Subject: Why Are The Space People Here?  
2011.

Nov. 21,

Many people wonder why so many alien space people are interested in this Earth. This information attempts to answer that question.

Why is DISCLOSURE Occurring?

Oct. 10, 2011

Steve B-ckow writes

The arrival of our galactic brethren in millions of cloaked spacecraft around Earth has both a short-term and a long-term explanation. The short-term explanation goes back to the Second World W-r, when we exploded the first atomic bomb on Earth. This explosion apparently caused d-ath and destruction in other dimensions of space and brought extraterrestrials here to persuade Earth's g-vernments to stop using these we-pons.

In this they were unsuccessful, following which the galactics neutralized all n-clear wea-ons on the planet. Although gov-rnments like the A-ericans and Israelis have been threatening to bo-b countries like Iran of late, in fact no nuc-ear bo-bs have been capable of being detonated for aggressive purposes since decades ago, as whistleblowers like retired captains Robert S-las and Bruce F-nstermacher have been reporting for years.

The long-term reasons why the galactics are here are connected with the D-vine Plan for this era. While it may seem difficult to believe, the era that Hindus call the Kali Yuga is ending and the era they call the Sat Yuga or Golden A-e is beginning. Westerners are more familiar with the shift from the Piscean to the Aquarian Ag-, which is another way of talking about the same events. The Mayans also agree that the calendar they've been custodians of for many centuries shows a cycle of many thousands of years ending in 2011/2012. The close of this era will see a global transformation occur on or before Dec. 21, 2012. The galactics are here to see that the global e-ite that has held Earth's population in its grip for many centuries releases that hold and that the planet's inhabitants are prepared for that culmination.

For decades now it has been known that the time between now and Winter Solstice, 2012 will see freedom and abundance restored to Earth's inhabitants, the planet cleared of all pollution including radioactivity, and humanity prepared for the expected global shift or transformation. One might ask how information about the galactics is known.

The galactics first communicated broadly with Earth's population on Nov. 27, 1977, when the Ashtar Command interrupted the evening news on Britain's Southern ITV (which covered London, the South, and South East), to make a broadcast lasting 5 minutes, superimposed over the voice of newsreader Ivor Mills. Part of that message was as follows:

We come to warn you of the destiny of your r-ce and your world so that you may communicate to your fellow beings the course you must take to avoid the disaster which threatens your world, and the beings on other worlds around you. This is in order that you may share in the great awakening, as the planet passes into the New -ge of Aquarius. The New A-e can be a time of great peace and e-olution for your ra-e, but only if your

rulers are made aware of the e-il forces that can overshadow their judgments.

(1)

Since that broadcast, the galactics have used methods that s-irit inhabitants of the afterlife also use to communicate: t-lepathic or other related means of communicating through a m-dium or ch-nnel. Many representatives of the Galactic Federation of Light, in particular, send messages often several times a week through the I-ternet, keeping those interested apprized of the progress of Disclosure and related events.

(2)

In addition, galactic beings have appeared in person to officials of the U-ited Nations, the m-litaries of many nations, and go-ernment leaders. They have stated their intentions and tried to persuade the leaders to cooperate to end w-r on the planet and begin preparations for the global transformational shift, the service of which is their main reason for being here. I am led to believe that P-esident O-ama is well apprized of these developments.

How will Disclosure Occur?

The galactics and s-iritual h-erarchy or ascended m-sters have arrived at many plans for Disclosure, but these have changed to meet changed circumstances. At one time, 36 hours of broadcasting were planned, introducing terrestrials to all elements of the galactics culture, technology, and mission. But, when those plans failed because of resistance from the global el-te, the galactics were obliged to modify them. At present, the latest form Disclosure may take appears to be an announcement from global leaders, followed by a decloaking a short time later, and then initial landings and introductions afterwards.

Because the global eli-e has responded to the nearness of Disclosure by causing earthquakes, volcanic eruptions, tsunamis, floods, and wildfires, the Galactic Federation has become more and more reticent to be overly-specific about dates or arrangements to prevent further harm to terrestrials not from them, but from the rogue-gov-rnment elements possessed of weather-control technology which they use even against their own populations. The tornadoes and floods afflicting the Am-rican midwest are examples of these elements attempting to ensure that Disclosure does not happen. But they can only postpone the event, not defeat it.

What will Follow Disclosure? Disclosure is simply the bringing up of the curtain on the main events destined for this period. The first event will be the rounding up of the dark figures who have been responsible for crimes against humanity, w-r crimes, genocide, torture, financial t-eason and other acts which the mass of the population hardly suspect. Most of the natural disasters that have occurred to countries like Haiti, Chile, New Zealand, Australia, Japan, the Un-ted States and other countries have been caused by this dark ca-al. Some readers may be aware of them under names like the I-luminati or the New W-rld Order.

Bent on reducing the world's population from 7 billion to 500 million, that el-te has caused manmade pandemics, chemtrails, depleted-uranium pollution, and the release of other toxic substances throughout the environment. They have disrupted food production through the use of G-O seeds and foods and the causing of droughts and floods. They have engineered false-flag operations such as 9/11, the London, Madrid, and Oklahoma City bombings, which they blame on ter-orists, planned a nuc-ear World Wa- III, and followed other strategies that have resulted in thousands if not millions of intentional dea-hs. They whittled down constitutional rights, created vast surveillance networks, planned the introduction of martial l-w and the i-carceration of dissidents, and undermined the financial, legal, educational, m-dical, r-ligious and other institutions of nations worldwide. Their control of the mass m-dia ensured that very little of this leaked out to the public, who refuse to believe con-piracy theories in any case.

However, Disclosure will end this phase of our history and the members of the elite responsible for these crimes will find themselves in international courts facing terrestrial judges, charged with their crimes in a phase of events generally known as Accountability. The evidence produced in court, we are told, will be irrefutable and the verdicts neither vengeful nor unfair. Apparently, galactically-supervised courts don't resemble their terrestrial counterparts in that our courts can be co-rupted whereas theirs cannot.

At probably the same time, a planetary abundance program which has generally become known as N-SARA will be enacted. NE-ARA stands for the National Economic Security and Reformation Act, an act of the American Congress which has been ratified but not proclaimed. By its provisions, debt will be erased, income tax will be scaled back or ended, prosperity will be assured every citizen, and many other steps taken to relieve the planet of poverty, hunger, homelessness and other lamentable conditions. Before that act is promulgated however, the dark elite must be deprived of their sources of finance, which is why we see the economy around us inexorably crumbling. Its fall will be followed in quick time by the announcement of NESARA.

At the same time, the galactics will bestow on humanity technology that will permit worldwide communication, a revolution in health care, ease of travel, ample production without labor, and other benefits at present undreamed of.

Once the conditions of disease and discomfort have been relieved around the globe, the galactics and spiritual matters will set about mentoring the population to prepare for the global transformation expected in 2012.

There will be movements of the Earth's crust needed to relieve negativity and stress within the planet's own physical structure but these will be overseen by the galactics so that minimal inconvenience occurs for the planet's inhabitants.

Part 1.
