Subject: Let's Hear It From Ashtar. Part 3 of 3.

This explains what is the Galactic Federation.

.....  
.....

It was here, in my opinion, that he made some very inaccurate statements about the Federation. This, I feel, is disinformation, or at least misinformation, and I telepathically felt Ashtar also wanted to clarify or correct the parts of the article that were inaccurate. Tolec makes a number of statements that according to him, the Galactic Federation is totally different than the Galactic Federation of Light; that they are supposedly two entirely different organizations, and attempted to make someone who is not very familiar with the Higher Realities, (unlike those of us, like myself, who have for many years been channeling & been in contact with the Federation), that what he was stating was totally true. And I sensed on some level, some kind of agenda was being played out, that this could cause a lot of confusion among those who are more recently awakening and just starting to learn how to channel and communicate with the Higher Forces. That this information that Tolec was stating at least to me and many other channels & contacts, who have had many communications with our Friends Upstairs have always known and have used both of these same words for the exact same group of Light Beings, that it does not matter, too much which exact phrasing that we use, that both of these titles or words, of the Galactic Federation or Federation of Light or just Federation all refer to the exact same Cosmic organization.

But for this person named Tolec to have made such a strong or dogmatic statement after having shared, for the most part, fairly accurate info., I felt that it was in some way, for whatever the reason, an attempt to put out disinformation. To, in fact, attempt to confuse others who are just becoming aware of these Higher realities and are sincerely attempting to Awaken and get hip to the real facts about the Federation. And of the fact that they are getting Ready to openly come down in mass all over the planet.

Tolec states: that he supposedly has the full weight of the Andromeda Council behind him, and he states, the Galactic Federation of Light, we know of them. They have been around for about 1,000 years. Yes, they are based in Sirius. They started small and still only have a very limited number of planets involved in their group. They are not a member of the Andromeda Council. We have nothing to do with them.

And, no, the Galactic Federation of Light is not the Galactic Federation. Absolutely not.

Further, I asked the Commander about any possible collaboration with members of the Galactic Federation of Light, in space, or here on planet Earth, and here is what he said:

no, no. We are not collaborating with the Galactic Federation of Light.

Nor are we collaborating with any star system or planet, part of, or affiliated with, the Galactic Federation of Light. No.

These obviously untrue and false statements could definitely confuse others who are not very aware of just exactly what the real facts are. The very clear channel named Tuella, who I knew from the 50s had spent a little time explaining the so-called hierarchical structure of the Federation in her books; two of them were titled, Ashtar, A Tribute and On Earth Assignment, in which she devoted a section in them to describe the various different names and divisions of this entire Universal organization, and there are various references to the exact same or a part of--the greater whole organization: Galactic Federation, Confederation of Planets, Federation, Intergalactic Confederation, United Galaxy Alliance, All Worlds Federation, Galactic Union, local

Planetary Confederation for Interplanetary Peace, Interdimensional Federation, Federation of Free Worlds, Galactic Confederation, Intergalactic Federation of Free Worlds, etc. In truth, the term Galactic Federation of Light or Federation of Light was a term of respect that many of us who are Volunteers in Earth embodiment as well as our Friends Upstairs started to use sometimes in more recent years, in referring to them, as a more modern way of reference, when it was obvious to us and to them that we were all referring to the same group of Light Beings that we of the Light were Chan-eling and Communciating with. And the very famous Con-actees from the 50s & early 60s,. Like George A-amski, George Van Tassel, Howard Menger, Oleo Angelucci and many other contact-es & channe-s of that early saucer era all understood this fact as well. And the terms of respect that they referred to these same benevolent human appearing Beings, were phrases such as Space Brothers, Space People, Boys Topside among others also referred to them as well, and this situation with Tolec would be like him attempting to state that there was a difference in the type of beings that these three terms referred to, but there is not, of course, any difference what so ever, because of simply using various different words or phrases to refer to them.

Also, as Tuella pointed out in her books, and as I have known and remembered prior to taking Earth embodiment, there are literally many thousands and millions of worlds, planets and systems that are key members of this greater organization which has been referred to by many different, but still somewhat similar titles not just a few or small or very limited number of planets involved in their group as Tolec attempts to make us believe. And also the number of years, of earth time, that the Federation has been a member of the Andromeda Council does not tally with the much longer period of time that I am aware of, since the Federation was first formed many millions of years before.]

I would also comment on last major important subject, which about some of the true facts, now in this New Time Line, regarding Niburu or Wormwood, and about the so-called comet known as Elenin. This celestial object is really a gigantic planetoid Federation mother ship, which was lately positioned near Earth to make sure that there will be no major affects from Wormwood's passage. Also, a couple of other equally huge Federation mother ships, which are invisible to those on the third dimension have also positioned themselves at other equal distance from the Earth to help it stay very balanced during this Ascension process.

Also in regards to the fear of the huge solar flares that are being given off by the sun these are only destructive to those of darkness, such as the 1% of humanity, the power e-ite. But for those of you who are of the Light (which is really about the entire 99% of humanity) these solar flairs actually enhance your genetic DNA changes in your bodies and help you excelerate the Ascension process into your new, higher vibrational bodies, and should be welcomed.

Also many so-called hyper-dimensional laws of the universe have now appeared to have totally changed. For example, when earth astronomers state that it takes Light a certain amount of years and centuries for the image of many astronomical events to finally reach Earth many centuries or decades after the event, well now almost within days and weeks and months, these same events can now be seen, and of course, the affects felt as well.

I will end this Chan-eling-transmission by saluting each and everyone of our Volunteers in Earth embodiment, of all of your many lifetimes of service to this planet, not only the original core group of the 144,000, who first took Earth embodiment, and those who have been i-carnating here for millions of years, but also all those who are now peacefully rising up now all over the planet to Re-Occupy Mother Earth for the Light.

We cannot thank you enough for your service, but just to say that in a very short time, we will be coming down quite openly to hover and appear over the huge crowds that will continue to grow in number. We will also be eventually openly landing and inviting many more to be taken off the planet for the long

overdue Cosmic R. & R. We have continued to watch over you and to guide you to this moment, and know that all your dreams and visions that so many of you have seen are barely the tip of the iceberg at how wonderful and gloriously beautiful it will be for all of you of the Light, as the long awaited Cosmic Family Reunion does indeed take place at long last! This has been L-rd/Commander Ashtar of the Ashtar Command, signing out. B-essings to you all! Much Love and Light to each and every one of you!! Adonai Vassu Berogus!!!
