Update by Sheldan N-dle for the S-iritual H-erarchy and the Galactic Federation

Dratzo! We return! The moratorium imposed by the Earth allies on their various objectives is ready to be lifted. It has been a difficult task to locate and take into custody all those individuals involved in the dark's last delaying actions. In the same vein, those who had been entrusted with numerous important posts turned out to be moles inserted long ago by the dark elites for just such an eventuality as this. Several recent raids on some of our Earth allies' lesser facilities uncovered a huge number of people who needed to be added to our ever-lengthening list of arrestees. The location where these individuals are being held is rapidly turning into a small city!

Our intention is to move these people to special aboveground facilities once the dark c-bal's g-vernments have resigned and the new gove-nance is in place. At that time, we will add those persons in gover-ment who were part of the dark's illegal shenanigans, and then announce dates for the special trials. These trials will be held in civilian common-law courts, and will address the severe violations of constitutional and common-law principles.

These trails will be pursued on an international basis. Together, our Earth allies and our Agarthan cousins have already arrested tens of thousands of individuals. These persons and their higher-placed colleagues will be tried within regions, and it will be the responsibility of each region to conduct their own hearings and to sentence these individuals if and when they are convicted of crimes.

We recently set up purpose-built holographic environments to house those convicted until such time as the migrations to the metamorphosis Light chambers commence. Your limited-consciousness reality produced essentially two categories of people: the haves and the have-nots. The disparity between these groups created a wide variety of karmic patterning and bonds between many of you, and the key to releasing all this is simply Love and forgiveness. Generations of lives were played out in a hugely inventive and complex epic, written by master playwrights: you! But it is time now to end these dramas.

Ahead of you lies the shift into full consciousness. In this mode of being, you can easily recall each second of any life you choose to relive. In so doing, you can see how you entwined each other in various dramas, lasting years, decades, or even lifetimes. The purpose of all this was to go through experiences that would build up your store of wisdom, like choosing to learn certain 'lessons' either collectively or individually.

Now you are to discover the reasons behind these experiences. Use this knowledge, as we do, to broaden your perspective of what makes a person 'human.' You can explore the full gamut of 'the human experience' which we have all, at one time or another, lived through. Here you will find both sadness and humor, allowing your dearly won wisdom to come into its own as you examine other planetary cultures that are in similar states of limited consciousness. Our exo-sociologists deeply value their time on your world, and you too, by virtue of your extensive experience, will become most wise and sought-after S-uls.

The new p-litical and economic system forged by our Earth allies and our Agarthan cousins is very close to manifesting. The last se-ret-go-ernment underground bases are closed, and we evacuated many more thousands of dark cab-l underlings from them. Our sights now turn to the major conspirators. Here we expect to be able to force the resignations of the dark's i-legal regimes and so this operation is ready to begin in earnest.

Our Earth allies, under the supervision and divine direction of your Ascended m-sters, possess a legal standing backed by allied m-litary divisions that use their moral and legal authority to compel the stand

down of the military forces of several nations pledged to the services of the dark cabal. Happily, these forces are inclining increasingly to the Light, and this changing-sides is reaching a point where it becomes possible to leverage the remaining dark governments from office. Once this situation is fully accepted by the dark, deliveries, followed by new governance and announcements, become possible.

Blessings! We are your Ascended Masters! Your planet is in the final stages of moving herself into full consciousness. Her Spiritual Hierarchy has delayed the last few moves that herald her surface makeover. However, feeling deeply Gaia's desire to raise her consciousness, we Ascended Masters have accelerated the procedures contributing to the transformation of humanity, including the basic operating protocols of your financial and governmental structures.

What needs to take place now is a wholesale change of perception in your social philosophies: in essence, this involves moving from the strictly material toward a more spiritual worldview. What is needed is a global society based on mutual respect and the honoring of all. The separations and hatreds that have long characterized Earth's societies are no longer appropriate; it is time to acknowledge your 'oneness' with each other and create societal structures rooted in these beliefs.

These new structures are to manifest when the changes we have been discussing become reality. Our associates, with great fortitude, have created the conditions that will make such a world possible. Your anticipation of these new realities can be seen in the numerous governmental changes and public manifestos of what is swiftly becoming a global movement for peace, justice, and prosperity.

Implicit in this movement is a universal acceptance of each other. You are proclaiming yourselves to be a united and free humanity, and we take this global movement as proof of what you truly aspire to. St Germaine's world trust and those facilities created by our associates are waiting to be born. And so comes the time to bring these things into the light of day and begin our joint march toward a new fully conscious reality!

We have asked our associates to finish whatever details remain outstanding and to get the prosperity out to the people. It is extremely important that your present form of governance be replaced as the dark-oriented regimes are the major obstacle preventing the long-promised funds from being delivered. On top of that, disclosure and all that that entails needs to be announced as soon as possible.

These issues have lain around unresolved for far too long. Now, Gaia desires to go ahead with her transformation, and our timetable has also reached the point where it can no longer accommodate any more delays. And so we have sent out a single communication to both our Agarthan friends and the Galactic Federation, recommending them to act on our behalf and to do so now! It is time to set aside protocol and let our beloved planet and her peoples be free!

Today, we resumed our discourse with you by continuing with both our own message as well as that of the Ascended Masters. The time comes for those who have been in power for nearly 13 millennia to stand down. The Anunnaki have moved to the Light, and so it is time for the dark minions to do likewise. Know, dear Ones, that the countless Supply and never-ending Prosperity of Heaven are indeed Yours! So Be It! Selamat Gajun! Selamat Ja! (Sirian for Be One! and Be in Joy!)
