Subject: Angel Healings.

Feb. 17, 2012.

In the past I had seen a TV show with an African American wearing white clothes, healing people. He would touch them and they would fall backwards and people would catch them. He said they were being healed by angels. He could even knock down many people at one time. I wanted to see if he could knock me down and give me a healing. I never found of any more information about him.

While searching for the man that I picked up and gave a ride home, one cold and windy night I left him out at a house in a trailer park. I went there and his neighbors said he wasn't home because his car was gone. I finally found his car at home so I went to the door and knocked on the wall. A lady came to the door and opened it. I asked her if husband was at home. She said, "Hi, John, what are you doing out this way." I asked her, "Do I know you". She replied, "Sure you know me, I meet you over at Ralph Squire's home many times." I then asked her to put her name and e-mail address on a piece of paper. She put down her name and said I already had her e-mail address because she was on my special e-mail list. Sure enough she was Alice Ray Golden a close friend of mine. She live in space 10 of the trailer home park across from the Chevron Station in Sierra Village, just east of Mi-Wuk on highway 108. The man I picked up and gave a ride to lived next door and his name was Ron, his wife's name is Connie.

Alice Ray and I talked for a while and she said that she did healing by the use of angels. She said that the angels had given her information that they were clearing out all the bad entities that had been pcessing people. That was good news to me.

Here is my e-mail to her and response to my email.
