Over the years I have collected so much s=iritual matter that I decided to start going through it all so I knew what I had. This morning I came across this message which I felt was worth sharing. It very much helps to explain what is going on right now.

We are the Arcturians, we are here to answer our father's call for assistance. All here at this time are working on his plan to bring Earth back to the awareness of her true calling. Earth was intended to be a way-station for beings to learn many different lessons. Free will was always the most important part of life on Earth. However, because of free will, the beings on Earth became entangled with their own illusions and gradually lost their true reason for being incad. Many eons have passed and Mother Earth is now in danger of being destroyed. Our father has decreed that this will not happen. His plan has been put into operation. Many are here from all over the Universe and beyond to follow his plan to bring the Light and Love back into the Earth and advance Earth to the fourth dimension where she is to move. Our father will not allow his plan to fail. This is a most important way-station and he will not allow any failure. Many beings have chosen to i-carnate in Human form to act out their role in this plan. When awakened, each will know what shall be done. All are to be transformers for the Light and Love being sent by the many who are assisting from above. This Light and Love is being sent from our Father/G-d of the Great Central Sun.

We here above you are relaying this Light and Love into your atmosphere for all our in=arnated workers to begin their work, others in Human form will also awaken and begin their journey back to the awareness of -od. All are to awaken. All will have the choice of advancing with Earth into the fourth imension or remaining third dimensional. All s=uls who remain third dimensional will be removed and placed upon other worlds that have the same third-dimensional vibrations with which they are still resonating. This will be the choice of the individual so-l and all choices will honored. None will remain on the Earth in the third dimension. This is the plan of our father. Earth will be fourth-dimensional and all inhabitants will e-olve themselves into fourth density. Know that this plan will not be allowed to fail. All are to awaken and all will chose. Those choosing to allow the Love and Light to assist them in moving into the fourth density will also be assisting Earth in her advancement. Many are now in their awakening and much has been accomplished. More and more light is being anchored within the Earth. The changes have started and soon all will be able to see the Earth in her new growth. Know of what we speak. The veil has been lifted and all are to remember. When you follow your so-l's memories, you will find the G-d we speak of within your sou-. You have always been with -od and are to now awaken and return to your true reasoning for inca-nating. Allow these memories and follow your desires. The reason for our messages is to guide you into your awareness and then you will be able to remember your mission. It is time for you to remember your mission and assist Mother Earth and all arth inhabitants. All will have their choice of moving their physical body into fourth density where they will always have the awareness of their

oneness

with all creation. The time is now. All must awaken and realize their true heritage. All choices will be honored. Go- has provided for all who wish to advance and for all who wish to remain in third density. He has decreed that Earth will be he-led and allowed to move into fourth density. All know that this is why we are here, and that our work is to awaken all souls and assist in their remembrance of their true oneness with the God they had forgotten residing within their soul. Never allow any to alter your path. Choose - now and follow your heart and soul home to Go-. We will be with you if you seek assistance. Earth is in need and you are able to help by awakening and choosing

to anchor the Light and Love from our Father/God into the heart of Earth. Always allow this and much healing can be done within your Earth. Nothing is needed more than for all to awaken to the energies being sent and to allow them to be transmitted through you into Earth. This is God's plan; awaken and remember.

Choose now. Awaken and remember. BECKY
