Subject: What David I. Thinks Reptilians Look Like. Part 2. Nov. 3, 2011.

This talks about a lady who came In contact with reptilians.

.....
.....

ASIA - AGHARIANS - (or Aghartians) -A group of Asiatic or Nordic humans who, sources claim, discovered a vast system of caverns below the region of the Gobi desert and surrounding areas thousands of years ago, and have since established a thriving kingdom within, one which has been interacting with other-planetary systems up until current times. Vast cavern systems below Tibet allegedly link the Agharti systems of central Asia to "Snakeworld", a multileveled cavern system under the southwestern slopes of the Himalayas where the "Nagas" dwell, according to Hindu legend. Here a serpent cult of human and reptilian collaborators dwells, one which is said to have had contact with the N-zi T-ule society during World W-r II. Long ago an Asian prince is said to have led several m-litant followers -- w-rrior monks -- into the caves and came in conflict with this serpent cult. Following the conflict the reptilians and collaborating forces were driven out, however in recent centuries they have regained some ground (Evadamic).

A PREDICTION FOR THE FUTURE FROM THE HOUSE OF DAVID

Between now and 2007 AD, our planet will have a 70 degree pole shift. (JW This information was written some years ago and it hasn't happened. We are also told that all of the repilians have converted and are now working for and with the Galactic Federation but we should still be careful with these reptilians.) Saudia Arabia will become the new North Pole. In the next 10 years, these are the changes we'll be witness to:

1. We will all become t-lepathic.
2. The Andromedan Council has ordered all extraterrestrial presences on the planet, in the planet, and on the moon to be completely out of our space.

They want everything that's ET, benevolent or not, off the planet. This will be very interesting since there are over 1,833 reptilians living in our planet and over 18,000 grays living underground and on the moon. The council would like to see how we will live with each other when we are not being manipulated by ETs, as we have been for the last 5,723 years.

JAZZ SINGER'S "REPTILIAN" ENCOUNTERS RAISE EYEBROWS

Pamela St-nebrooke, aka the Intergalactic Diva, a professional singer in the Los Angeles area, is writing the story of her alien encounters.

According to a report in The New Y-rk Post, three major publishers bid for the book, to be entitled "Experencer: A Jazz Singer's True Account of Extraterrestrial Contact." In the book, Pamela will explore her contact experiences in light of their transformative aspects, describe se-ual relations with a Reptilian alien, and detail her experiences with the various aliens she has encountered. Pamela Ston-brooke's cassette tape "Experencer" includes songs about her contact experiences.

Pamela is compiling an extensive database on Reptilian experiencers and anyone who might wish to contact me with their accounts can do so by emailing her at:

or they can mail hard copies to my P.O. Box

Want to Be an Experiencer?

AN OPEN LETTER FROM PAMELA STONE-ROOKE TO THE
MEMBERS OF THE UFO COMMUNITY

I'm writing this in response to the news item that appeared in a recent issue of The New York Post about my forthcoming book, Experiencer: A Jazz Singer's True Account of Extraterrestrial Contact.

Since the article unfortunately conveyed the impression that the book would be sensationalistic, it seems appropriate that I share some thoughts with you, and set the record straight about the book I am writing. I know that The New York Post piece seriously misrepresented the true nature of the book.

The book is multi-faceted, and treats the abduction phenomenon, in all of its complexity, with the sensitivity, respect and seriousness it deserves, presenting not only my own experiences, but those of other experiencers as well. I'll be examining and exploring my contact experiences in light of their transformative aspects, recognizing that the phenomenon is, and can be, an incredible catalyst for expanded self-awareness. Interaction with extraterrestrial intelligence has many aspects, of course, but the transformational aspect is fundamental to me.

The book will tell about my reptilian encounters, a subject that very few women are prepared to go public with or speak openly about. I praise the courage of the few that already have - and endured public ridicule as a result. Reptilians are not a politically correct species in the UFO community, and to admit to having s-x with one - much less enjoying it - is beyond the pale as far as the more conservative members of that community are concerned. But I know from my extensive reading and research, and from talking personally to dozens of other women (and men) that I am not unique in reporting this kind of experience. I am the first to admit that this is a vastly complex subject, a kind of hall of mirrors, where dimensional realities are constantly shifting and changing.

Certainly, the reptilians use s-x to control people in various ways. They have the ability to shape-shift and to control the mind of the experiencer, as well as to give tremendous pleasure through their mental powers. I have wrestled with all of these implications and the various levels of meaning and possibilities represented by my encounter experiences. I will say, however, as I have said before, that I feel a deep respect for the reptilian entity with whom I interacted, and a profound connection with this being.

In a past life regression I did recently, I went to a very remote period in earth's history (perhaps hundreds of thousands of years ago), and saw myself as one of a brotherhood of reptilian warriors facing a catastrophic event in which we perished together (it was possibly nuclear in nature, since I saw a red cloud and felt tremendous heat). I believe that on one level, I may be meeting these entities again, perhaps fellow warriors from the past warning us of an impending, self-inflicted doom - or perhaps they are different aspects of myself. I don't really know; I'm just trying to unravel this puzzle like everyone else.

Following my initial Art B-11 interview, I received hundreds of letters and e-mails, many from people describing similar encounters to mine. I know that there are people out there who are suffering in isolation and silence, thinking they are going crazy. I have been able to give some of these people strength and courage, so that they can move through their fear and come out the other side, empowered and still able to celebrate life as the incredible adventure that it truly is. I know that when I was processing my Grey experiences, if it had not been for people like John Mack, Budd Hopkins, Kim Carlberg, Whitley Striber, John Carpenter, and other researchers and experiencers who have been courageous enough to come forward, putting their lives and reputations on the line, I would have stayed in fear a lot longer, cowering in a corner, my self-esteem and identity shattered. Thanks to them and to the wonderful members of my support group, I am still standing, intact and whole.

I believe that the alien abduction experience is profoundly linked to the momentous shift in consciousness that is occurring as we enter the new millennium. We are witnesses to and participants

in the most fantastic era in human history. And contrary to the mood of pessimism from some individuals regarding the way mainstream media treats the UFO phenomenon, and the trepidation that is felt regarding its ultimate impact on the human race, I am unashamedly a "Positive." Everywhere I turn, I find much greater public acceptance of the alien abduction/UFO phenomenon, and active curiosity from enormous numbers of people. I am also encouraged by the fact that many more experiencers are coming forward, no longer hiding behind the cloak of anonymity. I believe that within ten years the reality of alien abduction will be accepted as a fact by the majority of people on this planet, and ridicule of the subject by the media or anyone else will be regarded as naive and irresponsible.

I think the problem that exists between UFOlogy and the media stems from the fact that the UFO community has been so sadly wounded in the past fifty years by rejection and ridicule that it has been somewhat demoralized as a movement. It has been a long, uphill battle, with many martyrs shedding their blood along the way, but I believe that we are winning the battle for public acceptance and are closer than ever before to solving the mystery of the alien presence itself. I am looking forward to appearing on major TV talk-shows, and to bringing the message directly to the public about this phenomenon. This is a subject that must - and will - be taken seriously, even, eventually, by the likes of Leno and Letterman. I was amazed, I might add, by the number of editors in the New York publishing community who are "believers," and I predict that within the next few years, UFO and abduction books will routinely top the bestseller lists as the public hungers to learn more about what our encounters mean, and their implications for the human race.
