Subject: The Good And The Bad Space People.

Nov. 22, 2011.

In the past when people of this Earth have seen the space people with all of their advanced technology, these things looked like miracles and they called some of the space people g-ds.

Some of these space people were good and some were bad. This information explains how that happened.

SaLuSa 18-November-2011.

When your focus is on the future can you feel the uplifting energy around you, if not make time for yourself to relax in quiet surroundings and you surely will. There is no need to carry the burden of the world upon your shoulders, just allow it to find its own path to completion, because that is a feature of the times you are in. You should be sufficiently confident about your destiny to believe that you are on the verge of great changes, that will put you on another path leaving the old paradigm behind. Ascension is your future should you desire to take it, and much effort goes into ensuring that all s-uls are in contact with the truth. Whether it becomes part of your beliefs by replacing false teachings is everyone's personal choice.

It is time to take responsibility for your future, and not rely on other people unless you can be sure that they speak the truth. That is where your intuition comes into play, and it will be reliable unless you allow your ego to dictate otherwise. Sometimes people are reluctant to give up their pet theories, and would rather live with uncertainty as their travel companion. We understand how difficult it is to admit to having been misled by those very people that you placed your trust in. However, when you decide to be your own person you will find that there is no lack of information and guidance, that will put you on the right track.

Simply put, when you look for the purpose of life, commence from the fact that there is only the One Go- that all life exists within. That will so to say, clear the decks where the different re-igions are concerned as no particular one as opposed to another, can correctly claim to be the only one holding the truth. That having been said, you have infinite life and are not your body but change your form each time you i-carnate. However, your so-l which is your g-dspark is indestructible and grows through e-olutionary experience, and is forever reaching out to the higher dimensions and eventually the Source of All That Is. If you can accept that these are truthful statements, it will give you the basis to expand upon and become more enlightened.

Most people have heard of the M-sters, and when they walk the Earth their teachings will enable you to check how far you have advanced in your beliefs. There will be some who will be at a point where they have no particular beliefs, and feel unready to make decisions that would change the course of their lives. They will not be coerced into anything different, but are clearly unready to move out of the 3rd. dimension. They will therefore continue to experience in that same dimension, until they choose to awaken. They must not be considered failures in anyway, as it is your choice as to how long you spend in any one particular dimension. The truth is that once you become Beings of Light, you will have a strong desire to progress to the higher dimensions.

In your ancient history you have many references to the -ods that came to Earth, more often than not as "those who came from the skies". There could hardly be a more descriptive observation, and it means exactly what it says. Now that you have long been familiar with seeing our craft in your skies, you realize that it a clear reference to Space Beings. To Man some thousands of years ago we would have seemed to be g-ds, and that explains much that has remained a mystery for such a long time. However, not all contacts have been made out of a desire to help you, and some have taken advantage of your beliefs that they were go-s. This has caused a misrepresentation of what our purpose is in contacting you, but we are pleased to say that with time the majority of you accept us Beings Of Light. With the coming high vibrations that will exist on Earth, it will be no longer be possible for entities of a lower vibration to penetrate Earth.

In the latter part of next year, the Lemurians who are your ancient Brothers and Sisters will join you from the Inner Earth, and along with other visitors you will have much to learn. Many other sou-s have eagerly put themselves forward, to be part of the final stages of your preparations for Ascension. There will be more than ample help for the various projects you will be called upon to assist in. Naturally it does not end with Ascension, as it is the beginning of a new era of co-operation to bring you up to the level of Galactic Beings. So the next few years will be really exciting and you will also have reached a state of being, where the changes in your physical body will have overcome the conditions that have previously led to aging.

We have told you so much about the changes for the future, but we hasten to add that not everything is going to happen in the space of the next 12 months. However, the speed at which they will come will keep you well occupied. Your consciousness levels will have been lifted by 11.11.11. and continue to rise well into the future. In that respect you will become all-knowing, and have earnt the right to be called Ma-ters. Remember that you were once previously at those higher levels of consciousness, and lost much of it as you dropped down into duality.

Dear Ones, we of the Galactic Federation are gathered for the final days of the last c-bal, who can only offer token resistance now that their power has been seriously weakened. We have always been able to traverse your skies quite safely, and the occasions that you learn of crashed craft are invariably intruders such as the Greys and their Reptilian friends. Shortly we shall feel freer to be more open in out travels around Earth, and intend that more of you should see our craft. You are entering a period of high activity both on and off Earth, The D-vine date for Disclosure rapidly approaches, and the necessary arrangements for the announcement that will precede it have been drawn up.

I am SaLuSa from Sirius, and like the idea of seeing your delight and excitement when the first of you are invited upon our ships. We can tell you all we like about ourselves and craft, but there is nothing like first hand experience to really take in the true impressions that you will be left with. Also meeting us will dispel any last doubts you might have had about us. When we talk about sending out our love, it is something you will clearly feel when you are in our presence.

Thank you SaLuSa

Mike Quinsey.
