Subject: Why Are The Space People Here? Part 2 of 2. Nov. 22, 2011.

This shows what this Earth will be like when we invite the space people into this world.

.....
.....

The planet itself will move towards a uniformly-temperate climate. Many people worry about global warming, but that trend is itself an intentional and beneficent one overseen by the galactics that will see the Earth enter a climate that is evenly pleasant around the world. Some animal species will leave the planet, but will find themselves migrating to other worlds where their continued e-olution is ensured. However to appreciate that, many of our existing beliefs will need to expand, such as our belief that life ends with the physical d-ath of the body. All life forms exist eternally and are not harmed by de-th, but this truth has been distorted and hidden by our r-ligions. Our beliefs around dea-h and many others like them are not accurate and will be corrected once the ma-ters and galactics have the opportunity to address them with us and reveal the truth.

We'll move into an era in which all of Earth's inhabitants will regard themselves as one people, w-rshiping the same G-d who created this world and all others, and ev-lving towards a future that is unimaginably more fulfilling than the one we experience now.

Disclosure is the opening of the door to this wonderful future. The more people who are aware of Disclosure and who realize its benefits, the sooner the event will occur. As matters stand now, the galactics and mas-ers assure us that Disclosure is not too distant in the future, but many readers of this article have been expecting it for a very long time and will no doubt be greatly relieved when the event finally does occur.

So welcome to a new and unimaginable world, the world of the Aquarian A-e, the Sat Yuga, the Golden Ag-. Welcome to the world of your dreams in which Earth becomes H-aven and life becomes He-ven on Earth.
