These people think they have taken out another reptilian base.

Andromeda Council has confirmed that a 5.0 earthquake reported by the [http://neic.usgs.gov/neis/bulletin/neic\\_b0006gpf\\_1.html](http://neic.usgs.gov/neis/bulletin/neic_b0006gpf_1.html) U.S. Geological Survey (U.S.G.S.) to have occurred in the Gulf of Aden at 1:22 am on October 31, 2011 was in fact an effect of a sonic beam weapons attack by the Procyon star system (a member of the Andromeda Council) on a Draco Hydra Reptilian undersea base located at the same coordinates as the epicenter of the Gulf of Aden earthquake. (See FIG A for U.S.G.S. map setting out the exact epicenter of the Gulf of Aden earthquake).

In an October 31, 2011 statement, Tolec, the human representative of the Andromeda Council stated, Yes, I was able to confirm this event with the commander of the primary biosphere where many of the Andromeda Council meetings are held. This was a strike by the Procyon people. They're just doing their job as promised. This base in now completely collapsed & destroyed.

Tolec, the human representative of the Andromeda Council, forwarded this reporter this statement confirming the Andromeda Council attack.

At the time Tolec forwarded this statement, Tolec had no prior knowledge of the

U.S.G.S. map or other source setting out the exact epicenter of the Gulf of Aden earthquake when he forwarded the Andromeda Council statement about this attack.

The Andromeda Council statement itself established the location of the Procyon star system sonic beam weapons attack on the reptilian base as identical to the exact location of epicenter of the Oct. 31, 2011 Gulf of Aden earthquake.

The Andromeda Council Oct. 31, 2011 attack comes a little more that two months after the

Andromeda Council's reported sonic beam weapons attack of August 23, 2011 that destroyed underground Orion grey and Draco & Hydra reptilian bases and tunnels under Washington, D.C. and that resulted in a shallow 0.1 km earthquake felt from Virginia to Ottawa, Canada.

Independent researchers have now stated that the August 23, 2001 Virginia-Washington, DC earthquake was the result of advanced extraterrestrial attack using frequency weapons to destroy grey, reptilian and New World Order (N-O) bases under Washington, DC, and that similar advanced extraterrestrial attacks destroyed underground reptilian and NW- bases under Denver, CO and in the southwest USA. These statements are in agreement with prior statements of the Andromeda Council as to Andromeda Council attacks destroying reptilian-NW- bases under Washington, DC on August 23, 2011, and subsequently under Denver, CO and in the southwest USA.

The Andromeda Council

The

is a reported galactic governance council composed of selected star system representatives that carry out governance and development functions in a selected areas of our populated and organized galaxy and universe.

Gulf of Aden attack predicted in October 26, 2011 Andromeda Council statement On October 26, 2011, this reporter published an <http://www.examiner.com/exopolitics-in-seattle/andromeda-council-removing-reptilian-undersea-bases-from-middle-east-china>

exclusive Andromeda Council report disclosed p-licing actions being undertaken by star systems of the Andromeda Council using advanced sonic energy beam weap-ns against specific undersea bases operated by Draco & Hydra based reptilian extraterrestrials off of the Middle East and of China."

The October 26, 2011 report predicted the Andromeda Council sonic beam weapons attack on the reptilian undersea base in the Gulf of Aden that appears to have been fulfilled by an attack whose effects were demonstrated in the Oct. 31, 2011 Gulf of Aden earthquake.

Tolec, the Andromeda Council representative, released the following Oct. 31, 2011 statement on the 5.0 Gulf of Aden earthquake. 5.0 "Earthquake".

Gulf of Aden - Reptilian undersea base Confirmation of undersea base strike

Tolec's statement reads as follows: Yes, I was able to confirm this event with the commander of the primary biosphere where many of the Andromeda Council meetings are held. This was a strike by the Procyon people.

They're just doing their job as promised. This base is now completely collapsed & destroyed.

Location of the Undersea Base

Take a look at the second map, the Google map, [from the "Andromeda Council Destroying Dangerous Undersea Bases" breaking news report], the one of the southern Saudi Arabian/Yemen/Oman peninsula, south of Yemen, where the "Gulf of Aden" is spelled out in tiny white letters against the deep blue gulf water. To the left of these words, "Gulf of Aden", you will see a small square box. At the meeting of the vertical left line & horizontal top line in the far left hand corner, exactly due west of this corner is where the base was located. You can more exactly place it just north of a relatively small hill that you can see on this map. This is where the base was, just north of this hill. And next to, just west of that small hill, is a mountain range.

ED. NOTE: This Google map is set out as FIG. B in the slide show attached to this article.]

The Actual Strike

The people from Procyon were able to, again, using a specific, pin-pointed, sonic beam... they first aimed directly at what they found was the weakest part of the protective energy shield over this domed base. They kept focusing this sonic beam on this area of the shield... until they finally broke through. He showed me images of buildings collapsing unto themselves. With intense pressure that deep underwater it absolutely hastened the collapsing of all the structures inside the base. The amount of water rushing in was amazing.

In addition, he showed me they also hit the mountain range just due west of that hill the base... to bury the remains of this undersea base under tons of mountain rubble.

In closing, I asked for a confirmation that this particular base had been completely destroyed and that no additional action was needed. He said, Yes, it is completely destroyed.

[END OF OCT. 31, 2011 STATEMENT]

Andromeda Council Reptilian base in Gulf of Aden

In a report on the Draco and Hydra reptilian base in the Gulf of Aden published Oct. 26, 2011, the Andromeda Council representative stated (in part), [The reptilian undersea base] is located in the area of the Gulf of Aden. This gulf is located in the Arabian Sea between Yemen, on the south coast of the Arabian Peninsula, and Somalia in the Horn of Africa. In the northwest, it connects with the Red Sea through the Bab-el-Mandeb strait, which is about 20 miles wide. Because of what I've learned from my Andromedan contacts about this

matter, I did some research & found out that the Gulf of Aden is already a dangerous area known as Pirate Alley because of the historically large amount of pirate activities located here. I've sent you a Google photo & a simple map of this area. As you may or may not know the vortex phenomena also happened in this body of water, the Gulf of Aden.

Further, my Andromedan contacts have told me this base is deep, thousands of feet underwater, about a mile & a half deep. And this base has for years beamed a very specific, highly irritating & highly agitating, fear based & anger inducing, attenuated sonic frequency' right at the area of the Middle East, due North-Northeast' to keep the people in this area in a constant, high state of emotional confusion, fear, agitation, anger & aggression.

They've shown me, there is a transmitter that literally rises out of the ceiling of this base, much like a periscope in a submarine, and it rotates. A particular frequency is chosen which turns people against each other. Then the Reptilians turn it on. They turn it on almost every day. However, if people were underwater, or standing on the land, they would not be able to this frequency, this beam, with their own eyes. It's sonic, a sound frequency. And, it's out of our spectrum. But, this is how the Reptilians dominate & control these people. This particular base has been in operation about 5,000 years.

And the highly agitating sonic vibratory energies beamed from this base also reach as far as Syria, Iraq, Iran, Afghanistan, Pakistan and a bunch of other countries in the region, including I-rael and Palestine. This is powerful technology that is very far ranging, reaches a very long distance' serious long-range capability. And it only takes about 15 minutes of operation, of this transmitter being on & activated' for people in this area to start to feel its effects.
