~SOME TIPS ON HOW TO EXPERIENCE FRIENDLY AND LOVING VISITATION FROM  
EXTRATERRESTRIALS~ Indian in the machine

1. If you want to have a visitation from a friendly and loving spaceship, then ask with your thoughts any ships in your area, will be tapped into your request and it happens immediately.

2. Ask any bright objects, OF THE LIGHT, flying by in the night sky to power up as a sign that it is reading your request.

3. Make yourself available beforehand that you are available as a sky messenger or are open to a personal visitation, so that you can fit into the verall plan better. For example say with your thoughts, I am going for a walk this afternoon, and I will bring my camera, and I am willing to use that camera and make sure the batteries are charged.

4. Tell -od that you are willing to serve as a sky messenger and in what capacity G-d wants to know, what do you wish?

5. Be willing to see the sky with new eyes often the visitation will be designed to gently guide humanity to comprehend new realities.. new colors new concepts.

6. Look at a clear night sky and soft focus your eyes, see if there is movement with your peripheral vision.

7. Be open to forms of communication that you hadn't before perceived.

Feel the intelligence in the clouds, airplanes, meteors and such learn to use your discernment with more accuracy.

8. Go to Eceti Ranch website - or heck who knows maybe even visit the ranch in Mt. Adams Washington, where regular group viewings of extraterrestrial ships - you know they're on to something because m-litary regularly harasses - them and the lightships love to appear over there due to the high consciousness of the people, and the thinning of the veil in that section of mother earth.

9. Get a bunch of people together and have a sky sighting party. You can do this by holding the thought for friendly and loving visitation the point being that humans are more effective creators, as we hold our sincere and focused intention in larger groups we sit in ceremony in s-cred geometric formation for even greater effect.

10. If you have proven to be a true sky messenger by sharing your sky visitation experiences ie. that your experiences are shared in a manner which brings you joy and love then surely you can expect more of the

same.

11. If you receive a sky visitation try to perceive a message - use your intuition. close your eyes if necessary often there will be a message there, and it's to be perceived in a new way these sightings are lessons.

12. Keep the dialogue open in your mind, with our extraterrestrial visitors before you see them in the sky be a powerful creator for we humans on the ground are making this reality up as we go, just as our visitors of the sky do - make suggestions as to how you wish to engage with our extraterrestrial visitors of the Light.

13. Surround yourself with G-d Aton White Light Protection or any helpful ray of your choosing like the blue ray. the point being, the more Light the better at this time of visitation, righto?

14. Ask Go- that any visitor that is NOT of the Light, to depart your presence - better yet do an energy clearing before you even begin any of this process and lessen the odds to zero that this would happen.

15. Consciously connect with: The Galactic Federation of Light, Ashtar Command, The Sirians, The Pleiadians, The Arcturians, Hatonn, Sananda in the Light of course. all of this is in the light.s very important and I'm sure you get the idea we don't to be tricked at the last moment we create our reality and we are -ods in the remembering remembering our galactic family we are being guided home.

16. Experience yourself as a child of -od, that way you'll be open to new ways of being and new ways to co-create - don't be shy - if there are friendly and loving spaceships in your sky - ask what do you want to create with them?

17. Watch ufo related videos on the internet get a feel for what you may expect but also.. expect the unexpected. this sky journey is all about growth.

Keep rising up in your power and love.
