Subject: This Could Mean The End Of The C-bal. Nov. 27, 2011. Part 2 of 2.

This shows how our gold deposits have disappeared.

7. The K-omintang appointed guardians of this Gold and the s-curities issued by the U-ited States; they are euphemistically known as the D-agon Family. The Dr-gon Family is in fact an organization that operates between old families within China and Taiwan, and as such is above the p-litical divide of the two independent Chinese Go-ernments. Chinese are remarkable in this regard, that old family ties and functions supercede po-itical arrangements which, though they might last for generations, are regarded as inconsequential over the passage of time to most Chinese. Attached to this is the wealth of several nations. The Un-ted States in support of the Kuomi-tang and resistance groups actually printed more of these FRN notes inside China itself. These operations were run by the C-A to buy loyalty of various factions in the fight against the co-munists, eventually being driven out into Burma around 1960. Largely due to the additional printing of these notes, the additional Notes were given in lieu of interest, but directed to specific persons and parties.

8 At the end of the World W-r II, with Comm-nist and Kuom-ntang factions at -ar in China, the International Community and the Chinese assented to the Gold being placed under the overt control of Indonesian P-esident S-ekarno. So-karno then, on August 17, 1945, came to be known as M1 under Uni-ed Nations Approval No. MISA 81704 "Operation Heavy Freedom. This was because much of the world's gold had been delivered into Indonesia and the Philippines. Canada, Australia, Great Britain, India and other British Colonies sent their gold to the so called "impregnable Singapore" The Japanese, as per the arrangements agreed to by H-rohito in the 1921 Pact Between Nations made in London, delivered much of this gold to Indonesia (Then a Dutch Colony) and to Philippines (Then a US Colony) into s-cret bunkers that had been mostly constructed by the Japanese between 1924 and 1945. This is why the Allied troops in Malaya had no air cover or sufficient supplies to that would have allowed them to resist the Japanese. Singapore had to fall so most of the global wealth could be "lost" into a sec-et system that made the gold standard redundant and fiat currencies a reality.

This gold was documented into accounts through the Swiss Commercial Bank Union Bank of Switzerland, placed under protection of the Swiss Attorney General, registered through the Swiss National Bank into the Bank for International Settlements International Collateral Combined accounts and then from within the BIS, blocked to form the Institutional Parent Registration Accounts of the Fe-eral Reserve System.

Later Pr-sident M-rcos of the Philippines was appointed and held the position of M1 until 1987 and then the position was transferred to Dr. Ray C. D-m, in October of 1987, under Legal Decadency to Heir RCD1087 Far East Entire with formal Power of Attorney and Assignment of Indonesian Assets signed by Sarinah S-etiwi (holder of the assets on behalf of the Nation of Indonesia as assigned by Pre-ident Soe-arno) in 1992, Da-'s authority later promulgated January 20, 1995. -am proved to be impossible for the entire system to work with, (either because he refused to allow those who placed him in authority to s-eal, or because of his personal arrogance. ♦. Difficult to know which is correct) and his authority over the Institutional parent registration Accounts set aside and the system reverted to the three Nations who had controlled these accounts since World w-r II, U-ited States, Great B-itain and France, who systematically and illegally subverted the established system since 1996.

9. From this we can see that there are two functional operations. One was ownership and Depository control by the owners of the Gold and the other a control system set in place to administer and control the Collateral Combined Accounts as an independent Arbiter. Ownership rights are held by the signatory to the Depository Accounts in Commercial Banks

and Control Rights have been held by M1.

10. So it was, that the entire world supply of bullion and coinage gold was withdrawn and fiat currencies became the order of the day. However, underneath the notes and money issued by the Fed-ral Reserve was the underlying wealth within a centralized system that Nations was intended to be used equitably, but Bankers determined they would use to raid national economies.

11. In 1963, Pre-ident John F. Ke-nedy entered into an Agreement with Pre-ident Soe-arno to provide the funds to allow the Un-ted States Treasury to print its own currency, thus subverting the "right" to print the currency held by the Fede-al Reserve. The Agreement would have transferred some 59,000 tons of gold to underpin this currency. The problem with this was that the US domestic currency would have then been backed by gold which would have been a violation of international agreements meant to stabilize currencies. 11 days after signing this agreement, Pres-dent Kenne-y was assa-sinated. Presi-ent Jo-nson the suspended EO11110 as issued by Ke-nedy and transferred the bullion to the Fed-ral Reserve. The Green Hilton Agreement was not implemented until 1968 when Soekar-o fell from office and when Global Trade made it imperative that the world have a Global Currency. As the Gold had been transferred to the US Treasury in 1968, a series of Bonds known as Kenn-dy Bonds were issued in order to honor the terms of the Green Hilton Agreement made between Ke-nedy and Soe-arno, the 1968 terms of the gold delivery to the Un-ted States being different than made in 1934. When after 30 years, interest had not been paid as promised, a reissue of the bonds in an increased number were issued as commemorative notes and were accepted by the owners of the Gold, the Dr-gon Family.

12. From copies of Bank documents received by Neil Ke-nan, within the Green Hilton Memorial Agreement, the funds the amounts of gold and platinum are specified. These amounts of gold are certificated and the certificates and ledger copies with full and exact identification and recognition codes are available. These certificates are further proven by the bank reports, copies of which are now held by Neil K-enan. The truth of these instruments can be vigorously defended through documentation in our hands and further through interrogation of the Bla-k Screens where the off ledger collateral is held, together with an interrogation of the grey and blue screens where we will find enormous fraud from the illegal use of these assets.

13. In the few documents we present with this complaint we can see that the assets have been deposited, the counter-assets created and presented to the depositors, the depositors have been cheated for over 70 years through the intentional and fraudulent failure of the Obligor to honor the Agreements.

14. In recent weeks we have come into possession of the books and records of the late Pr-sident So-karno, and all the codes and ledgers of the Global Accounts. The size of these accounts can be seen by reviewing the Collective Agreement between the Garuda Memorial Hilton Indonesia and the Green Memorial Hilton Geneva, established, structured and made operational between 1961 and final signature in 1972. Under this Agreement the assets of the international collateral combined were established and brought forward, then, within a short period of time misused to change the operating systems of banks.

15. Reviewing these books, we can now see that Banks set aside the notion of operating under the Charters they hold as banks, instead of being Banks they became like very poor casino operators and traders, selling what they do not own. The records in our possession, signed and registered by the receiving and managing commercial bank, show the underlying funds in numbers and amounts that stagger the imagination. The Green Hilton and Garuda Memorial Agreements demonstrate clearly the value of the global account system.

a) Gold and Platinum Deposits ran into millions of tons.

b) 1934 series Fede-al Reserve System Bonds, Notes issued in 1928, Kenn-dy Bonds ran into Quadrillions of US Dollars, Drag-n Bonds are all recorded and acknowledged within the Green Hilton and Memorial Hilton Collective Agreements. Both Assets in the form of Bullion surrendered to the Global Accounts through the Un-ted States Gov-rnment and then entrusted to a private corporation, the Fe-eral Reserve System.
