Hello, Miss Ann. We are the Galactic Federation of Light coming to you from the communication center. We are in constant contact with you on the inner planes, as are your colleagues and fellow lightworkers. The disclosure you wish to see will indeed occur in a timely and organized way to create the most value and the least disruption, although an event of this magnitude is by definition disruptive.

Nothing in your world will ever be the same when we make our appearance into human society. Religion we mean the big organized institutions will be threatened as never before. Expect the most virulent attacks and resistance from that quarter. If the organizations that have controlled you for so long no longer have the claim to the ultimate understanding of life and the universe, they have no firm ground upon which to stand. In other words, they will collapse under their own weight. This is the factor that we are most concerned about, since many humans rely on churches to tell them what to do and how to live. Where then, will they look? If they (and we refer here to what some of you satirically call sheeple can't get their heads around the new paradigm, you can expect to see a fair number of people go predictably nuts.

And this is where you come in, lightworkers. You're going to have to stay calm (we see you jumping up and down when we arrive) and help your confused, scared and angry neighbors come to terms with us. There will be a lot of anger because people will realize the extent of the lies that controlling institutions have perpetuated solely to stay in power. This will generate a tremendous amount of rage, and while we understand the reaction, it would be better to tamp it down.

You, our ground crew, are the ones who can do the most in this regard. You know your neighbors, coworkers, family members, etc. much better than we do. Start by preparing the way. When you have the opportunity to talk about us calmly and logically, do so. Sow the seeds of the new way so that the ground is prepared in advance. Can you do this? We know you can. We know you talk among yourselves about us spread the word! We need to achieve critical mass in the collective mind-set to make a successful entrance. You are our advance team. Make it so!

Namaste, the GFL comm team.

Subject: What I've Been Doing Lately.
21, 2011.

Dec.

Some of my friends like to know what I've been doing from time

to time so here's what has been happening.

.....

Two wednesday nights ago I was returning from a meeting that I normally attended. It was about 7:30 p.m., dark, cold, rainy with a little bit of wind. I saw a person with his hand up signalling that he wanted a ride. He was on the side the road next to a cliff and was in danger of being run over by a vehicle. I turned around, went past him, turned around again and stopped a little ways past him. He came up to the car and i asked him if he would like a ride. He said that he did and he asked me how far i was going. I told him how far i was going but that i was a C-ristian and would be glad to take all the was home. He shook my hand and sure enough it was nearly frozen. I told him I had plenty of gas in my car with nothing to do and I'd take all the way home. He just couldn't believe this but we kept on going for about 10 miles and I asked how much farther It would be. He said that just a little farther in the town of Sierra, Village, Calif. across from a Chevron Filling Station. When we got there I asked where his house was and he said, "Are you going to take me to my actual house". I said, "Yes" and pulled down into the trailer house park where he lived. He was happy that I helped him out and said he would like to go to meeting that I had come from.

I said that I would not promise anything in that regard and said, "goodbye".

After that time I got to thinking that if he comes to that meeting with me the leadership of the meeting would probably not let him say anything about something different from what they believe and will not me speak about what I believe. So I decided that I'll do my best to come see him and answer all the questions that he has and tell him how to make it out of this world. I'll try to record all of this and write it up in an E-mail and send it all to you people.
