St. Gemain threatens to recycle some of this bad people if they do not change and work with the good guys and gals.

.....
.....
As an m-ster Alchemist, I have long since known that in any "alchemical formula" whether it be through the "transmutation of base metals into -old," and/or "Transmuting one's lower consciousness into Higher C-rist Consciousness," there has to be a certain number of "prosperities" and ingredients available in order to cause or create an "alchemical transformational" change from one level or quality or property to another, and in the case of causing reality to Transform from a lower dimensional level to a Higher Dimensional level, it is necessary to have present those qualities of consciousness that will result in this Higher Order of existence.

This requires, of course, the right amounts of these "ingredients, all in the right combination & vibrational state, to also result in any new state of being, or even a new and more efficient economic system a system which will not be able to be manipulated in any way by the "powers that were."

And the "discovery" of these exact, ingredients of this particular "alchemical formula" of this new N.-.S.A.R.A. economic system & reality could not occur until right before the actual conditions would be available to manifest this exact state or system. Well, so it is, that because enough of the masses on Earth have achieved or are in the process of achieving this specific state of consciousness, the first Official revealing of this new system, or part of what will be the vast economic resources of this system have now been allowed to be exposed.

Yes, this very fact, in itself, is a powerful sign from "On High," to everyone on Earth that we are indeed very close to the full implementation of the N.E.-.A.R.A. system, most likely only months away from being Officially established, once certain obvious "legal actions" are completed and "Certified" into Law.

As stated, I have in recent centuries and especially in recent years, been meeting with many of the world leaders to help plan the final strategies to fully implement the N.E.S.-.R.A. economic planetary system. I have met with many world leaders, many who have not been at all open to this plan because of their desire to amass all of this wealth for themselves.

Usually, these particular leaders were also main members of the i-luminati and Com-ittee of 300, (or the three hundred most powerful men, and a few women, in the entire world), with the R-thschilds being one of the most powerful and ruthless of them.

Baron Ro-hschild, and most of his older family dynasty, are, of course, as others have theorized and documented, of a negative r-ptilian lineage without any compassion toward the human r-ce. My meeting, or rather confrontation, with the Head of the Rot-schild dynasty, was not exactly a "warm and fuzzy" experience in dealing with these "a-ligator-c-ocodile men" who are S-tanists and totally devoid of any of the Higher qualities of S-iritual Ch-ist Light.

I basically warned him of that fact one day very soon now, that he and all others of his ilk would either have to align/become One with the Higher Cosmic Frequencies of Light and work to balance out all of the negative karma that his kind had been accumulating, or they would be "Recycled back through the G-dhead to be as if they had never existed" by the End of the A-e, which we are now Officially reaching, and so very soon indeed, most of these ones, at the very top of the il-uminati pyramid of power, are going to be Transmuted thru the Go-head.

It has been stated (here on Earth, at least) that (usually) in the past, power has "corrupted those in positions of power absolutely". But now with this very recent knowledge of at least SOME of how much gol-, etc. does indeed exist, the need or tendency of the past, of greed

or "-old fever" ceases to exist, among all whose Hearts are pure & filled with compassion & aligned with Di-ine Creation which will be the only ones of Earth's humanity that can even exist within the Higher 5th Dimensional Frequencies that are in the process of quickly manifesting upon Earth.

For this alloy referred to as "G-ld which also exists in various shades of the different Colors of the Rainbow besides the yellowish-go-d coloring because of the particular combination of alloys & properties does exist in such great and common amounts all over the planet, that it will not be considered so rare or economically so expensive.

And as many have in recent years and especially in recent months begun to self-realize, that it is a Supreme Blessing for the present corrupt f-deral re-erve & us-ry credit system to totally collapse and be Officially ended so that within hours or days at the most, the N.E.S.-.R.A. system, world wide, will be Officially Activated & Implemented for everyone upon Earth.

Of course, too, as has also been discussed and is a fact, that N.E.S.A.-.A. is only meant to be in place as a `Transition economic system" for only a short time, until the entire planet can complete a total Vibrational Dimensional shift from the old 3D level into a Higher 5th or 6th Dimensional state. Then this N.E.S.A.R.-. system will change into or merge & become the same type or Higher form of "Love-Barter" system that exists on all of the planets of the Intergalactic Federation of Light.

As this C-annel knows and many are very aware of the fact, that a New Time Line has overlain or replaced the old more violent time line, which is why most of the ill-minati's plans have not occurred (the creation of the new w-rld order total f-scist world-dictatorship p-lice state, martial law & activation of those 800 FEMA c-ncentration camps, along with n-clear w-r and complete human genocide, giant tidal waves, along with Wormwood/Nibaru being allowed to also cause massive destruction to the Earth as it completes its pass through this solar system as in past times of its passage, etc.

All of these and many more, much more negative & destructive conditions have been altered in this New Time Line. And as is also true, that the Higher Overs-ul-Future Self of the Volunteers presently in Earth embodiment, as in a form of "Consciousness Time Travel from the future" have merged back into this "past-present" old time line, and have been individually and collectively altering and changing the old time line to turn out entirely different than had occurred.

So instead of only about a third of humanity surviving & making it through this planetary change, now in this Transformation into this newer, more calm time line, a much better and joyous outcome for the majority of 99% of humanity, not only surviving and also making their/your Ascension to the Higher Realms.

As this very recently released Documentation in these last few days conveys and helps to also make it clear, that once all of the vast reserves of -old is unveiled and shown to everyone, it is obvious that the "market value or worth" of gol- will be much lower than it is now, but who really cares (?!!!!!!).

For this very fact, of the inflationary-deflationary manipulation of the market by the "powers that were" that causes these "profit incentives" to "keep things as they were" are also the factors that cause billions of people to suffer in so many unnecessary ways.

Once these new and much more balanced, fair, just, equitable and "prosperous-for-everyone" system of -.E.S.A.R.A. is Officially implemented, not only will all "usu-y debt" be totally forgiven & gone from everyone's life and new vast amounts of abundance and prosperity will be available to everyone to use for more productive and joyous endeavors; as stated, who cares about "profit just for profit sake"! Now everyone upon planet Earth is to truly have an even and fair chance at the "pursuit of happiness".

There is so much more that I could express now, but for those who are somewhat familiar with the N.-.S.A.R.A. economic system, it would, perhaps be somewhat redundant to mention its history and all that will occur once it is Officially implemented.

I would ask, though, that for those who for whatever reason are not clear or familiar with it, after I end this Transmission-chann-ling, for this cha-nel to briefly share its history and just a few of the main things that it will do after being Activated. I can definitely Confirm, though, that it is, technically, already in place "behind the scenes", and Ready to be fully implemented; we of the Spi-itual Hiera-chy, Agarthians and Federation of Light have only been waiting for just the right moment, and for a few other events, such as this recent release of very important Documentation, plus a few more "last minute" tactics and attempts by the cab-l to stall the inevitable.

But rest assured, it has, in a sense, already occurred in the near future;
the only question is, EXACTLY when or which exact date in the near future, in this new, manifesting and constantly reforming new time line, this Official Announcement of both N.E.-.A.R.A. as well as Disclosure going to occur.

One thing is also for sure, that the more of the masses become aware of it, and this upcoming legal lawsuit is forced upon the "powers that were", the quicker this system will occur. Blessings in power and Love and Light of the I Am That I Am! This has been St. Germain, and I Am Decreeing, Invoking and Visualizing, the Violet Fire-Transmuting Flame of Freedom!

I blast the Violet Fire so that this whole process will indeed speed up, and I ask that all Lightworkers, Sons and Daughters of Freedom, will also now join me in Decreeing, Invoking and Visualizing, even more powerful than before, that this upcoming Manifesting and Implementation of N.E.S.-.R.A. will occur all that much sooner, for the sake of all of humanity, and for Mother Earth, herself.

Blessings to you!

Michael: As St. Germain has requested, for those of you who are still not aware of both the history, as well as some of its main functions --when it is finally first Officially Implemented -- here is a brief synopsis, as is described quite accurately from one of the many websites about it:

PRINCIPAL BENEFITS:

- * Treasury B-inking System: Currency backed by Precious Metals
- * Income Taxes : tax agencies disbanded
- * Forgiveness of Ba-k Mortgages and Loans, including Student Loans
- * Forgiveness of Credit Card debt
- * Restoration of Const-tutional Common Law
- * and so much more.

BRIEF SUMMARY:

In 1993, the U.S. Supreme Court almost unanimously ruled in favor of the Farmers' Union claims that American banks were fraudulently foreclosing on farms with collusion of the go-ernment, and that the income tax amendment was never properly ratified. An extremely strict gag order was placed on everyone directly involved, court case records sealed, and docket number case details revised until after the Court's reformation rulings are accomplished.

To implement reformations, five Justices spent years negotiating 'Accords' with U.S. gove-nment and other parties. Because the Accords process did not work, the Justices authorized the reformations be put into the form of a law named the National Economic Security And Reformation Act (NES-RA) which was passed se-retly in March 2000. Sec-ecy was maintained by revising official records and strict gag orders. News of NES-RA came out of U.S. naval intelligence in June 2000. The World Court ruled 2002 08 22 that the countries involved (182 now, including CANADA) MUST honor their contracts and change their ban-ing systems in alignment with the true NE-ARA law as previously agreed. The process must (should) begin in the Un-ted States - in a climate of peace:

once it is announced there, the other countries must follow their lead. NES-RA was to be announced at 10 a.m. EDT on 11th September, 2001. The attacks on the World Trade Center occurred just before 9 am that day. There were NO hijackers. P-esident B-sh desperately needed a w-r - partly to stop this announcement! The lives of NY firemen could be at risk as they evidenced the m-rder of some 200 bank employees who were acting out ba-k procedures for the implementation of NESAR-that very morning!

On 2002 10 14, the Justices removed many gag orders, and talk shows on both radio and television across the country began to feature this information for the first time.

In November 2003 activities moved to a different front, with individuals and groups taking a role in the preparation for this "Golden A-e" despite a wave of increasing cynicism from those who were disappointed at the long wait and those who still thought it "pie in the sky" - and, of course, also from those who would be removed from control over the planet upon its implementation

By April 2005 things began to really heat up and the Ill-minati tried many desperate measures in an attempt to derail the announcement - maniacal at times, such as using nu-lear (h-drogen) explosions to destroy the whole world, if they could not control it. But there will be no nuc-ear wa-, not even nu-lear explosions, as the Galactic Forces have stepped in to defuse all such actions.

Since then it has been pretty hectic, with Lightworkers facing stress of all kinds, but remarkable progress has been made nevertheless. Much of the information has to be kept under wraps, so as not to 'inform the

enemy' - stay in touch with the NE-ARA INTERNATIONAL group for the most reliable information, and the STASIS web page for the most comprehensive report on post-NESA-A conditions. [all plans subject to change!]
