This talks aboutg a lot of sightings made on Bluff Creek Road.

.....
.....

August 14, 1960. Bob Titmus sees the same 2 sets of BF tracks he saw a week before (see 64) on Mill Creek Ridge Road, 8 miles southeast of Hoopa.

Notice Creek

June 13, 1963. BF tracks 16 inches long are found crossing Notice Creek near Bluff Creek only 100 feet away from where 3 men were sleeping in a car.

1965 Indian road grader operator Dewey Haupe hears distant night whistles while bear hunting with Titmus, one whistle would cause a return whistle from opposite direction. Titmus tells Haupe it's BF.

Bluff Creek and Blue Creek Mountain Roads, logging roads June 19, 1967 Dewey Haupe finds lg tracks around his road grader 8am on a Monday morning; tell friend Larry Omeg then phones Titmus from Ed Saunder's place.

Summer 1967 Jim McClarin begins carving his now famous "Willow Creek BF Statue." No specific date given, just summer.
August 1967. BF tracks 16 inches long are found for 3 miles on Bluff Creek Road going from East Fork to Notice Creek by Bud Ryerson; he notifies Bob Titmus. August 1967 J. Crew and D. Haupe mention to Titmus a disturbance around the equipment staging area down near the bridge, vandals or BF?
August 1967. Bud Ryerson sees hundreds of 13 to 15 inch BF tracks on the road he is building on Blue Creek Mountain, west of Bluff Creek. Tractor parts are scattered all over the area; he notifies John Green, Bob Titmus and Al Hodgson. Green brings in tracking dogs, Jim McClarin, Rene Dahinden, S.C. Buttram and Dale Moffitt.

August 27/September Labor Day week1967 John Green and Rene Dahinden fly down to Bluff Creek in chartered Cessna 185 landing at Orleans airstrip; tracks are photographed. Al Hodgson and son Mike drive family station wagon to pick them up. Green tells Al Hodgsons to phone Patterson.

October 20, 1967. Bob Gimlin and Roger Patterson see and film motion pictures of a female BF just above Notice Creek between Onion Mountain, Bee Mountain and Fish Creek Butte. Her tracks measure 14 inches long.

Bluff Creek, California

1958. Lawrence Omeg sees a Bigfoot outside his shack after work on a logging job. He quits his job and leaves the following day.

September, 1958.

Bigfoot tracks are seen 4 different times on Bluff Creek Road, Titmus is notified.

October 1, 1958. Jerry Crew finds a quarter mile of BF tracks on Bluff Creek Road and makes casts.

October 12, 1958. Ray Kerr and Leslie Brezeale see a BF cross a 20' road in 2 strides and find tracks several miles south of where they are usually seen on Bluff Creek Road. Hired by Ray Wallace to track BF, they redouble their hunting effort but their dogs disappear a few days later and are never seen again. (The hunting dogs belonged to Ivan Marx)

A husband and wife flying a private plane over Bluff Creek see and follow BF tracks until they pass over the BF making them.

Mid October, 1958. BF tracks are seen again in Bluff Creek.

October 23, 1958. BF tracks are seen on Bluff Creek Road once again.

October 28, 1958. 2 miles of 16" BF tracks are seen on Bluff Creek Road.

October 30, 1958. BF tracks are seen going down a hill from Bluff Creek Road.

November 2, 1958. Bob Titmus and Ed Patrick find BF tracks on a Bluff Creek Sandbar.

September 26, 1962. Bob Titmus finds miles of BF tracks on Bluff Creek Road and in the creek bottom itself.

June 22, 1963. Skip Clark finds and casts a 15 inch BF track on Bluff Creek sandbar.

1963. Thomas Sourwine says a 300 pound boulder was used to repeatedly hit road building equipment near Bluff Creek.

June 30, 1963. BF tracks 10 to 15 inches long are found and cast in the Bluff Creek area.

1963. Pat Graves follows BF tracks for 5 miles from Laird Meadow to Bluff Creek Road at Notice Creek. Sticks in thick are found broken in the tracks.

Dave Blake finds BF tracks where a barrel of diesel fuel was thrown off the road.

1963. BF tracks 15 inches long are found at Bluff Creek logging operations, with boxes of spikes thrown around and sticks of dynamite bitten into.

August, 1963. BF tracks are found on Bluff Creek Road at Notice Creek bridge.

October 1963. Al Hodgson finds a set of BF tracks a few hundred yards above the Notice Creek bridge at Bluff Creek sandbar. The sandbar was washed away in the 1964 flood.

July 1964. Scout Master Joe Christensen Sr., and Boy Scout Camp medic Dick Beathel found (a mile from the camp) 17 inch by 7 1/2 inch bare footprints in the mud and cast them. The stride was around five feet between imprints; five toes. Photo of casts were published in the Modesto Bee on July 16, 1964. The location was 7 miles northeast of Mariposa, Mariposa County, California.

Summer 1964. Dave Blake often finds BF tracks at Laid Meadow at Blake and

Tregoning Logging operation west of Bluff Creek. A culvert 4 feet in diameter and 20 feet long is thrown into the canyon and 450 pound barrels of diesel fuel are moved around.

August 21, 1964. Roger Patterson finds and casts 17 inch tracks with a 52 inch stride on Laird Meadow Road.

September, 1964.

Samuel Brewer Jr. finds and casts a 15 - inch BF tracks with a 47 inch stride along Bluff Creek.

Fall, 1964. Dave Blake sees BF tracks around his logging equipment every morning for a week. A trailer load of 18 inch culverts is overturned while men are working nearby.

1965. Jay Rowland finds BF tracks along Bluff Creek a short distance from Notice Creek.

July, 1965. Steve Sanders and 2 others sleeping the a tent awake to see a large finger or stick opening their tent flap. Their yells scare it off. Investigating the next day, they find BF tracks 17 inches long and 7 inches wide around their tent at Blue Lake near Bluff Creek.

1966.

Richard Sides sees a BF squatting at Bluff Creek drinking water with cupped hands.

Fall, 1966.

Jay Roland sees BF tracks on a road a Scorpion Creek in the Bluff Creek area.

October 25, 1966. Dan Mullens finds BF tracks and an unopened case of oil cans crushed on Notice Creek.

August, 1967. Several BF tracks are found and cast by a road crew on Onion Mountain, west of Bluff Creek. The tracks measure 13 and 15 inches long.

August, 1967 Al Hodgson see's Patterson's 9" track on Bluff Creek Sandbar; casts a 14" track

August 1967. Bud Ryerson sees hundreds of 13 to 15 inch BF tracks on the road he is building on Blue Creek Mountain, west of Bluff Creek.

Tractor parts are scattered all over the area. Notifies John Green by company radio phone saying, "What you're looking for is here..."

August 15, 1967 Road grader operator Dewey Haupe arriving early to work discovers hour glass tracks near water tower, notifies Titmus.

September, 1967 Roger Patterson poured a plaster of paris cast of a left & right 9" child's track

November, 1967 - In remote area John Wenger of Summit City, found huge footprints showing only ball and five toes, no claws on the north shore of Shasta Lake.

The tracks went across sand isthmus towards brush covered two acre island off shore two miles east of Shasta Dam. Wenger counted seven clear tracks.

Barry Hennings of the Record Searchlight newspaper took casts and photographs; published them November 10, 1967.

June 1968. Steve Marlin and Bruce Cornwall find BF tracks between Bluff Creek and Fish Lake.
