Subject: We Chose To Come Here.
Jan. 27, 2012.

This tries to make the point that we close to come here to Earth and experience the things we are going through.

SaLuSa 27-January-2012

If as you say, you keep your ear to the ground, you will realize that matters are heading for a resounding victory for the Light. There is such a strong momentum towards it that it is going to be unstoppable, and means that positive signs of it will be there for all to see. You only get know of a small fraction of the developments that are taking place, and the dark Ones would naturally prefer that you were kept in the dark. However, brave s-uls continue to step forward at some risk to themselves, and are prepared to in form you of the hidden activities of the I-luminati. They are in fact helping to get the truth out in such a way that it does not immediately overwhelm people. That will create the right circumstances so that when the media can fully report the news, it will not cause too much of a shock which would otherwise surely be the case. You can for example look at the way that the truth about 9/11 has slowly been released, and has now reached a time when few people would not have come across it. The truth is ready to fully come out and it is no longer questionable, as it is supported by hundreds of experts whose evidence is professionally given.

Dear Ones, just bide your time as much has been prepared in advance that will allow the revelations to come pouring out. Lies and half truths will be easily revealed and those responsible will have no hiding place, although they prepare for their escape. It will be quite futile for them to imagine that with our advanced technology, we would be unable to track them down. Their fate is not the most important matter to us, as that is sealed anyway. Our first concern is the announcement to you of our presence, as that will allow us to freely contact you. Mass landings will clearly follow but do not expect it to be that quickly, but be assured that they will take place. We stand by for any eventuality, with a view to pushing forward to achieve a substantial gain for the Lightworkers.

There are so many people directly involved in your affairs, that it is not immediately apparent how much progress is being made. We are however pressing our allies to speed up their preparations, for the final actions that will remove the leading players of the dark Ones. As you will no doubt understand, it is all of you on Earth who have sufficient awareness to work with us who are essential to the outcome. We cannot just appear and "take over the Earth", as it would be taken as a violation of your responsibility to forge your own future, but we know that some of you cannot understand why we do not. Dear Ones, when the time is right we will have a big part to play in the final months of this year, (JW Please keep in mind that when they give a certain date like the final months of this year that is just a goal that they are trying to accomplish something. It may happen at that time or sometime earlier or later, it might not happen at all but it is something that they are trying their best to accomplish.) and until then we stay mainly in the back ground working with you to achieve success. We have been granted certain privileges that allow us a bigger input in some matters, and vitally important to the future is the Middle East. We have for quite along time been given authority to do whatever is necessary to keep the peace and prevent another w-r.

World peace is coming and the governmental changes that are near to occurring, will ensure that they bring peaceful and lasting changes around the world. The energies of the old paradigm will be dissolved or funneled into more positive channels, and the armed forces changed into those that are peace keeping. Any form of weaponry will be destroyed except for that which is purely used for defense purposes only. This will bring you into line with us, and in accordance with our creed that is based on peace and love. Our delight will be greatly increased when it is established that all nuclear devices have been disarmed. Your dark Ones intended to take such weapons into Space, and to your Moon but we informed them it was not allowed. They ignored this order and still tried to establish a Space Weapons Program, but it was prevented.

As your people have learnt, you cannot just fly off into Space and interfere with other life forms. That type of Universal freedom existed in the past and would fill many chapters in your history, but with the gradual elimination of warring or rebel groups virtual peace now exists. Until the changes are completed and you ascend, you are for the time being the only races that still wage war upon each other. Realization of the stupidity of war that benefits no one not even the so-called winners, eventually comes to souls after their unending experiences over many lives. Understand that like everything else you get involved in, you will between lives fully understand the consequences of your actions. There is nothing like actual experience to open your eyes to the truth, and it is why the Earth has been such a wonderful playground for you to play out your fantasies and desires.

Now many of you can look back upon your life and realize that your level of consciousness has grown out of your experiences. It has now reached a stage where the ways of the old no longer fulfill your personal desires, and you seek the higher life where Love and Light exist in abundance. It is exactly where you are expected to be after so many lives throughout duality, that have tested your ability to find and retain your Light once more. With the help you are now getting you are passing through a period of intense awakening, and it is a wonderful time for those who aspire to lift themselves up. There will not be another opportunity ascend such as the one you are about to experience, for a long time. So grasp it with both hands and focus your energy upon it and it will be yours, as it is not intended to be difficult for you to succeed. In fact we would view it as being a simple challenge that Light workers can overcome. Make your intent clear and put your energy into all that you do, ensuring that it is wholesome and going to lift up your vibrations. You are a being of Love and Light and live as one as far as possible, and you will undoubtedly notice the changes taking place in yourself.

I am SaLuSa from Sirius, and whilst not all of us of the Galactic Federation have had lives on Earth, we do understand the nature of your experiences.

You all volunteered for them and you chose a tough and extremely challenging way of life. Now you are to reap the fruits of your time on Earth, and we walk beside you on your path to Ascension. We surround you with our love and blessings as wonderful souls of Light.

Thank you SaLuSa.

Mike Quin-ey.
