Mira speaks

Greetings, I am Mira.

I speak to you today with joy in my heart and appreciation for you.

The progress that you and the Earth are making is remarkable. You are truly an amazing group of Lightworkers. You make our work with the Earth easier. We complement you and vice versa. Many of you are from the Pleiades. That is why you have such an affinity for us in your skies. We welcome your te-epathic messages when you call to us. We hear them and it delights us. When we work together we feel welcome. We welcome you too.

There is much occurring on the planet right now. Correction patterns are being offered since the Earth is quite unstable at this time. When you feel nervous or off course you are tuning into the Earth. You will begin to feel more of this in 2012. It is going to be physically challenging. You will have some upheaval around the globe. This is part of the separation of the old and the new. Higher frequencies require Lighter bodies. This is true for the Earth as well as for your physical bodies.

The social unrest across the Earth is also a part of what the Earth is feeling. These energies have been coming to the surface for a long time. They will have to be acknowledged. They are swaying some of those of influence. They will no longer be allowed to have their p-litical sway. The people will be heard. There will be a diminishing of egos and an expansion of resources will be directed to these energies. They will not be able to be ignored.

Conflicts will continue to rise. This is part of re-balancing the disparities that have existed for too long. It will be an apt time for the Lightworkers to continue to work with these energies for balancing and centering the Earth and the populace.

We are involved with introducing new technologies. You will be pleased with the many ways that technology will be able to assist you with your environment and your lives in general. These will be coming rapidly and will be amazing gifts for you. They will be necessary too for many of your current methods of communicating, h-aling, etc. will become outmoded or will no longer function. New systems are already on their way.

We are optimistic about our new work with you. We will joyfully anticipate our expanding friendships as the Earth moves into higher consciousness.

I am Mira with love from the Pleiades.

Tentron speaks

We are here! We have come to assist you all in the Earth's Transition to her next level of Being. Although it appears to you as though societies are falling apart, they are actually falling together. Your people have been l-ed to and manipulated for millenia. This state of affairs is at an end now. The Light that has reached your solar system from the Galactic Center is a factor in awakening humanity. Your S-ul carries memories from the time before you came here, before you were manipulated into becoming a little being, rather than the Great Beings that you truly are.

This Light is re-activating your DNA of 12 sequences, it is activating the parts of your brains that were asleep since ancient days on the Earth Mother. You are awakening exponentially! This is why many, if not most of you have been having many challenges in your lives. These energies assist you in awakening from the miasma of third dimensional reality. ALL ASPECTS OF YOU ARE BEING CHALLENGED TO BE THE HIGHEST AND BEST OF WHO YOU ARE NOW!

Do not falter. Do not turn away for when you do (succeed), you will only see Yourself and that is what is meant to be at this time. As all of you re-discover Who you are, you rise to meet the Earth Mother as she ascends to higher dimensional plains.

We are here in the millions and billions assisting the Earth Mother and you in this transition into your collective next steps of e-olutionary growth. Many have been where you are now and we can assure you that all will be worth the opening of your minds and your hearts to a Reality that has been absent from your world for far too long. We of the Starship Electra salute you and encourage all to Be Peace! Live Love! Feel Kindness! Help Each Other...no matter what! You too will do what we are doing in assisting other worlds to rise in dimensional frequency! Your remembrance and experience is needed!

I am Tentron.
