and everyone else who will read this Channeling-Transmission, that this final taking out of these underground bases of the abal, was the last of Three Specific Events of Cosmic Confirmation that had been destined to occur for many millions of years, that had to occur, in fact, right before open mass planetary Divine Intervention would even be allowed to occur on Earth by our Divine Creator.

These three specific events were; One: that a new and powerful form of Cosmic Energy and Consciousness which even we Elohim had never experienced before in the Universe--would manifest and would sweep over the Earth, which would then result with the 2nd major event occurring, of a new Elohim Consciousness Technology manifesting or being created (which is like the analogy of when fire was first discovered on earth and then a second later, one suddenly jumps to the Industrial Revolution with that level of technology, with this being on the Elohim level, of course. But even for the Elohim, this is so incredible or unbelievable for us and then finally the Third or final Event would occur that these first two events would allow and/or cause we of the Higher Cosmic Forces of Light, to now be able to eliminate the last few renegade imbalanced forces and their bases, both here in the earth as well as those few bases on the back side of the moon and on Mars, (the greys and negative reptilians) to be all transmuted through the Godhead of Divine Creation to be as if they had never existed. And all three of these significant Events occurred over the last seven to eight months of Earth time.

And now only a small mopping up operation by the Federation is taking place to get rid of any last, little interference that would still attempt to stop all of the awesome and wonderful changes that are imminent for this planet, such as the new global economic system which is what is to now replace the old corrupt federal Reserve system, Disclosure and mass planetary Divine Intervention.

I would comment, too, regarding the upcoming dates of significance that many of our Volunteers are very aware of, both for spiritual and political reasons. As many are tuned into, the date of Oct. 28th, which is known as the Ending of the Ninth Wave of the Mayan Calendar, and the 11-11-11 date, which will greatly accelerate all people's of the Light and Excelerate this ongoing planetary process. Even the date of Nov. 5th also known as Guy Fawkes Day, which is almost equaldistance between these two dates, it, too, has significance in a vibrational way, to help enhance the excelleration of the entire planetary frequency shift that Mother Earth is going through. This will help usher in the changes that you all have been expecting and which will help to totally transform planet Earth by helping to speed up the process of exposing all of the agendas of the causal for all of the rest of the 99% of humanity. This, in turn, will help to force all Truth to be revealed, as the wounds of Mother Earth are given the chance to quickly heal in preparation for bringing in the Golden Age.

And finally, last but not least I wish to comment about

what this ch-nnel just read a couple days ago, which I want to help Officially Set the Record Straight REALLY STRAIGHT as verses what was stated in that article that this cha-nel read, which had the section that was titled with this same phrase: Setting the Record Straight.

I will let this chan-el share of this fact, that there is very little significant difference in the use of the many various words, phrases or titles, that have been used through the years since our early contacts in the 1950s and those terms that have been used by our cont-ctees & cha-nels in more recent years to refer to and identify us.

[Here, Ashtar is referring to an article that I read in the e-mail that I had received from Alfred W-ber, of the organization Exopo-itcs (Exopolitics.com). Mr. We-er always makes it very clear in his articles, of the interviews he has done with many different individuals, that the opinions expressed in the articles are solely those of the interviewees, and do not necessarily reflect the opinions of him or Exopolitics.com. In this particular article, (which is the 4th article about the Andromeda Council, and was sent out to everyone on Oct. 15th) he interviewed an individual named Tolec who claims to be representing the Andromeda Council, and for the most part I would agree with the majority of what he was sharing during this interview, until I got to the section of the article titled: Setting the Record Straight.
